2. Program Purpose

Mission:To integrate education and treatment in a safe environment for our students. We strive to help our students develop a love for learning, a positive plan for the future, a respect for diversity, and an appreciation of self as a productive member of society.

Vision:The State Agency Children's Programs are pioneering a national model for educating emotionally disturbed youth, at risk, and delinquent youth in the nontraditional settings of psychiatric hospitals and treatment programs. Through the ongoing collaboration of educators and treatment partners, all students will learn academic and social skills in a caring and equitable environment.

Describe Purpose of your program, including the ways the program supports the district's college and career readiness goals for students. We believe these goals are achieved through the process of interagency collaboration. Those children who do not receive an education of quality cannot realize their greatest potential. Our purpose is to provide and assure high-quality educational support services through a collaborative delivery system involving the Kentucky Department of Education (KDE), Juvenile Justice, Community-Based Services, Mental Health, Developmental Disabilities and Addiction Services, and private and public child and youth care programs.
