School Resource Officers (SROs)

DEFINITION

"School Resource Officer" or "SRO" means an officer whose primary job function is to work with youth at a school site who has specialized training to work with youth at a school site and is:

- (a)
 - 1. A sworn law enforcement officer certified under KRS 15.380 to KRS 15.404; or
 - 2. A special law enforcement officer appointed pursuant to KRS 61.902 and certified under KRS 15.380 to KRS 15.404; or
 - 3. A police officer appointed as a certified SRO; and
- (b) Employed:
 - 1. Through a contract between a local law enforcement agency and the District;
 - 2. Through a contract as secondary employment for an officer, as defined in KRS 16.010, between the Department of Kentucky State Police and the District; or
 - 3. Directly **by** the District as part of the JCPS Police.¹

PURPOSE AND GOAL: SAFER SCHOOLS AND SAFER STUDENTS

The Board is responsible for the general management and control of schools in the District², including promoting and fostering a safe environment for students, staff, and visitors. Every student should have access to a safe, secure, and orderly school that is conducive to learning.³ Central to that responsibility is the implementation of a fair and equitable system of behavior supports and interventions for all students. School administrators are expected to develop and implement a plan with teachers to ensure that expected behaviors are intentionally taught, modeled, learned, and reviewed to ensure understanding and success by students, school staff, and SROs.

The District's commitment to achieving racial equity through awareness, action, and accountability must be embedded in all school and District practices, to ensure that all students are treated fairly and without discrimination. Critical to school safety and student success is the importance of building and sustaining positive adult-to-student relationships that: celebrate and recognize positive student behavior; incorporate cultural competence; use age- and developmentally-appropriate strategies; and are based on mutual respect and two-way communication.

A central goal of implementing this system of strategies to develop positive relationships in schools is reducing the number of students who become engaged with the juvenile justice and criminal justice systems.

The purpose of the SRO program is not to enforce or administer matters of school discipline and student conduct. Such matters are the responsibility of other District or school personnel. The purpose of the SRO program is to: promote and foster a safe environment in schools, at school-sponsored events, and on school transportation; provide a law enforcement presence on school property and at school-sponsored events; enhance educational programs relating to safety and positive behaviors; build positive relationships with students to support academic success and personal growth; provide a liaison to community and law enforcement agencies, and contribute to the District focus on building trusting relationships in school communities through approaches such as restorative practices, positive behavior interventions and supports, social-emotional learning, and trauma-informed practice. The primary domain of activity for an SRO is outside the school building, except when called to respond to an incident or emergency by the principal or District administrator. An SRO shall work to develop strong working collaborative relationships

School Resource Officers (SROs)**PURPOSE AND GOAL: SAFER SCHOOLS AND SAFER STUDENTS (CONTINUED)**

with principals; other school administrators; and with School Safety Administrators, whose primary domain of activity is within school buildings.

The goal of the SRO program is to promote safer schools and safer students by employing law enforcement officers with high levels of specialized school-specific and student-focused training to work proactively with others in the school community to create a safer and more supportive learning environment for all students. SROs shall work as a team with administrators and teachers to develop strategies to protect and support all children so they can reach their fullest potential. Administrators will work to facilitate opportunities for SROs who have mentoring relationships with students to maintain those relationships.

The SRO program is one component of a broader effort within schools and the District central office to promote and foster a safe learning environment for students, staff, and community. Schools are safer when administrators, teachers, and staff work intentionally to:

