**Championship
Update/Review**

We had a great event this year (April 18) with no issues. Over 44 teams and about 600 students took part in the Championship with Harrison County bringing home both team titles. The Warren County Parks and Recreation Department continue to do a great job in helping out with allowing us the use of Ephram White Gymnasium.

**Officials
Update/Review**

Special thanks to Lisa Frye Johnson who is the NASP Co-ordinator for the Kentucky Department of Fish and Wildlife. Mrs. Johnson was our Head Rules Official. Additionally Travis Young, Jordan Waters, Brandon Combs from Warren East High School again helped out with set-up and execution of the event. Finally, thanks to Laura Parrish from MErcy Academy who was instrumental in helping us get the necessary targets from NASP this year. All of these individuals continue to give back to education-based athletics and are greatly appreciated.

**Fiscal and Budget
Issues and Review
(attendance, etc.)**

With our attendance being essentially flat compared to prior year, we expect to come in according to projections as we wrap up this event.
