

# Draft Budget 2014-2015

January 2014

#### **INTRODUCTION:**

The Draft Budget is the first of three budgets presented to the Board. The Tentative Budget of FY 2014-15 will be presented in May, and the Working Budget will be presented in September. Each successive budget provides greater levels of accuracy and refinement. Only General Fund exists in the developmental stage in MUNIS at this point in the year, and grants are projected amounts only. All one-year only additions to the 2013-14 budget have been eliminated for the new year. There are some new aspects in this Draft Budget:

- Budgeted On-Behalf payments. The budget for On-Behalf payments reflects the projected amounts the Commonwealth of Kentucky will
  pay on certain expenses on behalf of the Board, i.e. health insurance, life insurance, teachers' retirement. This will result in an apparent
  increase in the budget if comparison were to be made to previously submitted Draft Budgets. However, there is no increase in the
  availability of funds.
- No STEPS or COLA included in this budget.
- Assumed no increase in property tax rate revenue other than for newly constructed property (about \$1 million).
- Thirty-one resource teachers will be converted from the G.E. Grant to General Fund completing the Goal Clarity Coach initiative.

The major events that will determine the final budget are as follows:

- Board approval of student enrollment projections in January and subsequent projections provided in August;
- Board approval of staffing and allocation standards for schools in January;
- New-year requests approved by the superintendent in late March and included in the Tentative Budget for Board approval in May;
- Board approval of steps or cost of living increases in June or July;
- Board confirmation of superintendent's recommendation on property tax rate in August 2014 and included in the Working Budget for Board approval in September.

The actions of the state are not always known at the time of the Draft Budget. SEEK projection has been based on the recommendation from the Kentucky Department of Education on the state appropriation for that funding stream. We are also assuming the continuance of additional federal funding decreases due to Sequestration. As required by statute, adequate reserve funds must be preserved for future emergencies.

#### **REVENUE**

OCCUPATIONAL TAX: These taxes are projected based upon historical trend, current year data from the Revenue Commission, and economic data from the U.S. Department of Commerce. Occupational tax history shows the economy can drastically change the receipts. The recession of 2010 resulted in decreases in occupational taxes for two years. Occupational taxes represent about 17% of all General Fund revenue receipts. We are projecting a 6% increase in occupational taxes for 2014-15. This category of revenue has certainly rebounded. The annual growth rate has averaged 5.2% over the last three years.

SEEK: The SEEK formula is comprised of both state and local support for education. The formula requires local support based on property assessments. As assessments increase, the local portion increases and the state portion decreases. The SEEK formula is designed to add increasing levels of financial responsibility to the districts that are deemed "property rich." Additionally, the base SEEK per-pupil established by the state was decreased in each year of the current biennium. In FY 2013, the per-pupil was decreased to \$3,833, and for FY 2014 it decreased to \$3,827. We lost state SEEK revenue in each of the previous three years. For FY 2014-15, the Kentucky Department of Education has requested a return of the needed funding levels that existed in SEEK in FY 2007-08. The current SEEK state forecast for Jefferson County Public Schools assumes that the legislators will provide that level of funding, \$3,866 per pupil base.

PROPERTY TAXES: We have assumed property tax revenues to be basically the same as 2013-2014, showing only an increase of \$1 million in revenue the District would obtain due to new construction.

#### **EXPENSES:**

Within the Draft Budget we are providing funding for the following:

- Staffing and adequate allocations for 151 school sites (\$740 million) and 13 state agency sites (\$10.7 million) according to the standardized staffing levels of JCPS.
- Full-day Kindergarten. State funding only provides for half-day Kindergarten classes.
- Textbook funding for all three levels (\$2.3 million) due to elimination of textbook funding of elementary and middle schools by the state. State previously provided over \$3 million just for elementary and middle school textbooks and now provides no funding.
- Supporting additional teachers for trimester and other scheduling strategies at the high school level (\$2.9 million).
- Continued support of the Elementary Redesign with 20 to 1 class-size for all grade levels at three elementary sites (\$832,000).
- Twenty additional teachers for the elementary magnet school program (\$1.2 million).
- Sufficient staff to support class-size reduction for the first through fifth grade at eight elementary schools (\$1.3 million).
- The exponentially increased cost of KTRS expenses passed to JCPS that will exceed \$11 million in the new-year, a \$3.7 million increase over the previous year. In FY 2016, it is projected to be over \$14 million when the district contribution rate will be 3%.
- The budget process will continue from January through early April. The following aspects will culminate in the presentation of the Tentative Budget presented to the Board in May:
  - > Budget requests submitted to the Superintendent in March.
  - > Final determination of budget needs to support school programs approved by the Board.
  - > Central Office org chart changes approved by the Board prior to July 1st.
  - > Budget reductions to be considered in order to balance the budget are:
    - o Marginal or ineffective programs or allocations at the school level.
    - o Possible eliminations based on the JCPS Strategic Plan which requires a prioritization of budget components that must proceed in an open and ordered process from January through April.

This budget insures the following:

- The allocations provided are adequate for the support of acknowledged staffing levels and needed positions approved by the Board.
- The allocations are provided for imminent realities of program expansion related to statutory responsibilities in the areas of ECE, State Agency, and English as a Second Language.
- The continuance of all the previous innovations, priorities, and strategies which the Board has determined should continue to be funded.
- The continuance of all new innovative strategies approved by the Board.

