

Health at School Update

Planning for 2021-2022

Subject to change based on future guidance from KDE and DPH.

- **Screening** will take place randomly for non-symptomatic students.
- All employees and students will be **masked** unless actively eating or drinking. If outdoors, students may be unmasked if social distanced at 6 ft. or more.
- During instruction, we will **socially distance** at 3 ft. While unmasked at lunch, all individuals must be placed 6 ft. apart.
- All **sanitizing** protocol will remain the same as the 20-21 school year.
- Nurses will continue to **contact trace** with each positive case.

*Measures listed above follow current protocol in KDE's Healthy at Schools Document.
