Re: February Board Agenda Items

Mr. Stith:

The following are the items Engineering Design Group, Inc has for the February Board meeting.

Wilson Road Access Drive – Bus Garage BG#16-037

Construction update: (Contractor - McNutt Construction Company)
Project was substantially complete on August 31, 2016. All construction looks good. Punch list has been provided to the contractor and punch list items are currently being addressed. Establishment of grass in all disturbed areas is the major item to be completed on the punch list. Grass has been sown in disturbed areas and is doing well but still needs to get better established. Weather has delayed this project; however, overall construction is going well. Project closeout documents will be prepared for Board approval this spring upon completion of remaining punch list items by the contractor.

A revised BG1 is submitted for Board approval. The revised BG1 is required as a result of the change order previously approved by the Board. Said change order was required due to existing unsuitable soil conditions in a portion of the site.

Parking Lot Improvements – Bluegrass Middle School – BG#16-177

Construction update: (Contractor – Hall Contracting of Kentucky, Inc.)
All site improvements are complete. Project was substantially complete on August 3, 2016, prior to the start of school. All improvements, paving, striping, and signage look good. Punch list has been provided to the contractor and punch list items are currently being addressed. Establishment of grass in all disturbed areas is the major item to be completed on the punch list. Grass has been sown and or sod has been installed in disturbed areas and is doing well but still needs to get better established. Project closeout documents will be prepared for Board approval this spring upon completion of remaining punch list items by the contractor.

Proposed New Projects

Central Hardin High School – Sidewalk Improvements
East Hardin Middle School – Storm Drainage and Sanitary Sewer Improvements
The above projects are being presented to the Board for consideration.

If you have any questions or need anything else please feel free to contact me.

Respectfully Submitted,
Engineering Design Group, Inc.
