Phelps	Locker Rooms, Practice, and Competitive facilities	Inequitable amenities provided at the girls softball facility.	Submit to KHSAA a quarterly update on the purchase of property for a new softball field.	Initial Corrective Action Plan was submitted, however quarterly updates were not submitted due to no change in status. School to be placed on re-visit schedule for 2012-2013. Softball field updates will be received at that time.	The School Board approved the \$205,000 purchase of property, but currently construction has not begun.
Raceland	Locker Rooms, Practice and Competitive Facilities	Softball Field has inferior amenities when compared to the Baseball Facility.	The Gender Equity Committee needs to put in writing the immediate corrective action that will bring the Softball Complex up to same level as the Baseball complex. No more grace time and digital pictures of the completed project are to be emailed by April 15. At that time another evaluation will take place. Somerset	Support Services	School spending for athletic benefits over the past two years has been outside of acceptable parameters for equity. It appears that at least part of the problem in this area is inadequate reporting methods.	On or before February 15, 2008 the school is to submit to the KHSAA a corrected T-35 and T-36 in the 2006-07 annual report. These forms should include only expenditures for athletes who participate at the high school level and also should include all expenditures for travel and per diem.	Requested material was received on January 17, 2008	Materials received meet the designated requirements and the new spending amounts are within acceptable parameters. No further action is necessary at this time.
