Linda Dauenhauer
Tully Elementary School

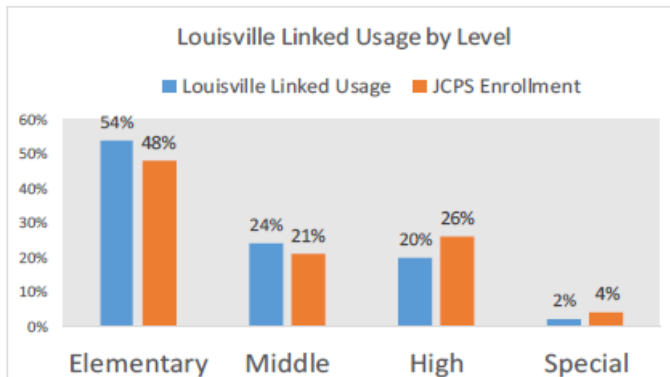

Louisville Linked Data Report – Pupil Month 9

Key Findings:

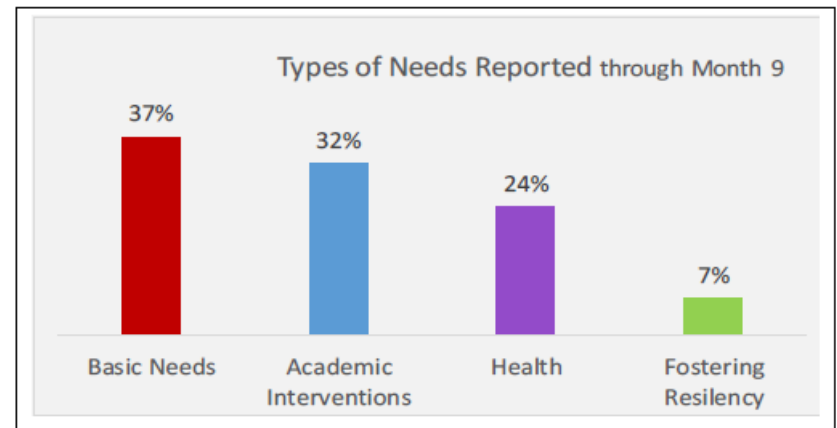

- 29,198 Students have been “linked” to help meet a need.
- These students represent 53,990 needs.
- The highest number of links for any one student was 34.
- 138 students had 10 or more links
- The highest percentage of links are made to address basic needs followed by academic interventions.
- The usage of Louisville Linked is highest in Elementary and overall is proportionate to enrollment at every level.

Cumulative Unique Students “Linked” / Total Number of Links*

*includes data from FRYSC Report and Louisville Linked Online
