

# **Covington Independent Public Schools- 2024-2025**

## **Comprehensive District Improvement Plan (CDIP)**

#### Rationale

School improvement efforts are a collaborative process involving multiple stakeholders. Through the improvement planning process, leaders focus on priority needs, funding, and closing achievement gaps among identified subgroups of students. When implemented with fidelity, the Comprehensive School Improvement Plan (CSIP) cultivates an environment that promotes student growth and achievement.

#### **Operational Definitions**

**Goal**: Long-term three to five year targets based on the required school level goals. Elementary/middle schools must have goals for proficiency, separate academic indicator, achievement gap, and growth. High schools must have goals for proficiency, separate academic indicators, achievement gap, graduation rate, and transition readiness. Long-term targets should be informed by The Needs Assessment for Schools.

Objective: Short-term target to be attained by the end of the current academic year. There can be multiple objectives for each goal.

**Strategy**: An approach to systematically address the process, practice, or condition that the school district will focus its efforts upon in order to reach its goals or objectives. There can be multiple strategies for each objective. The strategy can be based upon Kentucky's six (6) Key Core Work Processes listed below or another established improvement approach (i.e. *Six Sigma, Shipley, Baldridge, etc.*).

Activity: Actionable steps used to deploy the chosen strategy. There can be multiple activities for each strategy.

Measure of Success: Criteria that shows the impact of the work. The measures may be quantitative or qualitative, but are observable in some way.

Progress Monitoring: Process used to assess the implementation of the plan, the rate of improvement, and the effectiveness of the plan. Should include timelines and responsible individuals.

**Funding**: Local, state, or federal funds/grants used to support (or needed to support) the improvement initiative.

**Key Core Work Processes**: A series of processes identified by the Kentucky Department of Education that involve the majority of an organization's workforce and relate to its core competencies. These are the factors that determine an organization's success and help it prioritize areas for growth. (found at Kentucky Department of Education Website)

#### Requirements for Building an Improvement Plan

There are six (7) required district goals: proficiency, separate academic indicator, achievement gap, ELL progress, Quality of School Climate and Safety, graduation rate, and post-secondary readiness. The required school goals include the following:

For elementary/middle school, these include: proficiency, separate academic indicator, achievement gap, and, growth.

For high school, these include: proficiency, separate academic indicator, achievement gap, graduation rate, and transition readiness.

## **1: Proficiency Goal**

Goal 1 (State your proficiency goal.):									
By 2028, 100% of primary students in grades K-2 will read at or above grade level.									
By 2028, the district will increase the reading percentage of proficient/distinguished students from 44% to 70% (elementary); from 28% to 70% (middle), and from 21% to 70% (high). By 2028, the district will increase our Reading ACT composite score to 18.0. By 2028, the district will increase our English ACT composite score to 18.0.									
By 2028, the district will increase the math percentage of proficient/distinguished students from 29% to 70% (elementary); from 18% to 70% (middle), and from 14% to 70% (high). By 2028, the district will increase our Math ACT composite score to 18.0.									
By 2028, the district will increase our overall ACT composite score to 18.0.									
***The following strategies, activities, measures of success, progress monitoring, and funding applies to all students on-site and those teachers and students of our virtual academy.									
Objective         Strategy         Activities         Measure of Success         Progress Monitoring         Funding									

effective, culturally responsive, evidence-based, and provided to all students in the district?

#### KCWP 3: Design and Deliver Assessment Literacy

What evidence is there that you have a balanced assessment system, including classroom assessment for student learning?

## KCWP 4: Review, Analyze and Apply Data

What evidence is there that you have an established system for examining and interpreting all the data that is in schools (e.g., formative, summative, benchmark, and interim assessment data) in order to determine priorities for individual student success?

#### KCWP 2:

District Curriculum Director will provide collaborative district planning time for grades 3-5all content areas.

#### KCWP 3:

Align all schools with a **balanced assessment system** in our district, and all schools, which aligns the Kentucky Academic Standards with classroom assessment for learning, district common end-of-unit assessments, district benchmark assessments, and the Kentucky State Assessment.

#### KCMP 4:

Develop a **data-driven decision-making environment** in our district. Provide **training around formative assessment to** monitor student progress and provide ongoing feedback that students and teachers can use to improve teaching and learning.

(CIPS) virtual students and

families with the support and resources they need to be successful and progress through their KAS aligned online program.

