

Superintendent's Report
January 28, 2013

Chair Diane Porter, members of the Board; it is my pleasure to call your attention to a few items of special interest.

On Saturday, January 20, Board Member Debbie Wesslund and I attended *Science with a Twist* at the Kentucky Science Center. This event highlighted the Science Center's newest exhibit, Body Worlds, which will run through May 19.

I marked the commemoration of Dr. Martin Luther King, Jr.'s birthday by attending a program at the University of Louisville's Playhouse.

This week, I will host the Superintendent's Student Advisory Council for their quarterly meeting. Students will be providing feedback on what a school of innovation would look like and other steps the district can take to enhance student achievement and engagement.

As of today, I have visited 127 of our schools for a total of 196 school visits.

At this time, I recommend the consent calendar for your consideration.
