Estimate details

Estimate no.: 1119

Estimate date: 11/25/2025

#	Date	Product or service	Description	Qty	Rate	Amount
1.		Dirt Work	6 loads of washington ball mix from Georgia (includes delivery) Per Bluegrass Ballfields Dave Swindler	6	\$3,250.00	\$19,500.00
2.		Dirt Work	place 6 loads of field mix (loads will have to be dumped outside of fields due to weather/field conditions and lack of entry for semis and machined onto field	1	\$9,000.00	\$9,000.00

Total

\$28,500.00

Note to customer

Dirt must be paid for by school system for tax exemption.
This is option #1 This includes field mix placed on entire infield to raise the elevation of field to help proper drainage to outfield and off of infield. Option 2 as we spoke about will be in a seperate bid for french drain. This option (2) will not work if the infield has not been brought to actual grade.After shooting the grade of the field its deemed unpractical to cut the "lip" of the outfield as the sprinkler heads will need to be lowered and again is unpractical.
COMPLETION IS BASED ON WEATHER
