Dear Julian:

Thank you for speaking with me today about the discussions your board has had concerning state championship venues. I certainly understand the challenges we all face in terms of cost and customer satisfaction, not to mention the safety issues and the game experiences of players.

Georgetown College believes it can address each area in a long-term fashion. Because of its geographic convenience and exceptional appeal here in Central Kentucky, Georgetown College would provide a perfect venue for KHSAA soccer, 1A/2A football, and lacrosse. Therefore, the college is engaging in a total renovation of our facilities to include an all-weather playing surface with markings to accommodate soccer, football, and lacrosse. In addition, many other renovations of restrooms, the press box, and concourse/concession area will be completed by next spring.

We ask for permission to make a proposal to you again after our renovations have been completed. We enjoy being a partner of KHSAA and hope that after this temporary adjustment, we can resume a powerful partnership that will make all high school scholar-athletes feel as if they are playing at a first-class collegiate facility.

Sincerely,

William H. Crouch, Jr.
President