- Actively engage students in authentic learning that matters to their sense of self and personal development.
- Build a culture and climate that foster and sustain attitudes, beliefs, values, and practices that promote success for all students.
- Make racial equity foundational to all school systems and practices.
- Develop and implement a comprehensive system of supports to address student mental health, social, and emotional needs, and the roots of disruptive behavior.
- Collaborate closely with appropriately trained and equipped law enforcement professionals – SROs – to promote and foster a safe environment for students, faculty, staff, and the school community.
- An SRO will have such training, certification, and commission as is required by provisions of KRS Chapters 15, 61, and 158.
- In addition to requirements established under state law for SROs, an SRO employed by the District shall meet all additional training and other requirements established by the District in the SRO job description and in procedures to implement this policy.
- Per KRS 158.4414, an SRO who fails to successfully and timely complete SRO training requirements shall lose their SRO certification and shall no longer work in the District as an SRO. An SRO who fails to meet other requirements established by the District shall be subject to the provisions of the policies and procedures governing employee discipline.
- An SRO shall also obtain training on the use of physical restraint and seclusion including additional training applicable to “core team” school personnel designated to respond to dangerous behavior.
- An SRO is vested with law enforcement jurisdiction and authority as described in KRS 61.902 to KRS 61.930 and other applicable law, including, but not limited to, investigating and responding to possible criminal offenses and to health or safety threats to students or school personnel.

School Resource Officers (SROs)**ROLES AND EXPECTATIONS**

- An SRO is vested with law enforcement jurisdiction and authority as described in KRS 61.902 to KRS 61.930 and other applicable law, including, but not limited to, investigating and responding to possible criminal offenses and to health or safety threats to students or school personnel.
- As authorized under the Family Educational Rights and Privacy Act (“FERPA”), SROs and all staff within the JCPS Police Department, are designated as the District’s “law enforcement unit” possessing law enforcement authority and exercising safety and security functions as described in state law and referenced above. Records created and maintained by an SRO for a law enforcement purpose do not constitute education records under FERPA.³ District staff other than law enforcement personnel are not responsible for the creation of law enforcement records and are expected to observe restrictions on access to such records. An SRO is expected to provide guidance and insight to District officials and staff on such restrictions.

NATURE OF EMPLOYMENT

An SRO is a classified employee. An SRO is therefore generally covered by District classified employee policies, including, but not limited to, policies regarding terms and conditions of employment; fringe benefits; employee discipline; and reductions in force.⁴ However, as applied to an SRO, such general District classified employee policies may be subject to the terms of their contract with the District; their job description; and their authority to carry out certain law enforcement functions as permitted by law.⁵ Police officers shall be granted with the protections provided in KRS 15.520 and shall be certified in accordance with KRS 15.380.⁶ In accordance with KRS 61.926, 527.020, and 527.070, as applicable, each SRO shall be armed with a firearm, notwithstanding any provision of Board policy, school council policy, or memorandum of agreement.⁵

ASSIGNMENT

The Board shall ensure, for each campus in the District, that at least one (1) certified SRO is assigned to and working on-site full-time in the school building or buildings on the campus. If sufficient funds and qualified personnel are not available for this purpose for every campus, the Board shall fulfill the requirements on a per campus basis, as approved in writing by the State School Security Marshal, until a certified SRO is assigned to and working on-site full-time on each campus in the District.

BOARD MAY AUTHORIZE POLICE DEPARTMENT

KRS 158.471 provides that the Board is authorized to establish a police department for the District, appoint police officers and other employees, prescribe distinctive uniforms for the police officers of the District, and designate and operate emergency vehicles. Police officers appointed shall take an appropriate oath of office in the form and manner consistent with the constitution of Kentucky.

If the Board establishes a police department, the Superintendent/designee shall develop standard operating procedures governing the department.

School Resource Officers (SROs)**BOARD MAY AUTHORIZE POLICE DEPARTMENT (CONTINUED)**

The District police department shall provide criminal history records information to a requesting agency when that requesting agency is conducting a basic suitability or fitness assessment for federal or contractor employees under 5 U.S.C. sec 9101 in accordance with KRS 17.162.

TRAINING REQUIREMENTS

All SROs shall successfully complete forty (40) hours of annual in-service training that has been certified or recognized by the Kentucky Law Enforcement Council for SROs, as well as all other additional training requirements for SROs established by the District. Any SRO who fails to successfully complete the state-mandated training requirements within the specified time periods, including approved extensions, shall lose their SRO certification and shall no longer serve in the capacity as an SRO. An SRO who has lost SRO certification due solely to the officer's failure to meet state training requirements may regain certification status as an SRO upon completion of the training deficiency, and may resume service in the capacity as an SRO. An SRO who fails to meet other training requirements established by the District shall be subject to the provisions of the policies and procedures governing employee discipline.

