

Student Representative: Sydney Lewis – Locust Trace

Sydney Lewis is currently a 12th grade student at Lafayette High School & Locust Trace. She has been going to Locust Trace for 2 years now in the Ag. Mechanics program with Mr. Craig. She is the 2014-15 Locust Trace FFA Chapter Vice President. She is not originally from Lexington; she grew up in Garrard County. Her SAE for Locust Trace is lawn care and construction in Mercer County. She enjoys fishing on Herrington Lake and learning all she can about engines. Her plans after high school include going to a college or technical college for diesel technologies. She has looked into the air force for mechanical engineering as well. She would like to eventually own her own mechanics shop and have a farm to raise hogs on like my great grandfather.