The following is a summary of the projected FY 2014-15 expense budgets of all funds of Jefferson County Public Schools:

<u>GENERAL FUND</u> - Expense budget projected at \$991.2 million, including \$174.9 million in On-Behalf payments. Funded by property taxes, occupational taxes, and SEEK. Indirect costs to federal grants are less than 1% of revenue. Approximately 80% of General Fund is personnel related, and 20% is operational. School-based functions are 76% of the budget, and 20% is for school support. This General Fund budget therefore allocates 96% of the available funding to services relevant to student services, including district-wide school-centered costs. Approximately 4% is business office operational expenses.

<u>SPECIAL REVENUE</u> – Budget projected at \$113,300,000. This fund is comprised of over 380 grants/awards from various fund sources including state, federal, and local. The major concern with grants are the sustained cuts from the state that now exceed \$11 million per year and federal cuts expected to be announced in January. After suffering our first round of decreases, we expect an additional decrease of at least \$5.2 million. The decrease of federal funding will result in non-discriminate slashing of education grants and this will impact JCPS programs such as Title I, Head Start, IDEA, and many more.

<u>CAPITAL OUTLAY</u> – This is funded by \$100 per Average Daily Attendance (ADA) by SEEK formula for bond payment and capital improvement. Budget is \$8,833,000.

<u>BUILDING FUND</u> – Funded by the nickel tax within the property tax rate and can only be used for bond payment and capital improvement. Budget is \$31,699,000.

<u>CONSTRUCTION FUND</u> – This multi-year fund (\$15,000,000) typically houses the bond proceeds as revenue and expenses are bondable.

<u>FOOD SERVICE FUND</u> – Local and federal funding for Nutrition Services, including school staff and Nutrition Center. This fund includes revenue from paid school meals and federal funding on free/reduced meals. Budget is about \$89,972,000 including fund balance.

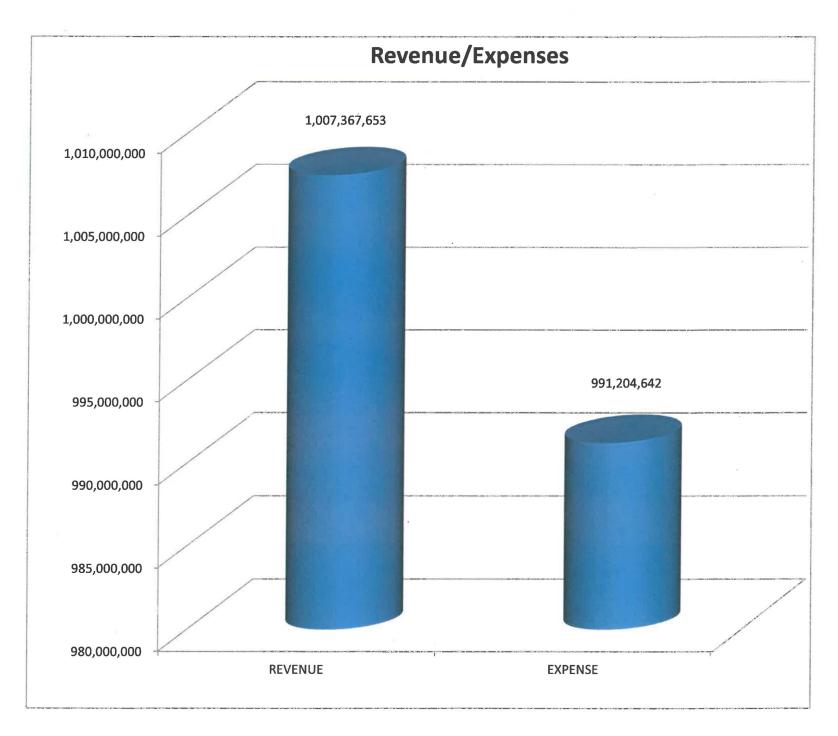

<u>DAYCARE OPERATIONS</u> – These are enterprise funds for daycare operations and are part of the Teenage Parent Program (TAPP) budget. Budget is \$820,000.

<u>ADULT EDUCATION FUNDS</u> – This is the enterprise component of Adult Education for family literacy and not the entire budget of the Adult Education program. Budget is \$550,000.

TUITION PROGRAMS – This reflects only the tuition-paid component of the Early Childhood program. Budget is \$714,000.

<u>ENTERPRISE FUND</u> – This is the Challenger Learning Center. Budget is \$164,000; expenses exceeded the budget in 2010-11 (\$3,133), 2011-12 (\$7,795), and 2012-13 (\$36,513). Two positions are funded from the General Fund.

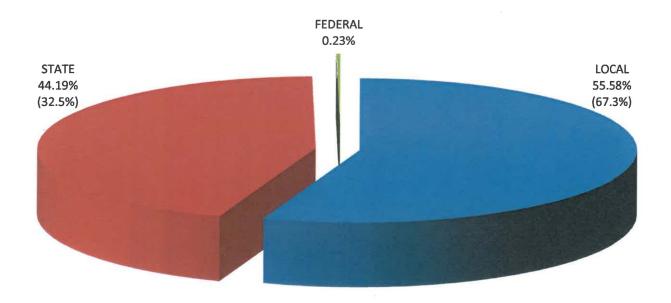

TOTAL DRAFT BUDGET: \$1,250,265,781
