

Powerful, flexible, data-driven resources to enhance professional growth for every educator

Educator Development

Comprehensive dashboards, personalized growth plans and evaluation tools to enhance the capacity and capability of educators

Schoolnet Educator Development Suite (EDS) features new, data-driven tools to provide educators at all levels with the means to build and extend teacher capacity. It helps personalize learning for educators by marrying multiple measures of educator development with student performance, then linking this information to resources that foster professional growth. With Schoolnet EDS, states and districts can:

- Individualize professional growth plans for their teachers
- Record classroom observations with mobile and online tools
- Load student perception results as part of effectiveness measure
- Consolidate professional development resources and activities
- Review and report multiple measures of educator development

Schoolnet EDS offers a flexible, multiple-measures approach that enables states and districts to design their own model for measuring educator effectiveness. Through a series of interactive reports and dashboards, a holistic picture of educator effectiveness emerges that both guides and inspires professional growth and pedagogical excellence.

Schoolnet EDS gives you powerful resources to promote educator excellence

Individualize professional growth plans

- Design professional growth plans with school and personal goals
- Track individual progress against unique goals and adopted educator frameworks
- Access professional development resources with automated, intelligent suggestions based on educator reporting results

Record classroom observations with mobile and online tools

- Collect classroom observation data against state- or district-defined templates and forms
- Track and manage classroom observations ensuring timely completion
- Access observation templates using a variety of online and mobile devices, including the iPad®, iPhone®, and Android™

Consolidate professional development resources and activities

- Search online across your entire library of professional development resources and activities
- Review course recommendations, ratings, and rankings
- Complete online activities or register for in-person PD activities

Review and report on multiple measures of educator development

- Generate insightful educator effectiveness ratings that can be disaggregated into a myriad of reports at the teacher and leader level
- Inform and guide professional growth plans with common district and school goals and resources
- Recommend professional development resources and activities to individuals or groups of teachers
