

# Preparing students for success.

Highly engaging, hands-on, career-focused learning experiences  
to guide students toward the next step in their learning journey.

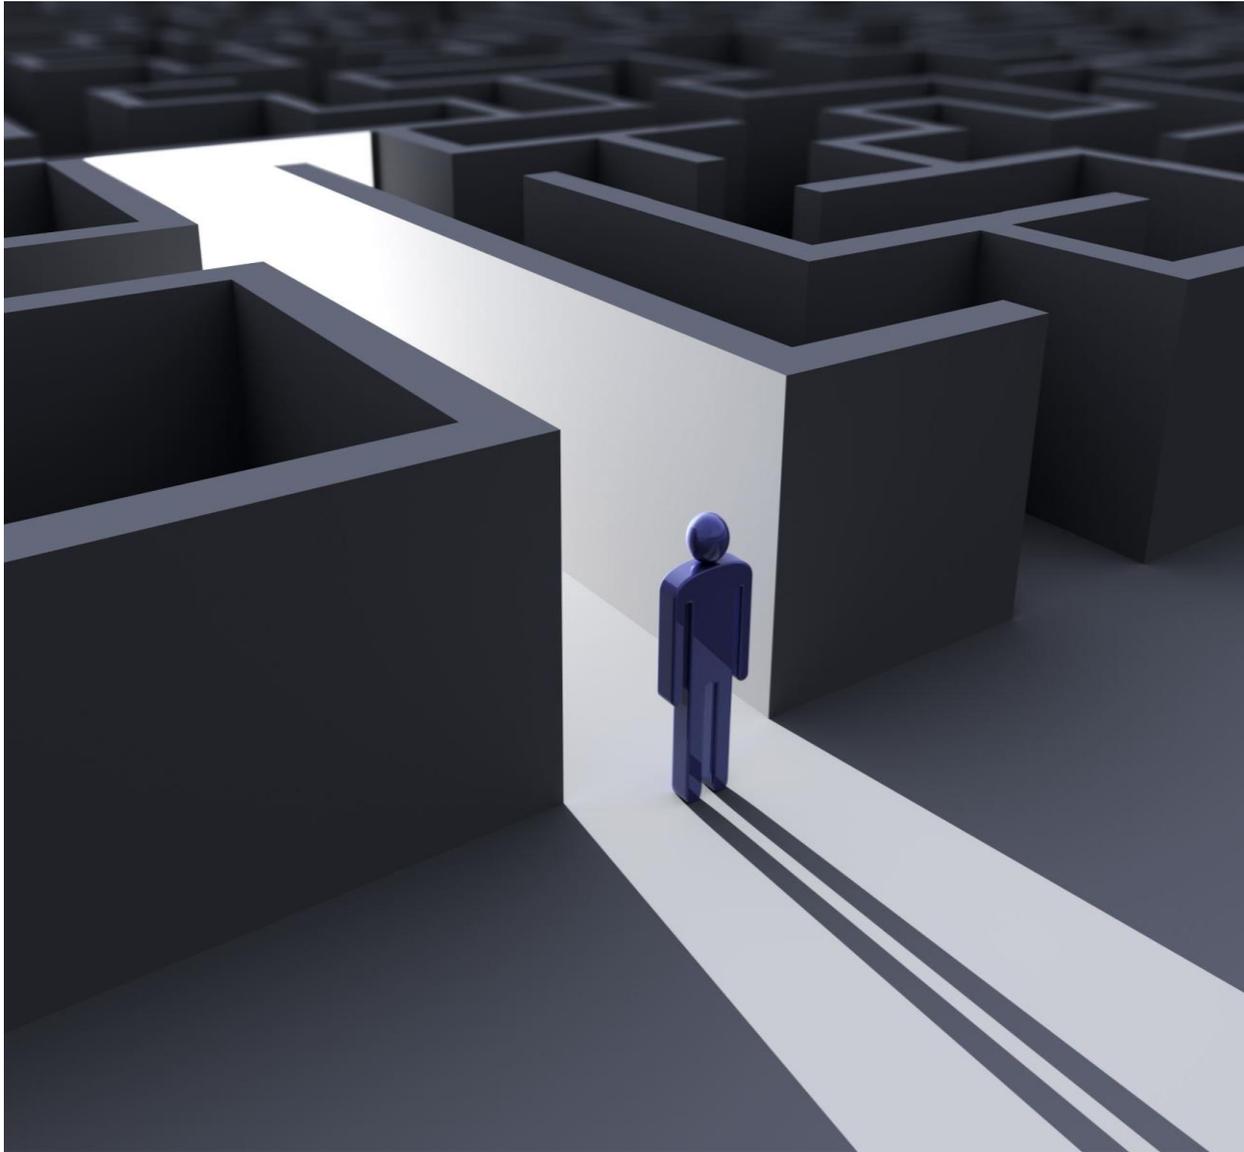

**PAXTON / PATTERSON®**

**LOUISVILLE  
BUSINESS FIRST**

**People to know in  
education & workforce  
development**

### **Paxton Patterson Mission:**

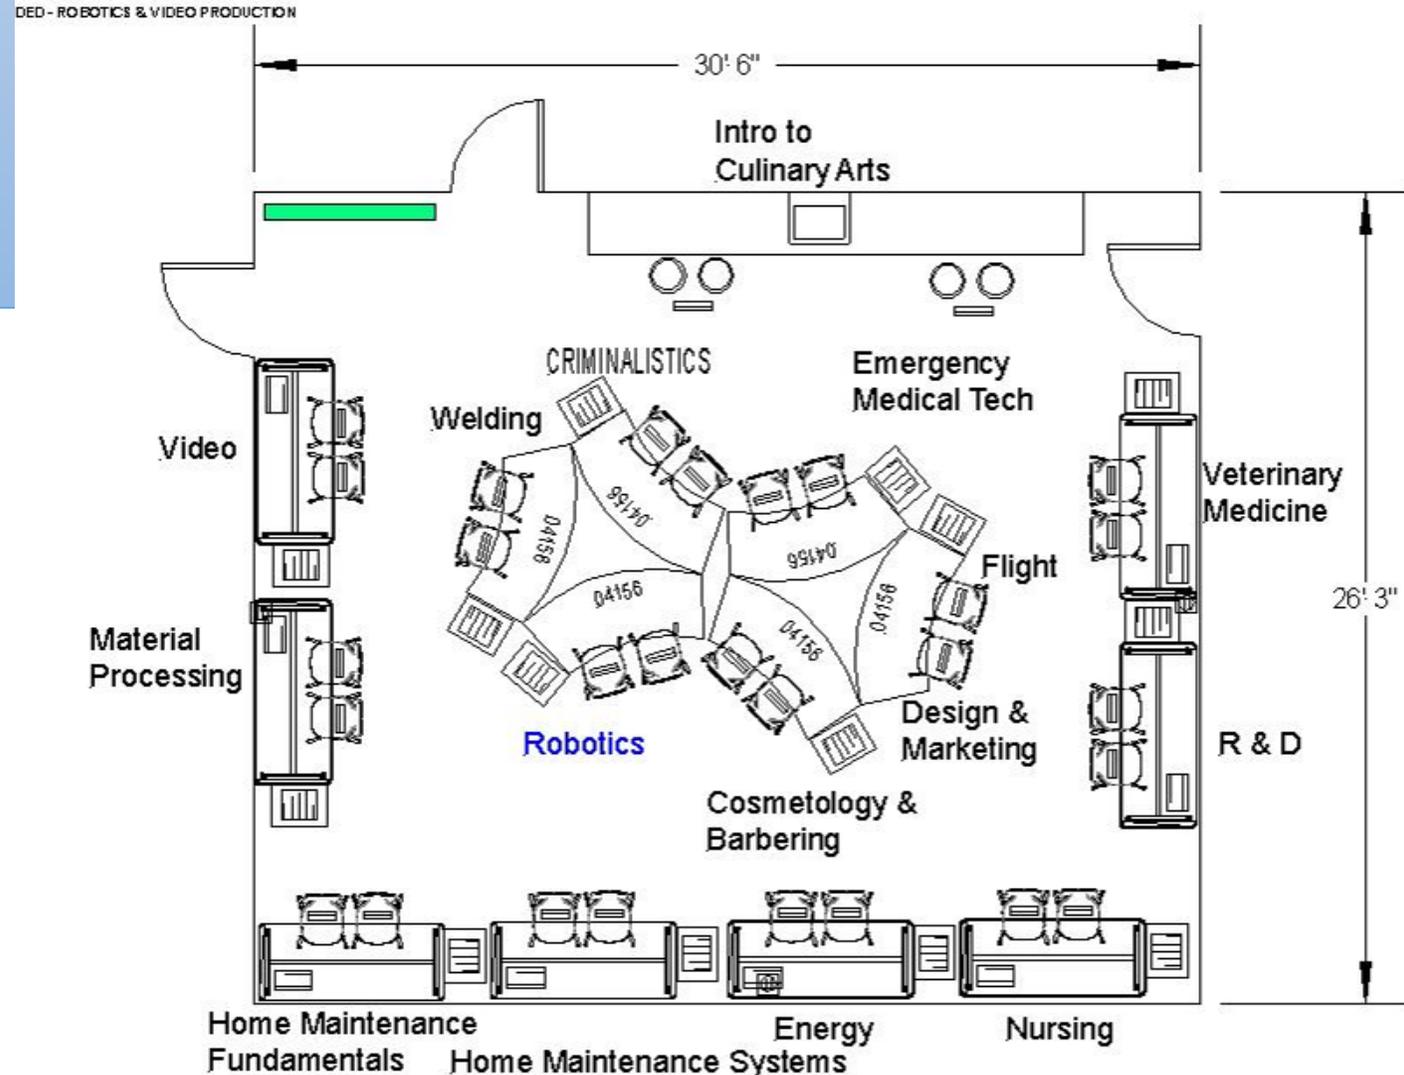

*We create highly engaging, hands-on, career focused learning experiences to guide students to the “next step” of their learning journey.*

