DRAFT - Kentucky Science Assessments Aligned with Next Generation Science Standards - Concept DRAFT - July 2014

Notes: (1) Through Course could provide both a formal version and classroom use versions; (2) a focus on the eight practices of the standards means the tasks can be content open because the tasks measure the practices of science; (3) tasks could be designed to measure specific practices and could have a matrix design to cover all practices; (4) matrix/common could alternate during the year; (5) could contract with a Design vendor; (6) dates are arbitrary in above design; (7) see separate cover for task sample designed by Mindy, Sean, Christine, and Rae.
