

STUDENT REPRESENTATIVE: Devynn Fergerson

Devynn Fergerson is 15 years old and is currently enrolled in STEAM Academy, where he represents the student body as elected president.

Devynn is a former student at Lexington Traditional Magnet School and Dixie Elementary School. Devynn has wide interests, and plans to major in medicine, specializing in neurological surgery, with a minor in Mathematics, and plans to attend Cambridge University. He also has great interest in theoretical physics, technology and computer science, as well as entrepreneurship in the area of technology innovation. Devynn's "dream" is becoming a professor of theoretical physics at an Ivy League University, with award of the Nobel Prize for Physics in the picture. Clearly Devynn is goal-oriented and driven, and passionate about how his educational experience supports his lifelong dreams.