As set forth in KRS 158.4414, the course curriculum for in-service training certified or recognized by the Kentucky Law Enforcement Council for SROs, shall include but not be limited to:

- (1) Foundations of school-based law enforcement;

School Budget and Purchasing (SBDM)

BOARD ALLOCATIONS

The Board shall appropriate to each school an amount equal to or greater than that specified by the formula prescribed in 702 KAR 3:246. Notwithstanding KRS 160.345(8), the Board may reduce the allocations to individual schools within the District; however, the allocation shall not be less than one hundred (\$100) dollars per pupil in average daily attendance.¹ School councils shall be provided notice of allocations for the next budget year in accordance with the timelines required by regulation.¹²

An amount for professional development shall be allocated as required by Kentucky Administrative Regulation.

SCHOOL RESPONSIBILITY

The school administration (SBDM council or the Principal with consultation from the participatory management committee) shall prepare a detailed budget using the basic allocation to purchase the necessary certified and classified positions, supplies and instructional materials, professional training, etc., to provide a sound program of instruction to all of the school's students.

School administration shall submit this budget to the Superintendent in accordance with the budgeting calendar approved by the Board.

Schools may request additional general fund monies from the Board. The Board shall consider such requests under the following conditions:

1. Each school shall have a budget and all expenditures shall be made in accordance with this budget. In addition, the school shall comply with all federal and state laws and regulations.
2. The ratio of teachers to students shall be flexible depending upon grade levels, course offerings, accrediting standards, other applicable state laws and regulations and provisions of negotiated agreements.

Board purchasing procedures shall be followed in the expenditure of these funds. Expenditure of these funds, with the exception of personnel salaries, shall be accomplished only by completing a central office purchase order.

The Board allocation is the total financial resource available to that school in those budget categories for the fiscal year. The council may reassign these funds to alternate budget categories for purposes consistent with its responsibilities. The school shall not expend or commit to expend any funds in excess of those allocated to the school. Should this occur, the employee(s) responsible shall be subject to appropriate disciplinary action, and the Superintendent may require the school/council to present, for Board approval, a plan to reimburse the District for the amount spent in excess of the allocation.

All state allocated funds managed by the school but not expended by the end of the fiscal year, shall revert to the District general fund, unless the school council has received Board approval to escrow the funds to be used at a future date for an approved project.

School Budget and Purchasing (SBDM)**BOARD APPROPRIATION**

A technology protection measure may be disabled by the Board's designee during use by an adult to enable access for bona fide research or other lawful purpose.

The Superintendent/designee shall develop and implement appropriate administrative procedures to provide guidance for access to electronic media. Procedures shall address teacher supervision of student computer use, ethical use of electronic media (including, but not limited to, the Internet, e-mail, and other District technological resources), and issues of privacy versus administrative review of electronic files and communications.

Students shall be provided instruction about appropriate online behavior, including interacting with other individuals on social networking sites and in digital messaging, and cyberbullying awareness and response.

PERMISSION/AGREEMENT FORM

All applicable procedures and guidelines resulting from this AUP/RUP shall be readily available and for use by students, parents/guardians, faculty, staff and other to whom access is granted. A written parental or legal guardian request shall be required prior to the student being granted independent access to electronic media involving District technological resources. This document shall be kept on file as a legal, binding document.

Access to Electronic Media
(Acceptable/Responsible Use Policy)

PERMISSION/AGREEMENT FORM(CONTINUED)

The required permission/agreement materials, which shall specify acceptable uses, rules of online behavior, access privileges, and penalties for policy/procedural violations, must be acknowledged by the parent or legal guardian of minor students (those under 18 years of age) and also by the student. In order to opt-out, modify or rescind the agreement, the student's parent/guardian (or the student who is at least 18 years old) must provide the Superintendent with a written request.