### **Paxton Patterson Vision:**

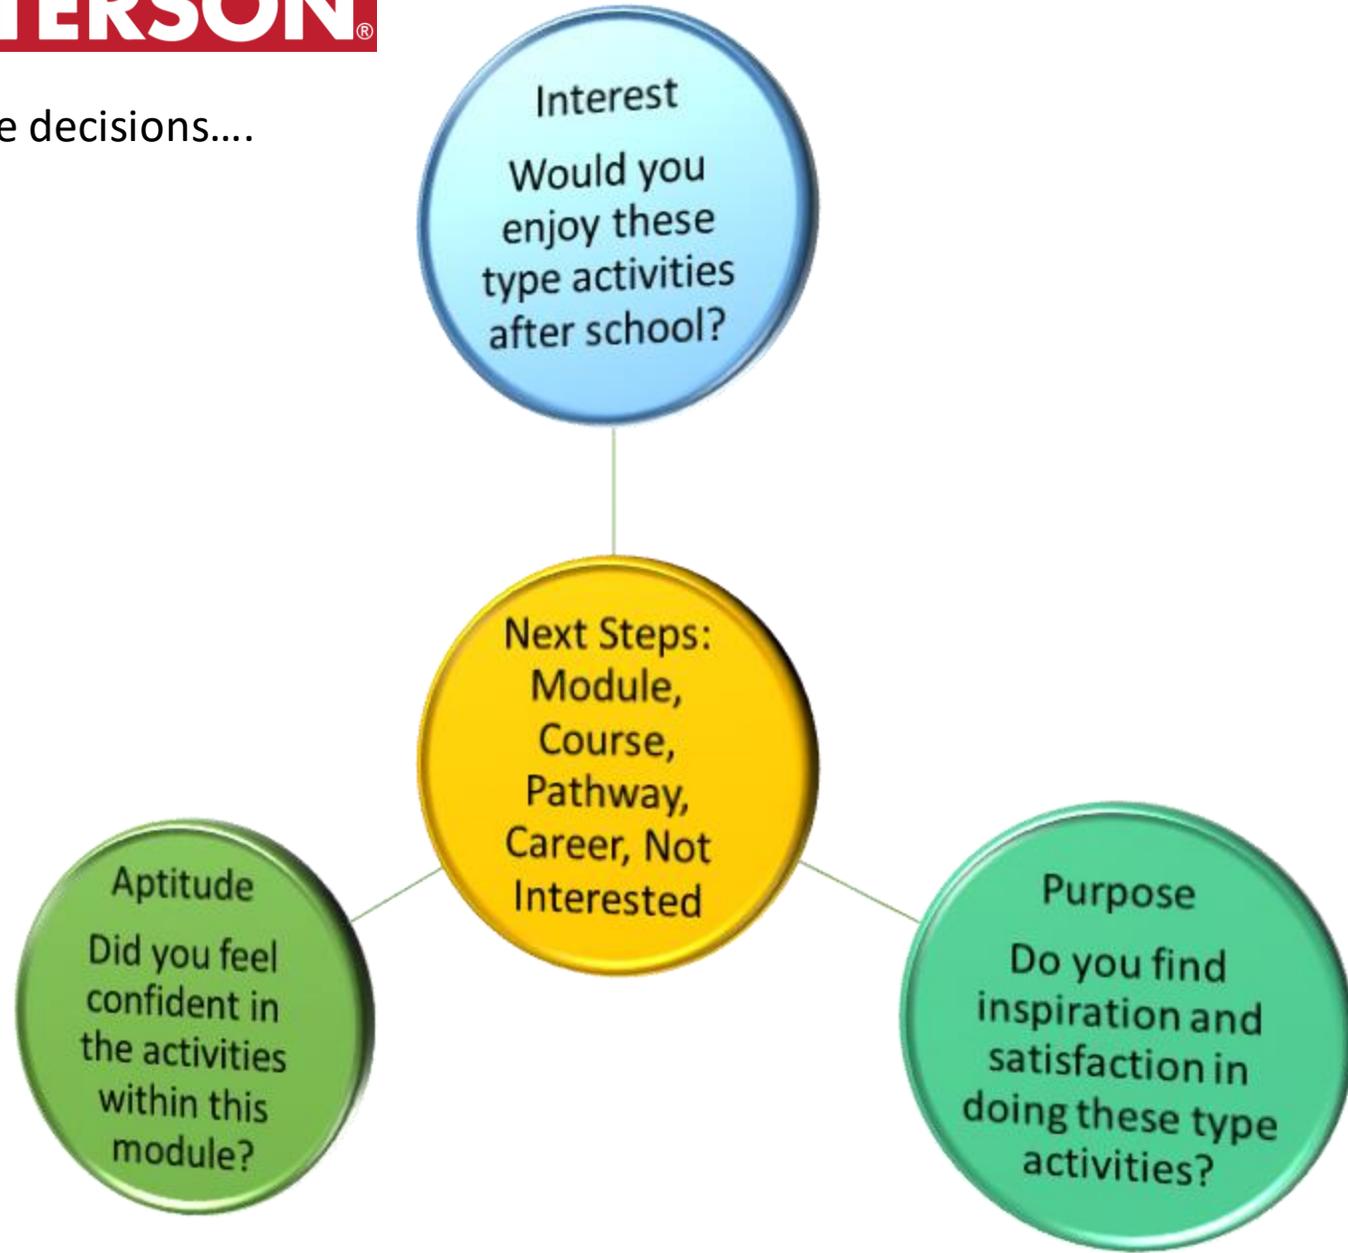

*Every student takes the next step in their development through awareness, interest, and belief based on practical experiences.*

# Transform your classroom to transform student learning!

- Students work in teams of two.
- Each team is assigned a high-quality career exploration module.
- Teams access 10 days of authentic hands-on instruction.
- Cost Effective – all items are in use and active-rotational model of delivery.
- Teacher serves as the facilitator of learning.

