

Aden Braeger  
September Student of the Month  
Talton K. Stone Middle School

Aden is an 8th grader at T. K. Stone Middle School and an excellent example of what a Panther should be. He is a great student and participates in a variety of activities. Aden runs cross-country and swims for EHS. He also plays lacrosse on a club team and enjoys mountain biking, playing video games and card games, and playing outside.

Aden's role model is his father who has worked hard in the military and experienced a lot of success. He always shares good advice and wisdom. Being one of 6 children in a military family has given Aden the experiences of living in Germany, New York, Kansas, Pennsylvania, Texas, and Kentucky. This life experience has taught Aden that you can make friends anywhere.

Aden's goal is to attend West Point Academy to major in Business and become an accountant, because he loves math and working with money.

Aden is a hard worker in class that knows when to socialize and have fun with friends and when to buckle down and get the work done. He is also a kind student that seems to genuinely look out for others. Aden is a great leader as well and can motivate his peers to get started on a task or do the work assigned. He is a student who puts forth his best effort no matter the task. I have enjoyed having him in my 8th grade honors ELA class so far this school year. - Tara Thomas

Aden has already distinguished himself as one of my students who refuses to settle for less than his best. Aden continues to ask deep, thought provoking questions of the content, engages in deep discussions about the world around us in relation to our topic of study, and always comes to class prepared to work and engage not only himself but his peers in discussions that spark inquiry and engagement. I look forward to continuing to work with Aden throughout this school year! - Nate Paden

Aden is a well-rounded student who loves to learn. It's truly a joy to have him in class, he brings a different perspective to the classroom. - Coral Linder