EMPLOYEE USE

The District recognizes the value of information systems, applications, and data as well as computers, storage, network, and other electronic devices to improve and enhance student learning. To this end, the District encourages the responsible use of these computing equipment resources in support of the educational mission and goals of the District.

The District technological resources help employees carry out the District's educational mission, conduct research, and communicate with others about District work. Along with this access comes the availability of materials that may not be considered appropriate for use in the workplace. Because it is impossible to control all materials available through the Internet, each employee is ultimately responsible for observing the JCPS standards outlined in the Employee AUA, as well as other applicable school and District rules for behavior and communications.

In accordance with KRS 160.145, the Board shall designate a traceable communication system ~~to be the exclusive means~~ for District employees and qualified school volunteers to communicate electronically with students enrolled in the District. ~~The Principal of each school shall provide parents written or electronic notification within the first ten (10) days of the school year of each electronic school notification and communication program designated within the traceable communication system. The notification shall include instructions for parents to access and review communications sent through each electronic school notification and communication program. See policy 08.2324 for complete details and guidelines.~~

A District employee or qualified school volunteer, ~~unless authorized,~~ shall not engage in unauthorized electronic communication. ~~communicate electronically with a student:~~

- ~~1. Outside of the traceable communication system designated by the Board; or~~
- ~~2. Through an unauthorized electronic communication program or application.~~

~~This shall not restrict any electronic communications between a student and his or her family member who is a District employee or volunteer.~~

Networking, communication systems, and other options offering the ability to communicate directly with students may be used for the purpose of supplementing classroom instruction and to promote communications with students and parents concerning school-related activities ~~in accordance with Policy 08.2324.~~

Students may only be invited or granted access to Board approved traceable electronic communications systems, including social media platforms and other digital communication sites, if the District has verified that the system meets acceptable data privacy standards and includes appropriate protections for student information. Furthermore, the students must meet the platform's minimum age requirements before being granted access or invited to access.

Access to Electronic Media
(Acceptable/Responsible Use Policy)

EMPLOYEE USE (CONTINUED)

Staff members shall not use or create personal social networking accounts to which they communicate directly with or invite students to be friends.

See policy 08.2324 Traceable Communications for complete details and guidelines regarding Traceable Communications, including the definition of “qualified school volunteer.” See Administrative Procedure 08.2324 AP.2 Traceable Communication Forms for the form a parent/guardian is required to complete to give consent for communication outside of the Traceable Communication System.

EMPLOYEE CONDUCT AND REPORTING REQUIREMENTS FOR TECHNOLOGY USE

All employees and volunteers are subject to disciplinary action if their conduct relating to the use of technology or online resources violates this policy or any other applicable statutory, regulatory or policy provisions governing employee conduct. This includes, but is not limited to, unauthorized electronic communications.

The Professional Code of Ethics for Kentucky School Certified Personnel requires certified staff to protect the health, safety, and emotional well-being of students and the confidentiality of student information. Any conduct in violation of this Code – particularly involving technology or online resources - must be reported to the Education Professional Standards Board (EPSB) as required by law and may result in disciplinary action up to and including termination.

All users of District technological resources, including but not limited to, servers, both wired and wireless networks, storage media, as well as software, operating systems, accounts, and any type of system installed on this equipment on District premises, are covered by the Acceptable Use Agreement. It is the responsibility of every employee to know and understand the Agreement and to conduct their activities accordingly.

All District employees, including all personnel affiliated with the school that will be using the computing equipment listed, shall adhere to the Agreement. Employees are required to sign the Employee Acceptable Use Agreement (Administrative Procedure 05.51 AP.21) at the beginning of each contract year acknowledging they have read and agree to comply with the Employee Acceptable Use Agreement. New employees are required to sign the Employee Acceptable Use Agreement upon being hired.