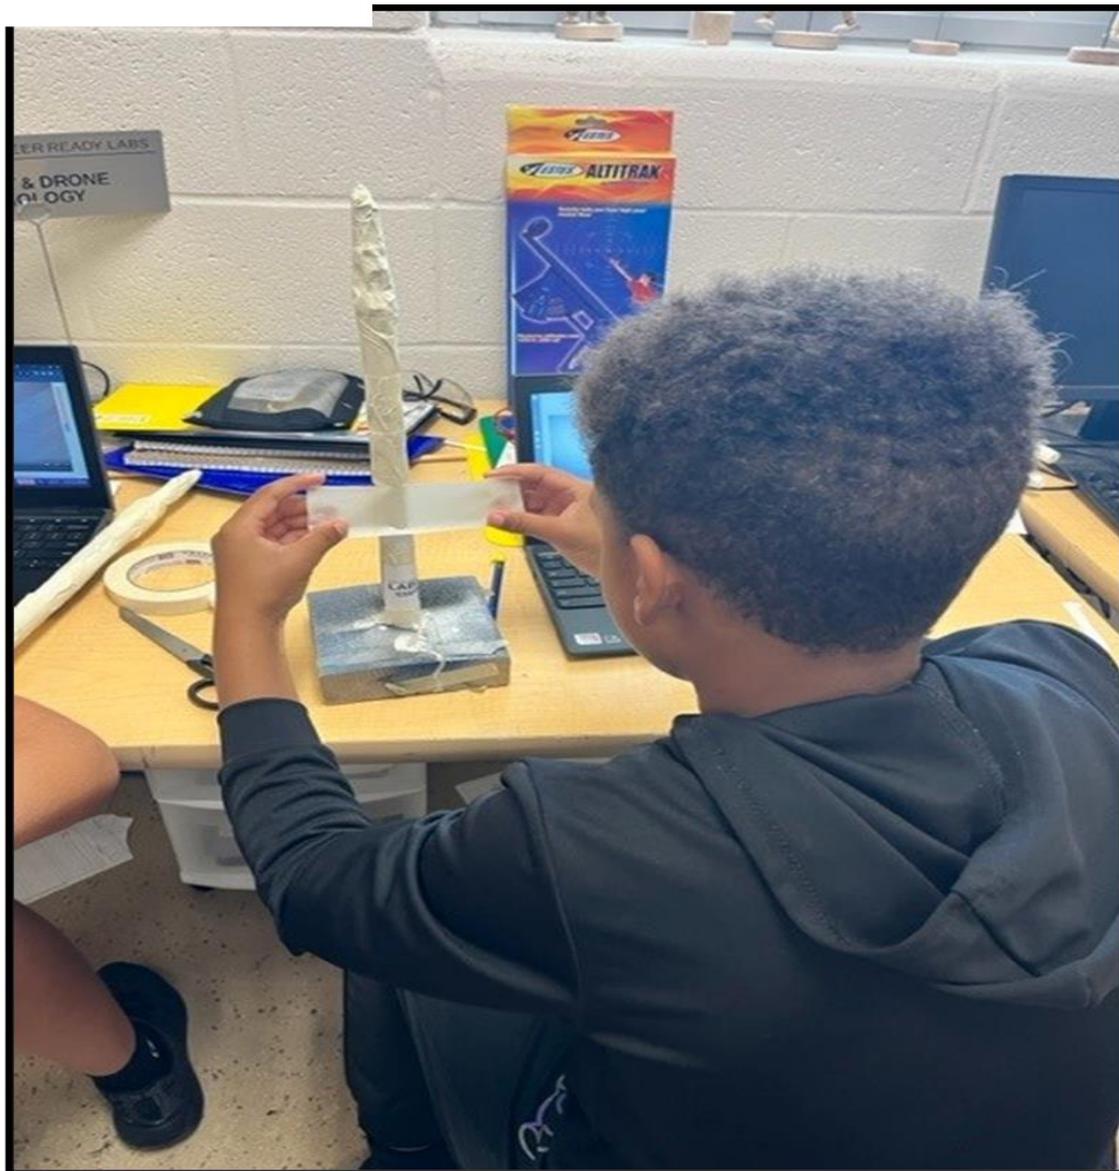

Young People / All People make decisions....

# Engagement Challenges

The **longer** students are enrolled in school, the less **engaged** they become

SOURCE- GALLUP POLL: <https://news.gallup.com/opinion/gallup/170525/school-cliff-student-engagement-drops-school-year.aspx>

## Passive Career Exploration Delivery

- Online Career Exploration
- Resume Building
- Passive college and career
- Speakers about careers
- Videos

“Research has identified **middle school** as a time when students can **benefit the most** from career exploration, a process of building self-awareness, learning about potential careers, and developing a plan for reaching future goals.”

# The right way: Career exploration in middle school

Middle-grade students want to explore topics they find interesting and relevant, including careers, and they want to do so in active, hands-on ways

**National Education Association:** Lorain, P. (N.d.). Brain Development in Young Adolescents: Good News for Middle School Teachers. Washington, DC.

**Association for Middle Level Education:** Caskey, M., & Ankara, Jr., V. A. (2014). Developmental Characteristics of Young Adolescents: Research Summary. Westerville, OH

+

Generational poverty is typically the result of a **lack of opportunity.**

Children who don't have access to high-quality education tend not to go on to college, and they wind up with low-paying hourly-wage jobs.

As adults, they don't have the time or resources to go back to school, and they raise their children in poverty.

○

**Access to opportunities and entry into high-paying careers can break this cycle of poverty.**

# ADDRESSING ABSENTEEISM

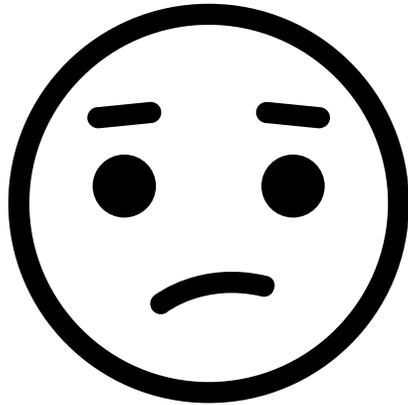

## STUDENT ENGAGEMENT & RELEVANCY

**81%** of student dropouts say relevant, real-world learning opportunities would have kept them in school

SOURCE: "The silent epidemic, perspectives of high school dropouts" bill & Melinda gates foundation

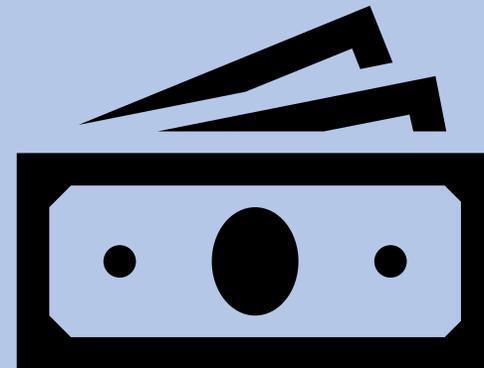

<https://docs.gatesfoundation.org/documents/the-silentepidemic3-06final.pdf>

# College indecision & salary surprises

- 50% of students start college with an undecided major
- 75% change majors at least once

Nearly 30% of Americans with Associate Degrees now make MORE than those with Bachelors Degrees

“Undecided First-Year Students: A 25-Year Longitudinal Study”, Virginia Gordon, George Steele and

