THE CONTRACT IS CHANGED AS FOLLOWS:

(Insert a detailed description of the change and, if applicable, attach or reference specific exhibits. Also include agreed upon adjustments attributable to executed Construction Change Directives.)

Change Order No. 001 Item No. 001-01

S&Z Request For Change Order No. 001

Description: Transportation Office: Install new stationary laundry tub in the basement.

Explanation: The contractor notified us that the existing laundry tub is cracked and the sanitary piping associated with the fixture was deteriorated. The staff requested we replace the fixture.

Costs: \$994.00

Item No. 001-02

S&Z Request For Change Order No. 002

Description: Asbestos abatement of existing ductwork in the Transportation Office.

Explanation: Transportation Office: During the demolition work the contractor uncovered several pieces of ductwork that run from the first floor to the second floor. The ductwork is covered with an asbestos wrap. It was recommended the asbestos wrap be removed from the ductwork. In order to accomplish this additional plaster and lath had to be removed to permit access to the ductwork by the abatement contractor. A piece of ductwork also had to be replaced that was accidently cut. **Costs: \$7,730.00**

Item No. 001-03

S&Z Request For Change Order No. 003

Description: Add bolts and plates to the new wind columns in the Transportation Garage.

Explanation: Transportation Garage: The bolts and plates necessary to install the wind girts for the new steel columns in the garage were inadvertently not included with the bid documents. The change order is for adding these items to the wind columns.

Costs: \$4,080.00

Item No. 001-04

S&Z Request For Change Order No. 004

Description: Add snow-guards to the Transportation Office metal roof

Explanation: Transportation Office: Snow guards were not included on the original bid documents in the event a metal roof was selected over the base-bid shingle roof. Since the metal roof was accepted we strongly recommend that the snow guards be added to the metal roof to lessen the chance of snow or ice sliding off the metal roof and damaging buses or cars. **Costs: \$8,050.00**

TOTAL ADD: \$20,854.00

Will do, thank you for the clarification. Just call it \$4,800.00 for the abatement only with a \$1,000.00 deduct if it passes on the 1st sampling. We only had roughly 250 sqft of additional plaster figured to be removed (above/below base bid openings). Let me know if you need anything additional.

Thanks,

We actually removed the plaster in the old kitchen and took out the wall as well as the ceilings. It is open floor to ceiling on 1st floor. You state your price includes plaster/lathe demo so please remove from pricing

Understand that this aspect was not very much of the pricing. I was on vacation and have not made it down there since last Wednesday. We didn't factor the plaster that was included in the base bid or the area at the old kitchen where we