- This Employee Acceptable Use Policy applies to the use of the District-provided technological resources, regardless of the geographic location, as follows:
- Data and system use shall comply with the District standards found in the Board-approved policies and administrative procedures.
- Unauthorized access to data and/or systems is prohibited.
- Users must prevent unauthorized disclosure or modification of sensitive information/data, including Personally Identifiable Information (PII).
- While using the District network, users should have no expectation of privacy. The District has the right to monitor all traffic on the District network.

Access to Electronic Media
(Acceptable/Responsible Use Policy)

ACCESS IS A PRIVILEGE, NOT A RIGHT

Access to this shared resource is given to employees who agree to utilize the District's technological resources to support the educational business of the District and to act in a considerate and responsible manner.

USE OF TECHNOLOGY IN THE CLASSROOM

Employees are encouraged to use electronic mail and other District technologic resources to promote student learning and for communication with parents and education-related entities. If those resources are used, they shall be used for purposes directly related to work-related activities.

Technology-based materials, activities and communication tools shall be appropriate for and within the range of the knowledge, understanding, age and maturity of students with whom they are used.

COMMUNITY USE

On recommendation of the Superintendent/designee, the Board shall determine when and which computer equipment, software, and information access systems will be available to the community.

The District may provide Wi-Fi internet access for guests to schools and other District facilities that may be used without prior approval. With the approval of the principal/designee, a community member may be granted access to District electronic information sources and programs available through the District's technology system, provided he/she/they attend any required training and abide by the rules of usage established by the Superintendent/designee.

An employee or student shall be subject to disciplinary action, up to and including termination (employee) or placement in an alternative program or setting in lieu of expulsion (student) for violating this policy and acceptable use administrative procedures established by the District.

EMERGING TECHNOLOGIES

The District shall establish and maintain procedures that address the safe, secure, and responsible uses of emerging technologies, including, but not limited to, artificial intelligence (AI) and AAAAI-enhanced or generative features. These procedures shall be reviewed and update regularly to ensure alignment with current technological advancements, fostering a proactive approach while emphasizing safeguards for student safety, data privacy, and ethical practices. Such procedures will support innovative strategies while addressing potential risks and maintaining the confidence of district stakeholders. Additionally, procedures will address the responsible use of these emerging technologies, including the appropriate and inappropriate uses of AI (e.g. for inspiration vs. cheating or plagiarism).

RESPONSIBILITY FOR DAMAGES

Individuals shall reimburse the Board for repair or replacement of District property lost, stolen, damaged, or vandalized while under their care. A student or employee who defaces web site or otherwise make unauthorized changes to a web site shall be subject to disciplinary action, up to and including expulsion and termination, as appropriate.

Access to Electronic Media
(Acceptable/Responsible Use Policy)

RESPONDING TO CONCERNS

A school or District administrator shall apply the same criterion of educational suitability used to review other educational resources when questions arise concerning access to specific databases or other electronic media.

AUDIT OF USE

Users with network access shall not utilize District resources to establish electronic mail accounts through third-party providers or any other nonstandard electronic mail system.

The Superintendent/designee shall establish a process to determine whether the District's education technology is being used for purposes prohibited by law or for accessing sexually explicit materials. The process shall include, but not be limited to:

1. Utilizing technology that meets the requirements of Kentucky Administrative Regulations and that blocks or filters internet access for both minors and adults to certain visual depictions that are obscene, child pornography, or, with respect to computers with Internet access by minors, harmful to minors.
2. Maintaining and securing a usage log; and
3. Monitoring online activities of minors.

RETENTION OF RECORDS FOR E-RATE PARTICIPANTS

Following initial adoption, this policy and documentation of implementation shall be retained for at least ten (10) years after the last day of service in a particular funding year.

Employee Acceptable Use Agreement

EXECUTIVE SUMMARY

Overview

The District recognizes the value of information systems, applications, and data as well as computers, storage, network, and other electronic devices to improve and enhance student learning. To this end, the District encourages the responsible use of these computing equipment resources in support of the educational mission and goals of the District.