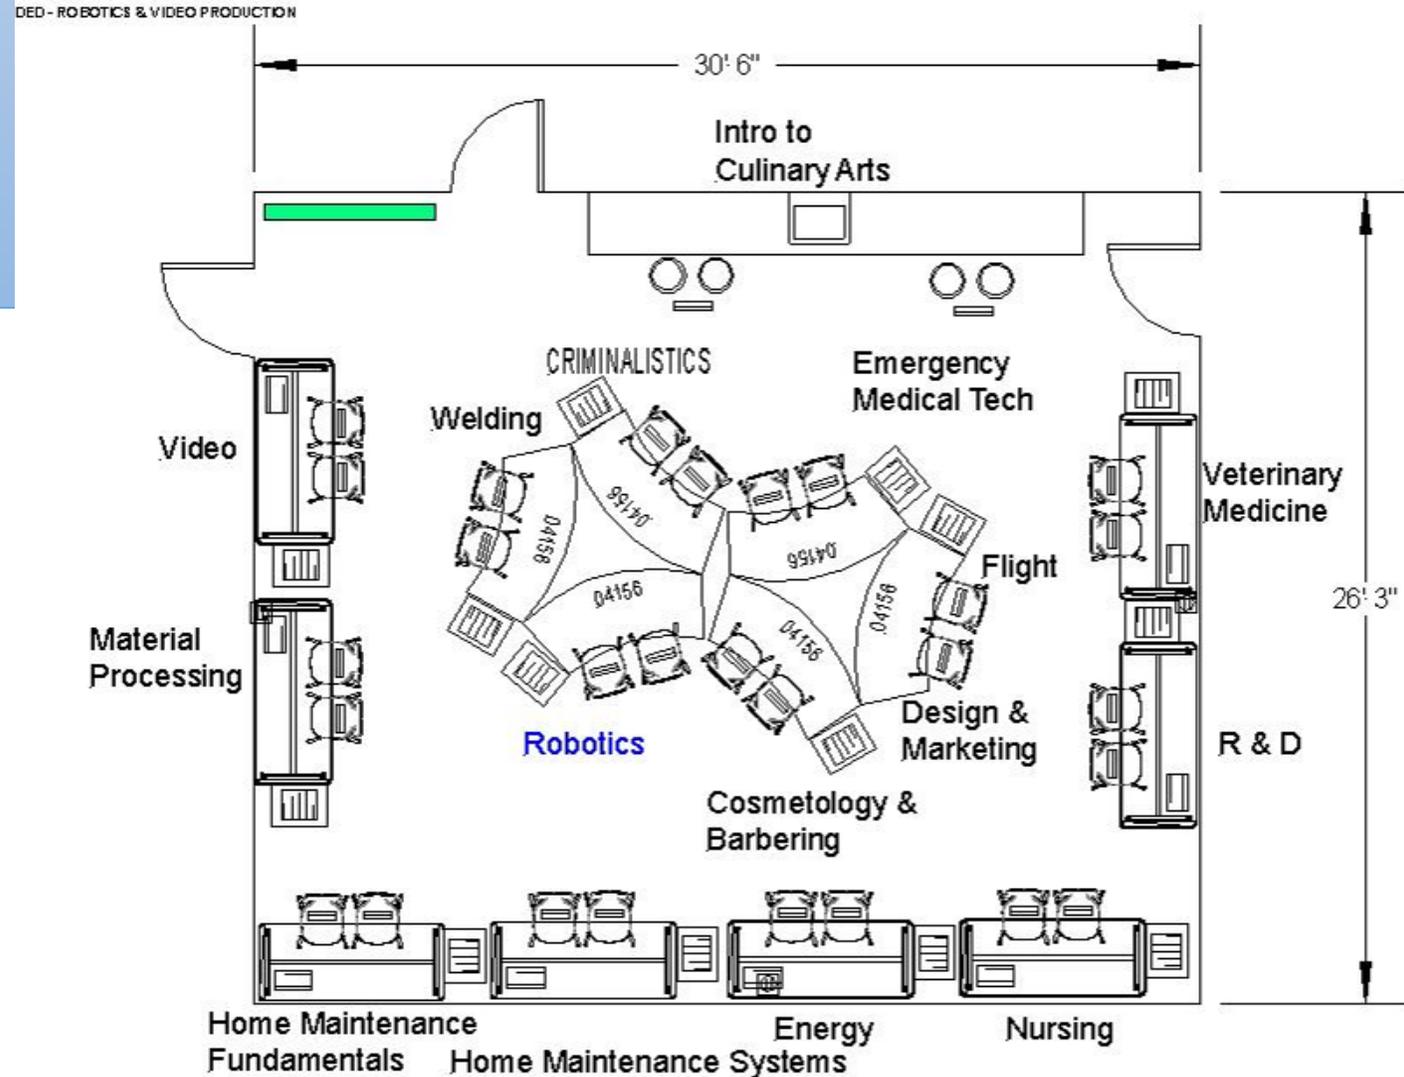

“Community College Grads Out Earn Bachelors Degree Holders”, Georgetown University’s Center on Education and the Workforce

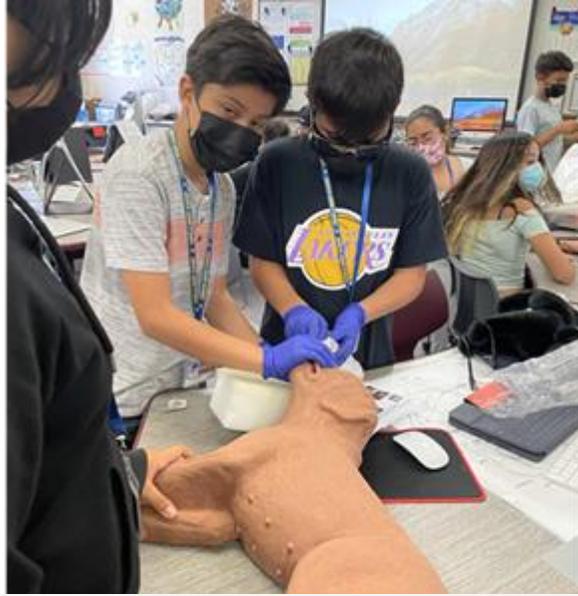

When The  
**WHY**  
Is Big Enough  
The  
**HOW**  
Is *Easy*

# Transform your classroom to transform student learning!

- Students work in teams of two.
- Each team is assigned a high-quality career exploration module.
- Teams access 10 days of authentic hands-on instruction.
- Rotational model of delivery.
- Teacher serves as the facilitator of learning.

**"MY CLASSROOM SETTING IS ANYTHING BUT TRADITIONAL. THE PAXTON/PATTERSON LABS CREATE AN ATMOSPHERE WHERE THE ROOM IS ALIVE WITH STUDENTS USING REAL TOOLS IN REAL-WORLD ACTIVITIES."**

