

Thomas More College

News and Information

February 2014

Thomas More Week at TMC

Thomas More College celebrates the birthday of our Patron, Saint Thomas More starting on February 7th.

There are a variety of events planned during the week starting with the Northern Kentucky Brotherhood Singers, Date Night at The Observatory, Student Presentations, and Annual Lawyers Brunch to name a few.

Creating Online Lessons using blendspace

There are many ways teachers can create lessons online. [blendspace](#) allows educators to search for relevant materials and create quality lessons quickly.

“[blendspace](#)” is a resource for educators to research a variety of resources online and create multimedia lessons. It is a free service with tools like “Toontastic” that can be integrated with the service. You can start with an introductory video available when you first sign in to blendspace.

[blendspace](#) allows you to have access to all your search tools in one place. You can search using Google, YouTube, Flickr, Educations, from one screen. A simple drag-and-drop accomplishes the addition of multimedia resources to a lesson.

You can create multistep multimedia lessons as well as resources using [blendspace](#). These artifacts can also be shared with others by simply providing a

link. The signup for blendspace is free. www.blendspace.com

Feel free to email me if there are any questions or you would like to find additional information about “[blendspace](#)” or any other technology product.
