Course number	Course Title	Course Description
2201	KIDFIT	This will be a 45 minute class that will focus on having fun with fitness. The students will participate in cardio games, fitness stations, and other fun fitness activities! The purpose for this class is to ignite a passion for being physically active through fun activities. We will also have a healthy eating tip of the day. Students should wear comfortable clothes/shoes and bring a water bottle.
2202	Sports Frenzy	This class will provide opportunities for students to practice skills for a variety of different sports (pickleball, volleyball, floor hockey, badminton, and student choice), play modified games, and participate in fun cardio activities. All skill levels are welcome!
2203	Needlepointing 101 For Fun	This course is a basic introduction to needlepointing. Students will be taught the basic techniques of needlepoint. They will learn how to cut their thread, thread their needle, start their thread, end their thread, and change colors. By the end of the week, each student will create their own needlepoint canvas that they can display and frame. Come get hooked on needlepointing, and discover how therapeutic and enticing it can be!
2204	It's Not Magic...It's Science!	Have you ever wondered how things in the natural world happen? Participants will investigate a natural phenomenon daily by performing science experiments, gathering evidence, and making a claim to explain why. Daily science labs will involve hands-on learning that excite and engage. Remember, it's not magic...it's science!
2205	Fundamentals of Basketball	Come work on your basketball fundamentals with Coach Richey & Coach Listerman. We will be working on the basic fundamentals of basketball - dribbling & shooting! Come work on your skills with us!
2206	How to become an Explorer of the World: STEM Academy	How to be an Explorer of the World: STEM ACADEMY  Are you looking for an adventure this summer that will immerse you in nature and expose you to real science in action? Then the 2021 STEM ACADEMY is for you! You will explore nature, make observations, collect specimens, ask questions and conduct experiments to answer YOUR questions. You will be led by experienced entomologists the "BugChicks" and High School teachers Mrs. Epperson and Ms. Kemp in unforgettable activities that incorporate the tools of research and the promotion of social, emotional and personal discovery. Students taking AP Research, APES, AP Bio, Sustaining the Environment, Intro to Education SHOULD attend this academy!  We will be hiking, camping, boating, bird watching, citizen sciencing, wandering, laughing, cooking, using technology, engineering, measuring, collecting data, analyzing, making new friends, overcoming fears, and making great memories!! We have SWAG too! #getbuggy23
2207	Intro to MacBooks	Get a jump on (or improve) your technology skills for the transition from elementary to middle school. Students will learn computer basics that will help them feel more comfortable moving from an ipad to a Macbook. They will get tips for navigating the different programs and settings, as well as getting a head start on typing skills.
2208	Happy Hikers	Each day we will meet at a local park to play games, make crafts, hike trails and log our adventures in our new hiking journals!
2209	Art Studio	Each day, students will experiment and create with a variety of 2-D and 3-D art materials. Artists will have the opportunity to discover how they can each create unique, one-of-kind artworks inspiring their amazing ideas!
2210	Art Studio	Each day, students will experiment and create with a variety of 2-D and 3-D art materials. Artists will have the opportunity to discover how they can each create unique, one-of-kind artworks inspiring their amazing ideas!
2211	Intro to MacBooks	Get a jump on (or improve) your technology skills for the transition from elementary to middle school. Students will learn computer basics that will help them feel more comfortable moving from an ipad to a Macbook. They will get tips for navigating the different programs and settings, as well as getting a head start on typing skills.
2212	Creative Writing Workshop	Come to the creative writing workshop to brainstorm stories, create characters, and participate in fun activities to grow your creative writing abilities.
2213	Math Bootcamp (Incoming Fifth)	Math Bootcamp is for incoming fifth graders to review fourth grade math skills. We will review with fun games and ensure that your student is better prepared for fifth grade Math! Bootcamp will be offered on four dates, Monday June 20th, Wednesday June 22nd, Monday July 11th, and Wednesday July 13th. Your student is welcomed to attend one, or all four! We will do a mixture of skills at each meeting in order to be sure we're keeping skills fresh all summer and to accommodate students who can not make every session.
2214	Math Bootcamp (Incoming Sixth)	Math Bootcamp is for incoming sixth graders to review fifth grade math skills. We will review with fun games and ensure that your student is better prepared for sixth grade Math! Bootcamp will be offered on four dates, Monday June 20th, Wednesday June 22nd, Monday July 11th, and Wednesday July 13th. Your student is welcomed to attend one, or all four! We will do a mixture of skills at each meeting in order to be sure we're keeping skills fresh all summer and to accommodate students who can not make every session.
2215	Math Bootcamp (Incoming Fifth)	Math Bootcamp is for incoming fifth graders to review fourth grade math skills. We will review with fun games and ensure that your student is better prepared for fifth grade Math! Bootcamp will be offered on four dates, Monday June 20th, Wednesday June 22nd, Monday July 11th, and Wednesday July 13th. Your student is welcomed to attend one, or all four! We will do a mixture of skills at each meeting in order to be sure we're keeping skills fresh all summer and to accommodate students who can not make every session.
2216	Math Bootcamp (Incoming Sixth)	Math Bootcamp is for incoming sixth graders to review fifth grade math skills. We will review with fun games and ensure that your student is better prepared for sixth grade Math! Bootcamp will be offered on four dates, Monday June 20th, Wednesday June 22nd, Monday July 11th, and Wednesday July 13th. Your student is welcomed to attend one, or all four! We will do a mixture of skills at each meeting in order to be sure we're keeping skills fresh all summer and to accommodate students who can not make every session.
2217	ACT Prep: Tips & Tricks for English and Reading	Come to this week long session during which you will learn strategies to improve your score on the ACT English and Reading sections. Not just skill and drill, this bootcamp will entail group activities, small group work, and one-on-one help in an upbeat environment. Session will be taught by HHS English teachers to prepare students for the July 16 test, but these skills will be useful for future ACT exams.
2218	Summer Scrapbooking	Come join us for scrapbooking fun! Bring pictures of anything you would like to scrapbook. We will have everything else you need! Every child will leave with a scrapbook created by them to keep!
2219	Summer Scrapbooking	Come join us for scrapbooking fun! Bring pictures of anything you would like to scrapbook. We will have everything else you need! Every child will leave with a scrapbook created by them to keep!
2220	Robots: Program, Modify, Debug Repeat (Fundraiser)	Get practice with programming Lego Ev3 robots to perform tasks that include the use of motors, sensors and modification of robot design. This is a great opportunity to learn skills that will help students/robotics team tackle challenges for FIRST Challenge teams that will be organized in the Fall. A portion of the tuition will go to the Robotics Team costs for 2022-23.