## Teacher Impact of a Paxton Patterson Lab...

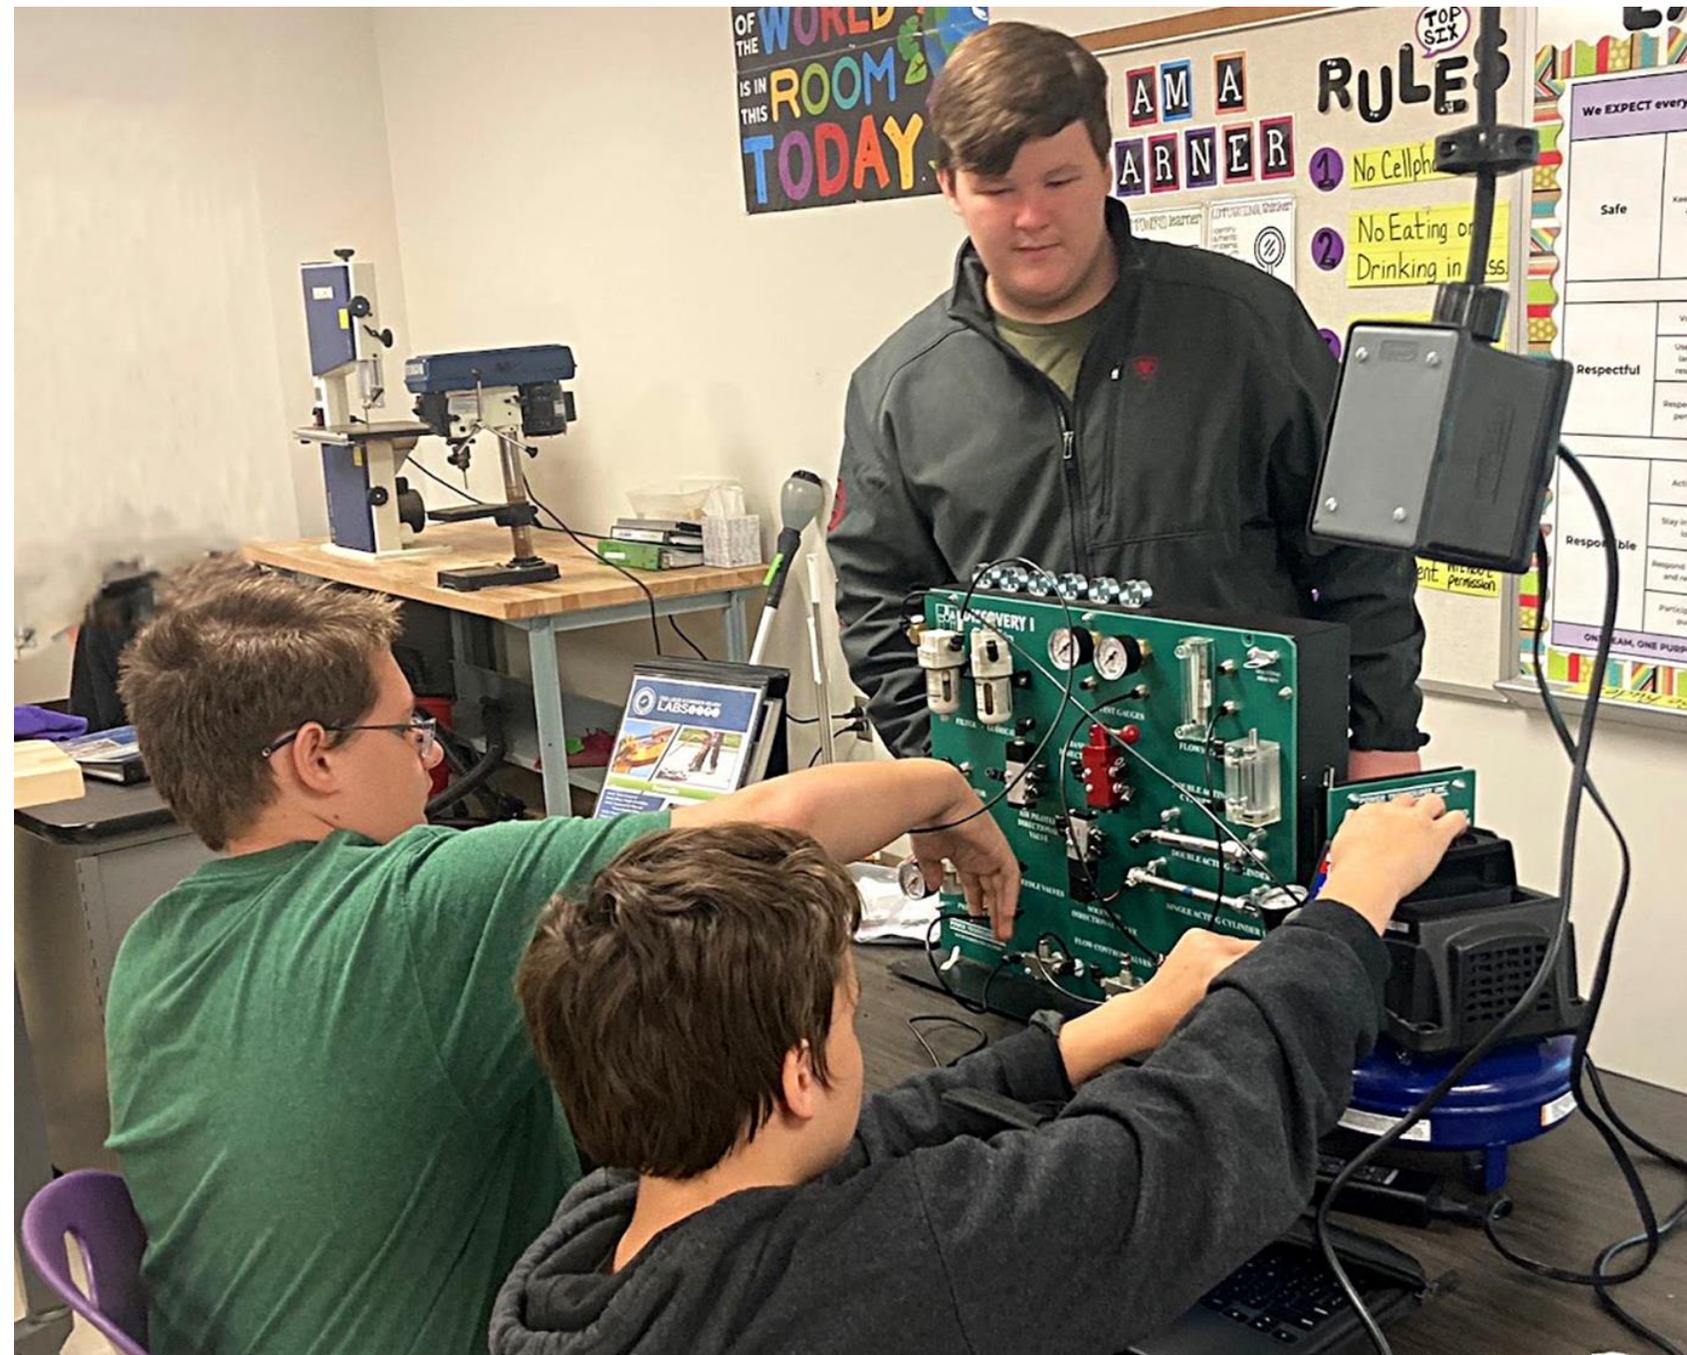

Equip the teacher with the curriculum, supplies, and equipment to provide authentic, deeper learning experiences.

Deliver, Unpack, and Install your lab. and provide a ½-full day on-site lab orientation

Teach you to facilitate learning and provide career exploration opportunities for all industry sectors to all students.

2-3 days of hands-on/Minds-On Training.

Ongoing technical support M-F.

## Student Impact of a Paxton Patterson Lab...

Determine their next steps based on experiences....

- *choose another module*

# Career Discovery Labs™

Elementary Career Labs provides the ultimate career exploration for primary school students by integrating everyday work with grade level math, science, reading, and critical thinking. These hands-on experiences align with career cluster skills and knowledge standards to help students discover their unique interests and talents. The setup is ideal for daily or weekly enrichment, after-school, and summer camps. Everything you need is included and organized for easy distribution and engagement.

- 12 Curriculum Areas
- 4 Hands-On Career Lessons in each area
- Career Ready Practices
- Compatible on All Devices
- Whole Class & Small Group Instruction
- Organized Storage System

CAREER DISCOVERY  
**LABS** 

## ALTERNATIVE ENERGY STEM

*Chemical battery technology • wind turbines • photovoltaic processes • calculating output • fuel cell cars*

## COMPUTER SCIENCE Information Technology

*Binary numbers • app design • logic statements & truth tables • basic programming • computational thinking*

## DESIGN/ PRE-CONSTRUCTION Architecture & Construction

*Using an architect's scale • technical drawings • orthographic drawings • scale drawings*

## ELECTRICITY STEM

*Conductivity • circuits • switches • resistance & continuity • circuit protection & fuses • electromagnetism*

## ENGINEERING STEM

*Beam construction & testing • cantilevers • geodesic domes • the design process • tower challenge*

## ENVIRONMENT & ECOLOGY Agriculture, STEM

*pH testing • water filtration • soil testing • sustainable packaging • composition of soil*

## FLIGHT PRINCIPLES STEM, Transportation

*Basic rocketry • principles of flight • flight systems • aerodynamics • rotary aircraft & autorotation*

## FORENSIC SCIENCE Law & Public Safety, STEM

*Investigating crimes • ink chromatography • handwriting analysis • fingerprints • impression evidence*

## HEALTH SCIENCE Health Science

*Preventing disease transmission • biotech R&D • pipetting • diagnostics • therapeutics & adaptive equipment*

## MANUFACTURING - PRODUCTION Manufacturing

*Mass production • quality control • using a caliper • the design process • prototyping • product design*

## NUTRITION & WELLNESS Human Services, Hospitality & Tourism

*Nutrition labels • creating healthy snacks • food safety • fat & sugar demonstration • calculating heart rate zones*

## ROBOTICS STEM

*Building recycled robots • VEX GO robot • basic programming • design & innovation challenges*

# CRIME SCENE

Day	Activity Name and Description	Standards	Duration	Resources
1	<b>★ Learning to Use the Proscope</b> Gain an understanding of digital microscope and software	ST-5		
2	<b>★ Investigating Fibers</b> Solve a crime by comparing different fibers to evidence fibers	ST-SM		
3	<b>Using Ink Chromatography</b> Solve a crime by comparing student created samples to evidence samples	ST-SM-1		
4	<b>★ (Part 2) Internet Research - FBI Fingerprinting and Investigating Fingerprints</b> Explore the FBI website; Learn about fingerprint patterns and create an official fingerprint identification card	ST-SM-2 ST-SM-3		
5	<b>Narrative Writing / Checkpoint Test</b> Critical writing explaining what a Proscope is and how it works and Checkpoint Test	ST-SM-3	2	
6	<b>Finding Evidence in the Soil</b> Solve a mystery by finding evidence in soil samples	ST-SM-1	2	
7	<b>Latent Fingerprints</b> Lift fingerprints from a crime scene	ST-SM-1	2	
8	<b>★ Design Brief</b> Utilize previously learned information to create a composite image and explain the benefits of utilizing software to solve crimes	ST-SM-2 ST-SM-3	3	CRP 1
9	<b>(Bonus) Internet Research - Composite Drawing</b> Explore website of a forensic artist; Explain the steps used to develop a composite drawing	ST-5 ST-SM-2	2	CRP 2 CRP 10
10	<b>(Bonus) Internet Research - Crime Scene Investigator</b> Website explains the profession of a Crime Scene Investigator (CSI)	ST-5	1	CRP 2 CRP 10
	<b>Argumentative Writing / Checkpoint Test</b> Critical writing explaining how the use of certain forensic technologies have led to using evidence to solve a crime and	ST-SM-1	3	CRP 2 CRP 4 CRP 7 CRP 8

# Career Exploration

Through our Learning Systems students learn the importance of:

- Career Clusters & Pathways
- Interest, Aptitude & Self-Discovery
- Self-Evaluation & Career Selection
- Career Research & Exploration

## MY NEXT MOVE

At the end of each module, students utilize the Career Exploration website *My Next Move* to research two careers of interest they learned about during the module.

Students research the following:

- Job Description
- Education Requirements
- Local Training & Opportunities
- Job Outlook & Salary

# Assessment

## Formative Assessment and Mastery Learning

- Practice Questions & Knowledge Checks
- Feedback System & Mastery
- Checkpoint Tests
- Critical Writing Assessments
- Rubrics

# Evidence & Feedback

Each day, students are asked to submit **Evidence of Learning** after completing activities. The instructor can Accept or Reject their Evidence.

