

MAP

Reports

Fall 2013

Observations for Fall 2013 MAP:

- District K-8 reading and math results posted the highest fall % at/above grade level since moving to the Common Core MAP tests.
- Looking at same students (i.e. 2nd grade last year 3rd grade this year, etc.) the summer lag is present in the median MAP score from Spring 2013 to Fall 2013, with the exception of the 8th graders whose median score increased 1 point in reading and math and 7th grade who stayed the same in both. Most elementary grades dropped anywhere from 1 to 4 points with the exception of 2nd grade reading that stayed the same and 1st grade math that went up 1 point. 6th grade dropped 3 and 8 points respectively.
- Looking at same grade level (i.e. 5th grade last year 5th grade this year, etc.) most are starting at same median score or 1-3 points higher. Only the 5th grade reading is 2 points lower and the Kindergarten math is 1 point lower than last year's fall scores.
- This newest version of the MAP Common Core test proves to be as rigorous as ever, but our students and staff have risen to this challenge and have the instructional tools necessary to make this the most promising year ever.

MAP Diagonal - Median scores per grade level vs. national norm
