Topic	Sports Report
Sports Report	
Sport	Spring Bass Fishing
Positive Developments and Highlights	This sport activity continues to grow each year. As with several sports activities it has provided opportunities for a population of students who may not have previously been engaged with their school communities. Major League Fishing continues to be an invaluable partner in helping us run this tournament each year.
Issues of Concern (legal, playing Rules, fiscal management, etc.)	We may want to consider reviewing the tie breaker rule as well as reviewing the policy in regards to the minimum number of people allowed in the boat during the competition.
Championship Update/Review	This championship is scheduled for May 13-14 at Kentucky Dam Marina in Gilbertsville Kentucky.
Officials Update/Review	Major League Fishing continues to provide knowledgeable officials in regards to conducting weigh-ins and interpreting rules for this event.
Staff and Worker Update	Minimal staff/workers are needed for this event as there is no charge for attendance and the majority of the event takes place on the lake which minimizes the need for a large event staff.
Fiscal and Budget Issues and Review (attendance, etc.)	Cost is minimal (staff travel/hotels.) Major League Fishing does not charge the KHSAA for the use of it's trailer and/or it's officials.
Noteworthy Changes / Anticipates Changes	There is significant interest from some coaches in rotating the championship between Kentucky Lake and Lake Cumberland. The Fishing Coaches Association has been given a clear directive on what they would need to do in regards to gathering information prior to submitting a proposal to this office to consider rotating this championship.
