Impact Survey Data

- Data Analysis
- Shared with Staff
- We grew in every area: **Strongest Area** was Staff-Leadership Relationships. Our **Lowest Area** was Resources. Our Area that grew the most was Managing Student Behavior.
- Vs. Kentucky Middle Schools we are above the avg. in 8 out of 9 categories and we grew 19% in the one that we are not higher
- Vs. The Whole State of KY we are above the avg. in 8 out 9 categories and we grew 19% in the one that we are not higher
- Vs. Covington Independent we are above the District Avg. in 8 out of 9 Categories and we grew 19% in the one that we are not higher.
- What Now?: We have began looking at resources in our building. We have requested staff wishlists. We have began to revisit the programs we have (What we need and What we don't need to be more efficient in getting quality resources over quantity).

School Culture

Quality of School Climate and Safety Data

- We grew in 11 out of 27 areas (40.7%)
- We are above the District Avg. in 4 categories (14.8%)
- Our lowest scoring area is: “Bullying is NOT a problem for this school” (This happens to be an area that we are above the District Avg.)
- **What have we done?:** We have started using the language from the survey. We have developed a survey that we can use to take a pulse on where we are currently. We have used PRIDE TIME to teach SEL Lessons. We are defining the word “Bullying”. We have Incident Reporting Sheets for students to fill out in our Behavior/Counseling Area. This has been discussed in Team Meetings, PLCs, Foundation Meetings. We have our Incentive Cart back for the Bulldog Bucks. These issues are also currently being analyzed and addressed in Student Council and Student Support. Ms. Harden reaches out to the community for more mentors.

PROFESSIONAL DEVELOPMENT

DEVELOPMENT

FEEDBACK

- Staff likes how the Central Office and our Building Leadership takes survey data to develop PDs for this year and next.

AREA OF IMPROVEMENT

- Our staff would like to see more staff development targeting the Middle School. Staff stated it has become better but still needs to be focused on the Middle School needs.

Implementation

- Our implementation is monitored through classroom visits, PLC discussions, and student data.