The JCPS Networks help employees carry out the District's educational mission, conduct research, and communicate with others about District work. Along with this access comes the availability of materials that may not be considered appropriate for use in the workplace. Because it is impossible to control all materials available through the Internet, each employee is ultimately responsible for observing the JCPS standards outlined below, as well as other applicable school and District rules for behavior and communications. The District has drafted this agreement governing the voluntary use of computing resources to provide guidance to District employees regardless of whether the District provides the equipment, or the individual/group obtains the same through donations from any organization.

Purpose

The purpose of this the Employee Acceptable Use Agreement is to establish acceptable and unacceptable use of any computing device or electronic resource listed as part of this Agreement. All users of computer equipment listed, including but not limited to, servers, both wired and wireless networks, storage media, as well as software, operating systems, accounts, and any type of system installed on this equipment on-premise at the District, are covered by this Agreement. It is the responsibility of every employee to know and understand this agreement and to conduct their activities accordingly.

Scope

All District employees, including all personnel affiliated with the school that will be using the computing equipment listed, shall adhere to this Agreement. Employees are required to sign this Employee Acceptable Use Agreement at the beginning of each school contract acknowledging they have read and agree to comply with the Employee Acceptable Use Agreement. New employees are required to sign the Employee Acceptable Use Agreement upon being hired.

This Employee Acceptable Use Agreement applies to the use of the District-provided IT resources, regardless of the geographic location, as follows:

- Data and system use shall comply with the District policies and standards found in the District Board-approved [policies](#) and administrative procedures.
- Unauthorized access to data and/or systems is prohibited.
- Users must prevent unauthorized disclosure or modification of sensitive information/data, including Personally Identifiable Information (PII).
- While using the District network, users should have no expectation of privacy. The District has the right to monitor all traffic on the District network.

Access is a privilege, not a right

Students may only be invited or granted access to Board approved traceable electronic communications systems, including social media platforms and other digital communication sites, if the District has verified that the system meets acceptable data privacy standards and includes appropriate protections for student information. Furthermore, the students must meet the platform's minimum age requirements before being granted access or invited to access.

Staff members shall not use or create personal social networking accounts to which they communicate directly with or invite students to be friends.

See policy 08.2324 Traceable Communications for complete details and guidelines regarding Traceable Communications, including the definition of "qualified school volunteer." REPORT TO LAW ENFORCEMENT AGENCY (CONTINUED)

Any school employee who receives information from a student or other person of conduct which is required to be reported, shall report the conduct to the JCPS Police Department and to either the local law enforcement agency or to the Kentucky State Police, unless the school employee has cause to believe a student's disability interfered with his or her ability to conform to the Student Code of Conduct.

A District that has created their own law enforcement agency shall designate a local law enforcement agency not created by the District to receive reporting information from the District's law enforcement agency. The District's law enforcement agency shall file a weekly report for the preceding week identifying all reports received under KRS 158.155.

DOMESTIC/DATING VIOLENCE REPORTING AND EDUCATION

Upon the request of a victim, a District employee shall report an act of domestic violence and abuse or dating violence and abuse to a law enforcement officer. The employee shall discuss the report with the victim prior to contacting a law enforcement officer.

A District employee shall report to a law enforcement officer when the employee has a belief that the death of a person with whom the employee has had a professional interaction is related to domestic violence and abuse or dating violence and abuse.

These reporting requirements covering domestic violence and abuse or dating violence and abuse do not relieve a District employee of the duty to report any known or suspected abuse, neglect, or dependency of a child pursuant to KRS 620.030. This separate reporting requirement covers abuse, neglect or dependency of a child committed or caused by a parent, guardian, other person exercising control or supervision, or a person in a position of authority or special trust.

If a District employee has reasonable cause to believe that an individual with whom the employee has had a professional interaction has experienced domestic violence and abuse or dating violence and abuse, the employee shall provide educational materials to the individual relating to such abuse and information on access to regional domestic violence programs or rape crisis centers and how to access a protective order. These materials shall be made available to school personnel in print form or on the web by the primary domestic violence, shelter, and advocacy service provider designated by the Cabinet for Health and Family Services to serve the District's area.

