

2013-2014 School Calendar Adjustment Request

Reason:

In order to account for snow days, I would like to request the school board amend the current calendar date.

March 7th from a teacher contract day to a regular instructional day.

Current Weather RECAP information---Feb. 11

We have missed 12 full days

3 days we have make up days built in to the calendar

5 days we have banked time we can use

1 day asking board to adjust from teacher day (3-7-14) to regular school day

3 days we will need to extend our current school calendar

Current last day for students if request is granted =May 22

We have missed 3 hours of our 5 hour time allotted by state for early dismissal or late start.

DPP's across state are reporting days and several have many more missed days than we do at this point, just trying to make you feel somewhat better about our situation
