

Edgenuity Presentation

Date: 9.10.25

Time: 6:30pm

Why Edgenuity:

- Edgenuity courses include direct instruction videos (not online heavy text content) with an actual teacher, a more intuitive student interface, and includes tools like read aloud & translation.
- Edgenuity's content is rigorous, standards-aligned, with multi-modal instruction, and a variety of embedded scaffolded supports to ensure KY standards mastery.
 - Over 500 courses have recently been updated with new videos showing our commitment to refreshed content and new teachers.
- Edgenuity includes on-demand teachers, certified in the 4 core subject areas which are available to students 7 days a week.
- A secure lockdown browser with Proctorio is coming to ensure academic integrity. Students will not be able to open other tabs, search for answers, or cheat on their work.
- Current academic integrity package notifies teachers of plagiarized responses
- Imagine Edgenuity courses include all needed materials. Students will not have to download or search for other resources to complete their work.
- Imagine Edgenuity pretesting is at the lesson level, which better assesses student mastery
- Imagine Edgenuity is rapidly increasing our CTE offerings, including our full pathways.
- Edgenuity includes test prep courses. (ACT, SAT, etc.)
- (ACT, SAT, etc.)
- Concept Recovery, Initial Credit, AP, and Credit Recovery courses all exist in Edgenuity

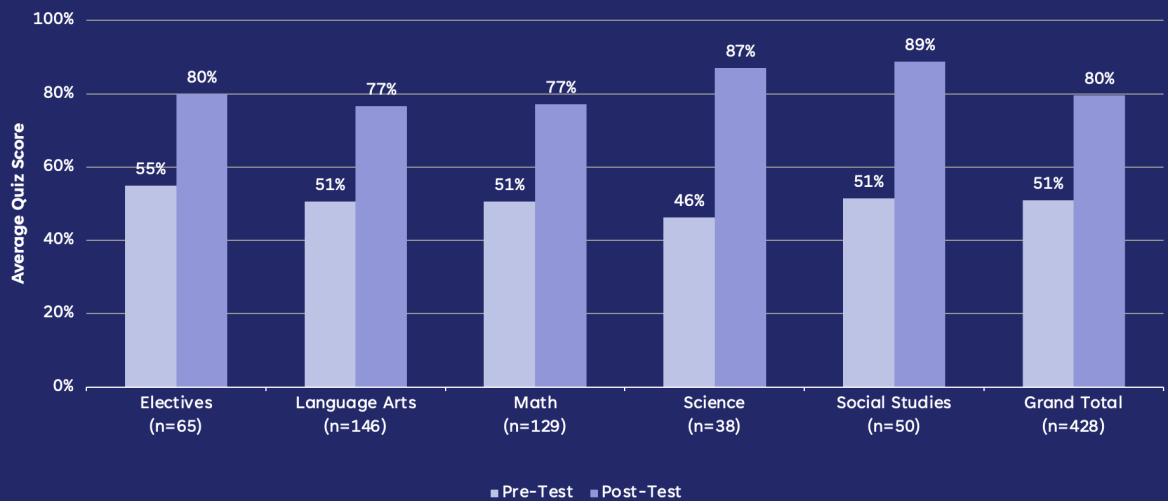

Implementation at NSOI:

- NSOI Students cover more of the standards than traditional school students.
 - Our courses are set up to cover all the standards and once our students complete the course we know the standards have been taught and covered.
 - Traditional students are at a disadvantage when it comes to having contact with all the standards due to multiple factors:
 - Teachers having to meet multiple students where they are
 - Classroom disruptions
 - Student behavior
 - Time

- Etc
- Important 24-25 Data for NSOI
 - Imagine Edgenuity commended us on our phenomenal data
 - From Aug 1, 2024 to Jun 30, 2025, there were 92 unique students with 1,104 enrollments.
 - On average, students spent approximately 25.8 hours in their courses, progressed through 93% of content material, and completed 91% of their courses.
 - Students mastered content material. The average Overall Grade was 82%. On average, students improved from a pretest lesson quiz score of 51% to a posttest lesson quiz score of 80%, a gain of 29 percentage points.

Return on Investment

Pre-Test to Post-Test Quiz Gains

○

Other KY Districts using Edgenuity:

- Edgenuity is used by over 80 districts across the state
- Some of those districts are:
 - Bellevue
 - Covington
 - Kenton County
 - Boone County
 - Jefferson
 - Oldham
 - Madison
 - NKCES Regional School (High School only)
