#### K-5 Districtwide DIBELS Data- 4 years

DIBELS is a reading assessment which is given to students to measure their overall basic reading skills. DIBELS stands for *Dynamic Indicators of Basic Literacy Skills*.

**Graph A** represents reading data by grade level for years 2022-2025. For example, the first set of bars is all Kindergarten data for 4 years, the next is all 1<sup>st</sup> grade students year by year etc. Each year represents a different group of students.

**Graph B** represents cohort data by groups of students. The grade level listed below each set of bars represents the grade level that group of students was in 2022 (dark blue bars), each bar after represents those 'same students' year to year.
