RE: Proposal to Tennis Alignment

---

Upon request of the Board of Control and at your direction, we have been in discussions with various member schools concerning the proposed alignment of Tennis beginning in 2014-2015.

Based upon the information gathered and feedback received, it is our recommendation to you that you ask the Board to approve the alignment proposal that is attached to be in effect for 2014-15 school year. Any other changes to the alignment should be as a part of ongoing sports specific review throughout the coming year(s).
