RE: CHEER COED DIVISIONS

DATE: APRIL 10, 2014

After two years of review of the structure of coed competitive cheer and feedback from coaches and members of our advisory group, I would like to recommend the following change to coed cheer:

Current

Coed Competitive Cheer

Minimum of 2 males with a maximum squad size of 24

Proposed

Coed Competitive Cheer

Division A – Minimum of 1 male and a maximum of 3 males, minimum squad size of 12 and maximum squad size of 24

Division B – Minimum of 4 males or more and 4 females or more, minimum squad size of 12 and maximum squad size of 24

This change would fit in to the current schedule of the state competition.