NOTIFICATIONS

As soon as the Superintendent/designee confirms that a serious threat has been confirmed, designated personnel shall attempt to notify a staff member or student who has been threatened and the parent/guardian of the student who is the subject of a threat. Such notification shall observe and comply with confidentiality requirements of applicable law including, but not limited to, state and federal Family Educational Rights and Privacy Act (FERPA) laws.

Any District employee assigned to work directly with, or who comes in contact with, a student with a documented history of physical abuse of a school employee or of carrying a concealed weapon on school property or at a school function, shall be notified in writing of the student's history by the Principal/designee, guidance counselor or other school official who has knowledge of the student's behavior prior to the assignment or contact.

Expulsion

BOARD MAY EXPEL

The Board may expel or extend the expulsion of any student from the regular school setting for misconduct as defined by law. Provision of educational services will be required unless the Board determines, on the record and supported by clear and convincing evidence, that the expelled student posed a threat to the safety of other students or school staff and could not be placed in an appropriate alternative program or setting-state-funded-agency program.¹

The Board shall require the expulsion from school for a period of at least twelve (12) months for a student who is determined by the Board:

1. Through clear and convincing evidence to have made threats that pose a danger to the well-being of students, faculty, or staff of the District;
2. To have brought a weapon onto a school property under its jurisdiction or to a bus stop per Board Policy 05.48; or
3. Is in grade six (6) to twelve (12) and is determined by the Board to have recklessly, with a deadly weapon or dangerous instrument, or intentionally caused or attempted to cause physical injury to a District employee on school property or at a school function under the Board's jurisdiction. In considering the actions of a student a Board shall use the definitions of "dangerous instrument," "deadly weapon," and "physical injury" in KRS 500.080 and "intentionally" and "recklessly" in KRS 501.020.

School personnel does not include a student who is employed by the school or enrolled in any school-based apprenticeship program.

The Board may expel a student for longer than twelve (12) months.

Behavior that may be determined to pose a threat shall include, but not be limited to, the physical assault, battery, or abuse of school personnel or other students ~~others~~ on or off school property, including bus stops and school functions (and the incident is likely to substantially disrupt the educational process); the threat of physical force; being under the influence of drugs or alcohol; the use, possession, sale, or transfer of drug or alcohol; the carrying, possessing, or transfer of weapons or dangerous instruments; and any other behavior that may endanger the safety of others.

The Superintendent shall present to the Board for its approval options for providing or ensuring that educational services are provided to expelled students. Educational services provided shall not include transportation from the student's residence to, or returning from, an appropriate alternative program setting.

An expelled student shall not participate in any school-sponsored extracurricular or interscholastic activity while the student is expelled.

In lieu of expelling a student, or upon the expiration of a student's expulsion, the Superintendent may place a student into an alternative program or setting if the Superintendent determines placement of the student in his or her regular school setting is likely to substantially disrupt the educational process or constitutes a threat to the safety of other students or school staff.

Expulsion

HEARING AND RECORDS REQUIRED

Action to expel, extend the expulsion, or place in an alternative program or setting a student shall not be taken until the parent, guardian, or other person having legal custody or control of the student has had an opportunity for a hearing before the Board.¹ The special education and disciplinary records of IDEA eligible students shall be sent to the Board for review before the decision is made to expel.³ If applicable, a bus driver shall have the opportunity to be heard at any disciplinary hearing against a student relating, at least in part, to misconduct that occurred during the operator's transportation of the student or to misconduct by the student's parent or guardian.

Within thirty (30) days prior to the end of a student's expulsion, the Board shall review the details of the expulsion and current factors and circumstances, including if ending the expulsion will substantially disrupt the education process or constitute a threat to the safety of students or school staff, to determine if the expulsion shall be extended for a period not to exceed twelve (12) months. The expulsion review process shall be used prior to the end of each expulsion period until the Board ends the expulsion or the student is no longer subject to compulsory attendance under KRS 159.010.