## assessment for learning, and other formative assessments

that align with our common district end-of-unit assessments, district benchmarks, and the Kentucky State Assessment. The goal will be to develop a **balanced assessment system** district-wide. **On-site support will also be provided** to schools in building systems for assessment for learning development.

#### KCWP 4:

District leadership will provide assistance, modeling and guidance to principals, instructional coaches, and lead teachers with developing systems for analyzing and interpreting all data that is in schools (e.g., formative, summative, benchmark, state assessment data) to adjust instruction for students. We will provide this guidance per our District Longitudinal Data Reporting Schedule at District Leadership Meetings and on-site as needed with leadership teams.

Provide students support to **prepare them to take the ACT** at our high school. Students will use Mastery Prep throughout the year to prepare school leaders, coaches, and district level leaders <u>on an annual basis.</u>

**ACT practice will be implemented and** data will be analyzed by high school teachers, school leaders, coaches, and district level leaders <u>on an annual basis</u>.

District **disaggregated data** will be analyzed for all sub-groups for all the above <u>assessments when</u> <u>administered</u>. Results will be analyzed by teachers, coaches, school leaders, and district level leaders.

**Edgenuity data** will be monitored and analyzed <u>each day</u> by virtual teachers for all virtual academy students.

**District Focus Visit Data**- district team will complete Eleot and CLT walkthroughs with the school team collaboratively. Team will discuss scoring and next steps for school. Data from walkthroughs will be analyzed by district leadership, school leadership, and teachers. <u>Walkthroughs will take</u> place 4-5 times per year, more in more intensive schools.

**Curriculum surveys** will be offered to teachers <u>after every 1-2 units</u> of instruction.

IMPACT survey data will be will be analyzed by district leadership, school leadership, and teachers.

for the ACT in the Spring of   each year.     KCWP 2:
District Focus Visits : will be provided 2-4 times per vear for each school (additional for TSI/Cschools) with each schools' leadership team. Collaboration with on-site walkthroughs with a focus on improving instructional strategies which are highly effective and culturally responsive. We will score walkthroughs collaboratively to develop their skills with observation and next steps for teachers.Provide training and guidance for our virtual teachers in order to ensure online students receive equitable access to a rigorous curriculum.Provide training and guidance for our virtual teachers in order to ensure online students receive equitable access to a rigorous curriculum.Provide training and guidance for our virtual teachers in order to ensure online students receive equitable access to a rigorous curriculum.Provide training and guidance for our virtual teachers in order to ensure online students receive equitable access to a rigorous curriculum.Provide training and guidance for our virtual teachers in order to ensure online students receive equitable access to a rigorous curriculum.Provide training and guidance for our virtual teachers in order to ensure online students receive equitable access to a rigorous curriculum.Provide training and guidance for our virtual teachers in order to ensure online students receive equitable access to a rigorous curriculum.Provide training and guidance for our virtual teachers in order to ensure online students receive equitable access to a rigorous curriculum.Provide training and guidance for our virtual teachers in order to ensure online students receive equitable access to a rigorous curriculum.Provide training and guidance foreceive equitable access to a rigorous cu

### **2: Separate Academic Indicator**

#### Goal 2 (State your separate academic indicator goal.):

By 2028, increase proficiency in Social Studies from 35% percent proficient and distinguished to 68% percent for elementary, 16% to 54% for Middle School, and 12% to 32% for High School. By 2028, increase proficiency in Science from 26% percent proficient and distinguished to 52% percent for elementary, 6% to 38% for Middle School and 2% to 42% for High School. By 2028, increase proficiency in On-Demand Writing from 24% percent proficient and distinguished to 56% percent for elementary, 13% to 36% for Middle School and 6% to 58% for High School. By 2028, the district will increase our ACT composite score in Science to 20.0.

## Goal 5 (State your climate and safety goal.):

To improve the overall climate and safety conditions in all schools in our district.

## **6:** Postsecondary Readiness (high school only)

#### Goal 6 (State your postsecondary goal.):

The goal for Covington Independent Schools is for 100% of all graduates to be Postsecondary Ready when they graduate. The district's goal is that each graduate is equipped with the knowledge, skills, and dispositions to pursue a successful future. Kentucky's accountability system provides students with multiple, meaningful opportunities to engage in pathways that build awareness of career opportunities, provide real-world instruction and lead to credentials with labor market value, by 2028