Example:

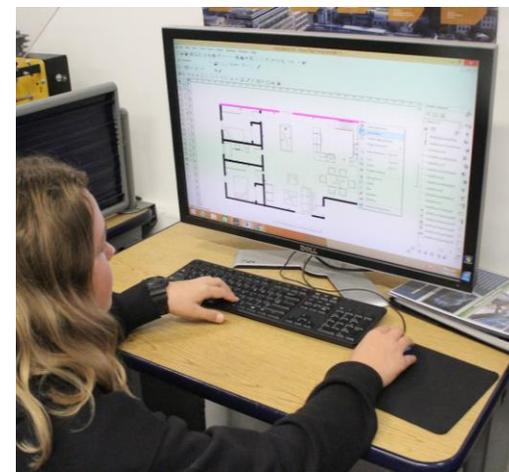

Step 3: Submit your Evidence

Submit a photo of your Scrambled Eggs.

SUBMIT FILE

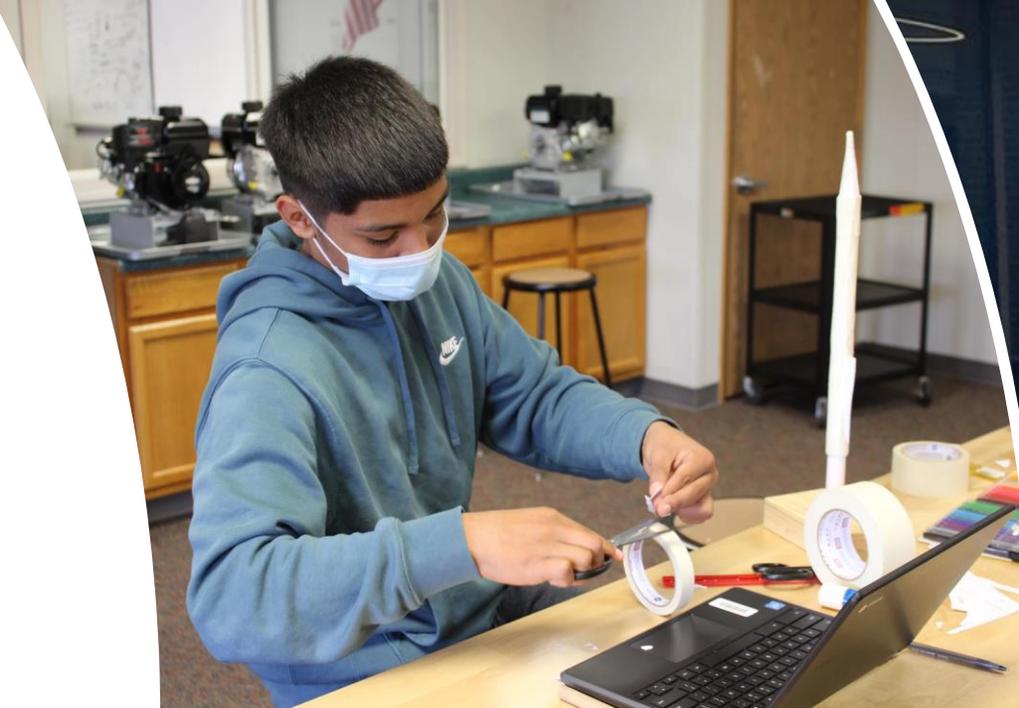

Describe the changes you would make or ways to improve this lab if you were given the chance to do it over again?

SUBMIT

# Flight & Drone Technology

- Build a Rocket
- Test a Rocket
- Launch a Rocket
- Basic Drone Operation

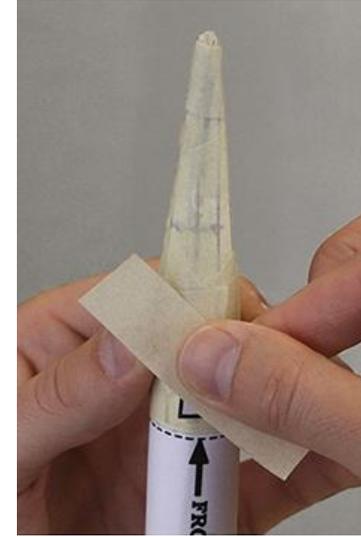

Ask three before me...

1. Partner collaboration

2. Video Support

3. Google Text to Speech  
(languages)

4. Read Instructions on screen  
and in binder.

**NOSE CONE &  
BODY TUBE  
PART II**

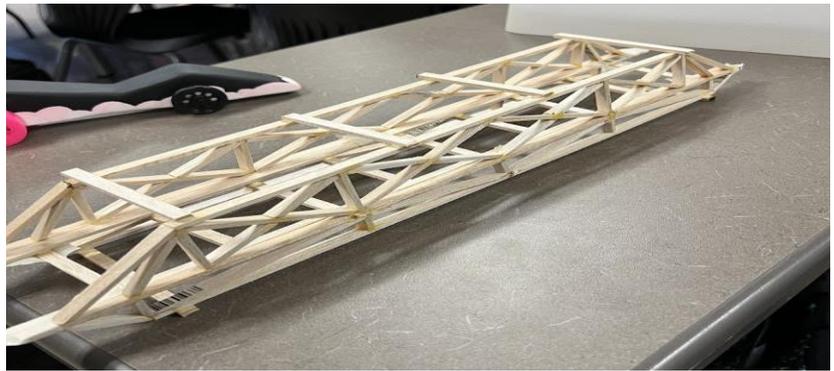

# Structural Engineering

- Handheld cutting tools.
- Build beams
- Design trusses
- Test beams and trusses

