**Subject:** End-of-Course Assessments

*The Kentucky Department of Education is collecting the percentage which the end-of-course score will count in the final course grade from every district for the 2011-2012 school year. On August 9th, 2011, the Todd Central site-based council approved to start with a percentage of 10% this year and increase to 15% and 20% in subsequent years. The Todd County School Board also needs to discuss and approve the end of course percentage. Please have this item placed on the agenda at your earliest convenience.*
