

The Catalpa School

Erin Coffee (Eastern)

Maddie Graham (J. Graham Brown)

Rhythm. Readiness. Respect.

Teachers stay with students

- Students have the same teacher for all 6 years
- They grow to respect their teacher as a parental figure
- Teachers understand the way each child learns

Moral, Emotional, and Intellectual Development

- Students will become well-rounded people who are smart, emotionally stable, and able to communicate effectively

Responsive to Natural Behaviors

- Teachers acknowledge how children act at specific times during the day and schedule their activities around that

Catalpa for Schools of Innovation

- All and all the Catalpa School seems like the best option, and the type of school that Jefferson County needs to shape the future of education