# Structural Engineering

## • Digital Audio Production

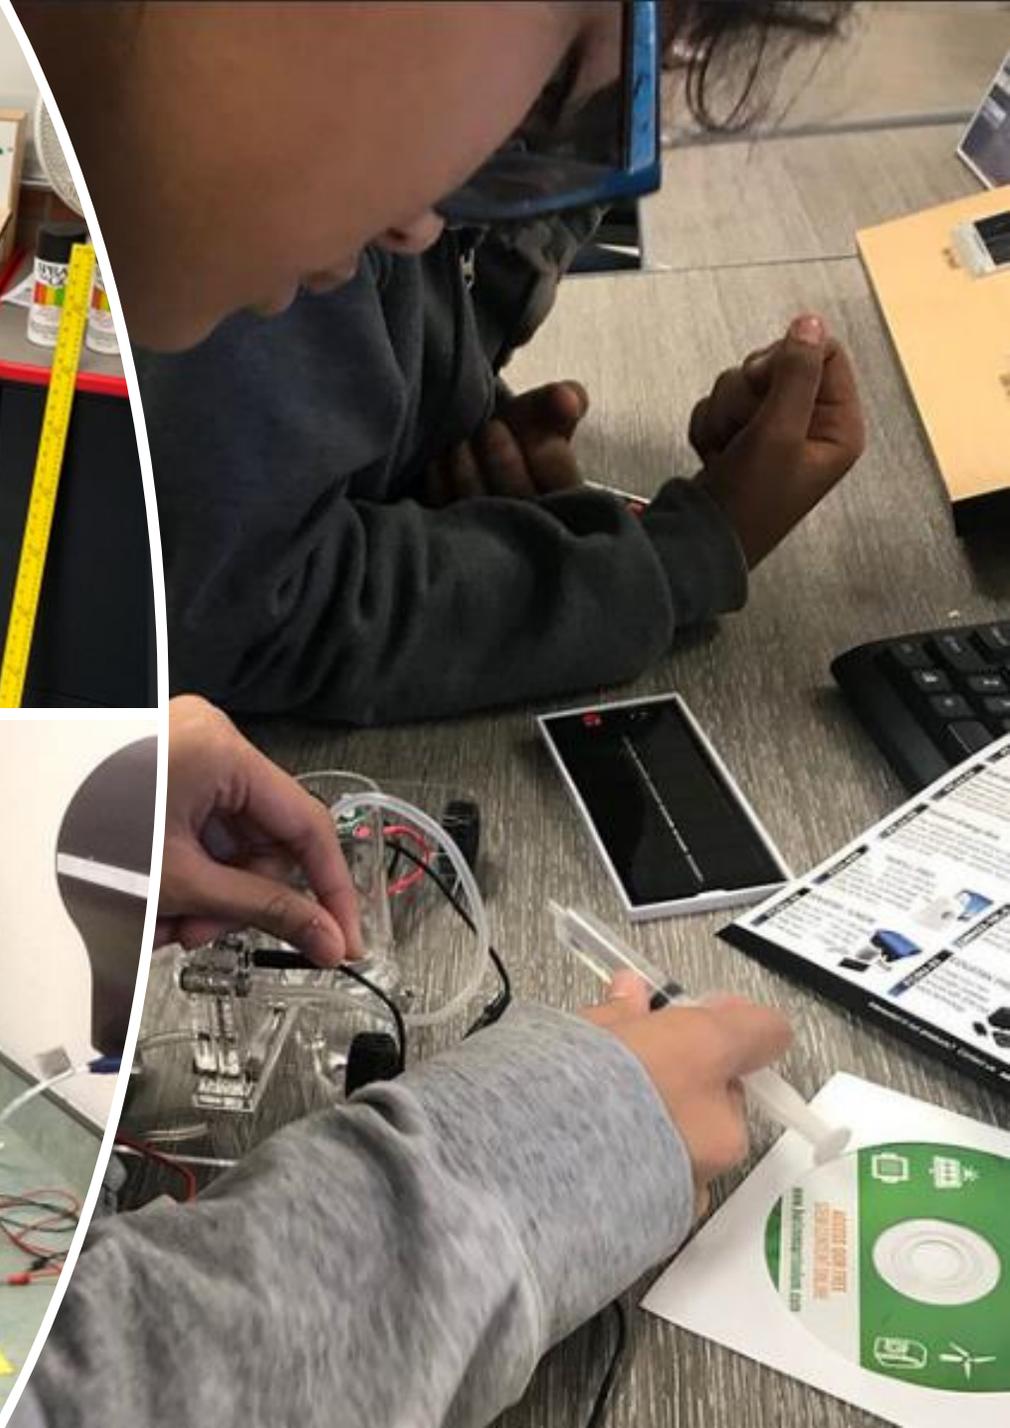

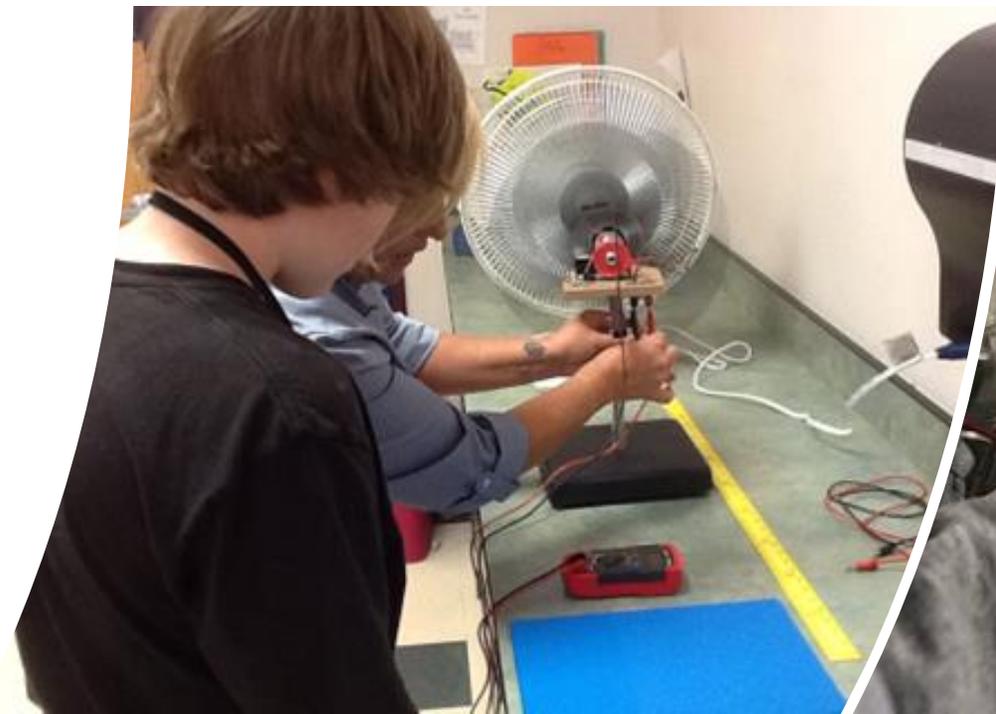

- Creating Beats
- Mixing/Balancing
- Multiple Tracks
- Basic & Advanced Editing
- Audio Quality
- Audio in Podcasts & Production Values

## Hospitality & Tourism

- Prepare a table for two
- Travel booking
- Conference room layouts
- Meeting & event planning

# Alternative Energy

- Create Electricity from Wind by Building a Turbine
- Hydrogen Fuel Cell Car
- Solar Panel Experiments
- Sources of Clean Energy

## Energy & power (small engines)

- 4-stroke Engine Disassembly & Reassembly
- Testing & Internal Engine Components
- Crankcase & Valves

Cosmetology & Barbering

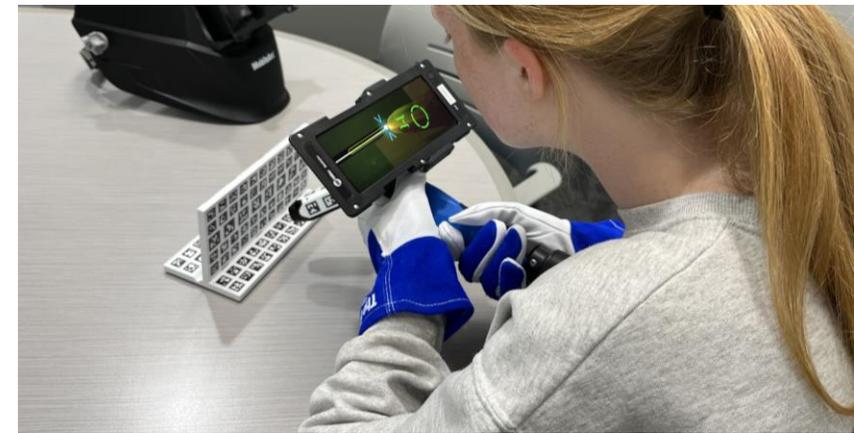

Biomedical Engineering

Introduction to Culinary Arts

## Home Maintenance Fundamentals

- Hand Tools
- Construction Terms
- Bathroom Faucet Maintenance
- Electrical Wiring Basics
- Installing a Light Fixture & Switch

# Sports Medicine

- Common sports-related injuries
- Taping/wrapping ankles/feet
- Knee rehabilitation
- Stabilizing a suspected neck injury
- Heart rate testing
- Brain injury
- Steroid abuse

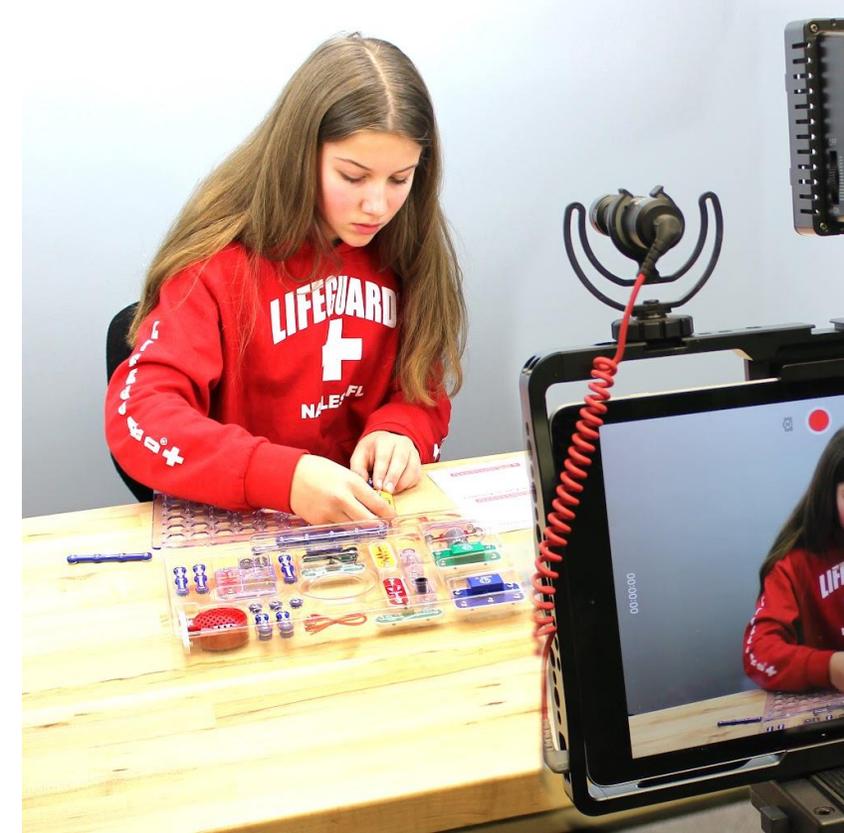

## Veterinary Medicine

- **Veterinary Medicine**
- Learning CPR for dogs
- Common parasites
- Surgical prep
- Preventing disease transmission

## Video Production

- Composition
- Camera & Lighting Techniques
- Basic & Advanced Editing
- Storyboards, Scripts
- Filming with Rule of Thirds

# Health Science Careers®

This Learning System prepares middle school and high school students for careers related to medicine, nursing, and health science programs – from Biomedical Engineering to Veterinary Medicine.

