Dear Commissioner Julian Tackett,

I am writing you because I am in hopes that a District realignment for the Meade County High School Soccer program will not go through.

My two main concerns are: the time difference (Eastern Time vs. Central Time) and the lack of teams in the proposed District we would be changed to.

My husband, along with a lot of parents, work in Louisville and drive directly to the games from work. If our District is changed, then half of our games would be another hour away from Louisville. In this economy, with gas prices rising, it would make it difficult for parents to drive an extra hour to see their child/children play. Right now, the Hardin County District we are in, the longest travel time is 45 minutes from Louisville.

I realize the Board is trying to move the soccer program to the same District as most of our high school sports, but two of the counties that would be in the proposed District, do not have soccer programs. Our soccer program enjoys the Hardin County District and look forward to the competition in that District.

I would really appreciate it if my/our concerns would be considered before a final decision is made on the District change.

Sincerely,

Melanie Raley