BOARD DECISION FINAL

The Board may establish an appeals committee and delegate authority to hear appeals to the committee. Otherwise, the Board's decision shall be final.¹

Within five (5) days of a student being expelled the District shall enter the expulsion in the student's record within the student information system.

RETURN TO SCHOOL

An expelled student shall be allowed to return to school in accordance with KRS 158.150.

STUDENTS WITH DISABILITIES

In cases which involve students with disabilities, procedures mandated by federal and state law for students with disabilities shall be followed. (Students with disabilities who are eligible for services under federal law may be expelled for behavior unrelated to their disabilities, as long as legally required procedural safeguards are followed. Educational services must continue for IDEA eligible students who are expelled.)^{1&3}

TRANSFER OF RECORDS

Records transferred to another school must reflect the charges and final action of an expulsion hearing if the student was expelled for homicide, assault, or an offense in violation of state law or school regulations governing weapons, alcohol or drugs. Records of a student facing an expulsion hearing on charges described above shall not be transferred until the expulsion hearing process is completed.²

HOMELESS STUDENTS AND UNACCOMPANIED YOUTH

In accordance with the McKinney-Vento Homeless Assistance Act and applicable state law, Board Policy 09.12 Admissions and Attendance:

- Defines the terms "residence," "school of origin," and "homeless."
- Sets forth the rights of children and unaccompanied youth experiencing homelessness.
- Establishes the process for resolution for a dispute regarding eligibility, school selection, or enrollment.
- Sets forth the responsibilities of the District Homeless Liaison.
- Requires that decisions regarding the enrollment of a homeless child shall be based on a determination of the best interest of the child.

The District student assignment plan is in effect for all students, including students experiencing homelessness. All students have the right to file for a transfer to request placement in a school that is out of their local resides area. Transfers allow for the appropriate placement of all District students.

Student Enrollment and Homeless/Foster Care Status**HOMELESS STUDENTS AND UNACCOMPANIED YOUTH (CONTINUED)**

When a District student loses housing, the parent/ guardian or unaccompanied youth (with the assistance of the District Homeless Liaison) is to complete a transfer form with the District's homeless coordinator to request that the student remains in the school of origin, defined as "the school the child or youth attended when permanently housed, or the school in which the child or youth was last enrolled." This transfer allows the District to process the continued placement of a homeless student who may be attending a school outside of the local resides area. Proof of homelessness can be provided to parents/guardians or unaccompanied youth by the District homeless coordinator's office working in collaboration with the student assignment staff.

If the District is unable to place a homeless student in the requested school, a letter will be sent to the parent/guardian. The parent/guardian has the right to appeal the decision to the District homeless coordinator's office under the McKinney-Vento Act. If the parent/guardian disagrees with the decision made, he or she shall follow the dispute resolution process in Board Policy 09.12. If the dispute remains unresolved, the parent/guardian may appeal the decision to the state homeless coordinator's office at the Kentucky Department of Education (KDE).

The District Homeless Liaison assists with placement of students who are homeless, including students who are living with a friend, relative, or someone else due to economic hardship, loss of housing, or similar reason. Once a child is designated with the homeless status, "the status is retained for the entire school year, even if he or she obtains housing."

CHILDREN IN FOSTER CARE

In accordance with applicable state law and policy guidance from the Cabinet for Families and Children, Board Policy 09.12 Admissions and Attendance:

- Defines "foster care."
- Describes the role of the District Foster Care Liaison.
- Requires that decisions regarding the enrollment of a child in foster care shall be based on a determination of the child's best interest.

The Foster Care Liaison's responsibilities shall be to ensure that:

1. The child in foster care remains in his or her school of origin, unless it is determined that remaining in the school of origin is not in that child's best interest;
2. If it is not in the child's best interest to stay in his or her school of origin, the child is immediately enrolled in the new school even if the child is unable to produce records normally required for enrollment; and
3. That the new (enrolling) school immediately contacts the school of origin to obtain relevant academic and other records.