- Customizable Content
- Flexible 10-Day Schedule
- Any Device/Any Time
- Two-Person Teams
- Authentic Medical Equipment
- NAF Approved
- University of California A-G Approved Course

PICS

This learning system prepares middle school and high school students for careers related to medicine, nursing, and health science programs – from Biomedical Engineering to Veterinary Medicine.

- Available in 17 Health Science Career Areas
- Flexible 10 Day Schedule
- Accessible on Any Device, Any Time
- Two Person Teams

## BIOMEDICAL ENGINEERING

Training requirements • designing prosthetics • materials science • sensors • stents • muscle function analysis • craniotomy • organ replacement

## BIOTECHNOLOGY R & D

Lab Technician roles • lab safety • testing antibiotics • measuring bacterial inhibition • pre-clinical testing • sunscreen testing • biodiversity • bacterial growth analysis • DNA modeling • clinical trial statistics • clinical experiments

## CLINICAL LAB PRACTICES

Lab safety • phlebotomy • glucose testing • blood cell examination • instrument calibration • blood chemistry • bacterial identification • urinalysis • clinical trials • tissue examination

## DENTISTRY

Anatomy & charting • hygiene • tooth decay • radiography • research • tooth decay removal • gum disease • impressions • casting tooth models • dental examinations • cavity filling

## EMERGENCY MEDICAL TECHNICIAN

ABCs • vital signs & symptoms of injury • controlling bleeding • splints • virus vs. bacteria • infection control • wound care • EMT training • burn injuries & flammable textiles • CPR simulation

## ENVIRONMENTAL HEALTH & SAFETY

Medical environmental safety • safety hazards & procedures • infection control • sharps disposal • sterilization • examining & analyzing bacteria • infections • sanitation • equipment calibration • emergency response • safety regulations

## HEALTH INFORMATION MANAGEMENT

Medical records • coding • electronic health records • terminology • analyzing data • billing techniques & compliance • health insurance • HIPAA requirements & professional ethics • statistics

## INTRO TO HEALTH SCIENCE FOUNDATIONS

Pathway exploration • anatomy & physiology • diseases & disorders • prevention • infection control procedures • safety practices • communication • teamwork • legal responsibilities • ethics in healthcare • employability skills

## MEDICAL IMAGING

X-ray imaging & anatomy • positioning • identifying injuries • radiation • fluoroscopy • ultrasound & fetal measurements • endoscopy simulation • imaging technologies • radiation risks

- Customizable Content
- Authentic Medical Equipment
- NAF Approved
- University of California A-G Approved Course

## MENTAL HEALTH

Depression • drug abuse & alcohol disorders • eating disorder • bullying • conflict resolution • values & empathy • stress evaluation • PTSD • recognizing signs & intervention

## NURSING

Infection • sanitation • effective communication skills • vital sig • phlebotomy • sensing patient health • measurements, dilution & calculations • patient education • suturing

## OPHTHALMOLOGY

Eye anatomy & vision • vision testing • nearsightedness vs. farsightedness • lens identification • eye diseases • selecting eyeglasses • LASIK surgery • pediatric optometry

## PHARMACOLOGY

Prescription reading & labels • compounding • calculating dosages • medical errors • tablet & capsule identification • medical mathematics • patient information sheets

## SPEECH THERAPY

Speech anatomy • Autism • speech disorders • treatment • aphasia • abnormal swallowing • hearing testing • noise level testing & protection

## SPORTS MEDICINE

RICE method • basket weave taping • heart testing • treating toe & arch injuries • knee injuries & rehabilitation • face mask • spine boarding • steroid use • traumatic brain injuries

## THERAPEUTIC SERVICES

Physical vs. occupational • evaluation • range of motion • muscle testing • hip replacement recovery • evaluating stroke victim challenges • hand therapy exercises • pediatric therapy

## VETERINARY MEDICINE

Disease transmission prevention • animal safety • dog & cat skeletal systems • fractures • X-rays • calculating pet costs • preventative veterinary services • parasite identification

# BuildingSkills®

BuildingSkills allows students to utilize industry standard tools and equipment as they explore careers in the construction industry - from Blueprint Reading to Finish Carpentry Skills.

- Customizable Content
- Flexible 10-Day Schedule
- Any Device/Any Time
- Two-Person Teams

[PICS](#)

Students are given the opportunity to explore interests and aptitudes for a career in the construction industry.

- 10 Hour Units / Customizable Content
- Video Content Featuring Industry Experts
- Best Practices & Career Exploration

#### BLUEPRINT READING SKILLS

Sketching • symbols • plot plans • floor plans • elevation drawings • foundations • section drawings • schedules

#### CABINETMAKING SKILLS

Materials • cutting & edge banding • dado & biscuit joints • machining • prototyping • base & top construction • lamination • hardware & final assembly

#### COMMUNICATIONS SKILLS

Communication systems • connections & wiring • telephone extensions • installing & testing coax cables • multiple line installation • security systems

#### CONCRETE SKILLS

Volume estimation & calculations • concrete preparation • forming & rebar reinforcements • concrete mixtures • finishing

#### DRYWALL SKILLS

Drywall vs. Gypsum • steel framing • horizontal vs. vertical joints • butt & taper joints • corner bead • joint compound • finishing

#### ELECTRICAL SKILLS

Rough electrical installation • circuit installation • appliances & fixtures • safety features • EMT conduits • 3-way switches • green electrical practices

#### ESTIMATION SKILLS

Calculating costs • labor & material costs • project projections • documents, tools & schedules • estimations vs. final costs

#### FINISH CARPENTRY SKILLS

Window installation & leveling • flashing applications • shims, levels & squares • pre-hung door installation & casing • trim, molding & baseboards • measuring & cutting

#### GREEN CONSTRUCTION SKILLS

Photovoltaic panel • thermal efficiency • green plumbing • solar water heaters • green materials • efficient products • the four Rs

#### HAND TOOL SKILLS

Tool identification & applications • dovetail & mortise joints • tenon joints • simple machines • proper cutting & measuring

#### HVAC SKILLS

Electrical measurements • thermodynamics • climate control • air distribution • heat exchangers • HVAC systems & principles • A/C testing & maintenance • efficiency

- Accessible on Any Device, Any Time
- Industry-standard Equipment
- University of California A-G Approved Course

#### MASONRY SKILLS

Concrete masonry units • mortar & mixing • wall building & course calculations • corner leads • tooling joints & pointing

#### OCCUPATIONAL HEALTH & SAFETY CONSTRUCTION

Physical & health hazards in construction • safety checklists • tool hazards • workers' rights • PPE • safety & health regulations

#### PAINTING SKILLS

Calculating amounts • wall preparation & clean up • wall & trim painting • techniques & patterns • wood preparation & staining • effective brush & roller cleaning techniques

#### PLUMBING SKILLS

Pipe types & applications • fixtures • joining procedures • drain, waste & vent systems • sink & toilet installation • gas piping

#### POWER TOOL SKILLS

Bill of materials • ripping & laminating • cut types • joints • cutting & machining • assembling & finishing • project design

#### ROOF FRAMING SKILLS

Roof slope & rafter length calculation • geometry • cutting • stacking • cut & fit lookouts • fascia board installation

#### SURVEYING & SITE PLANNING SKILLS

Topography map reading • blueprint reading • transits • measuring distances, directions & angles between points & elevations • lines & contours • site planning & modeling

#### TILE SETTING SKILLS

Measuring & calculations • cutting tile • laying & setting tile • grouting tile • setting vertical tile • finishing techniques

#### WALL FRAMING SKILLS

Measuring & framing members • layout & plating • framing walls • framing doors and windows • headers • standing walls • nail driving techniques

#### WEATHERIZATION SKILLS

Caulking • weather-stripping • sealing ducts • pipe insulation • window glazing • building insulation • duct and blower door testing • water efficiency • customer service
