

D. PARTNERSHIP AGREEMENT

The 21st Century Education Enterprise, upon funding approval by the Council on Postsecondary Education, agrees to participate in the planning, development, and implementation of sustained, high-quality professional development activities for the faculty and/or administration of the following schools and school districts: **Breathitt County School District**

Breathitt County School District agrees to make the following contributions or play the following roles in the project:

1. Principals and district officials will assist in the dissemination of information on the project to interested in the program,
2. Principals and district officials will provide feedback to the project director on strengths and weaknesses in the program to inform the planning and implementation of the project, and
3. Principals will support teachers enrolled in the project in the implementation of the materials and strategies.

The organization assures that this proposal addresses the following professional development needs identified in the school district action plan:

The Breathitt CDIP identified the following goals:

One of the goals of the Breathitt County comprehensive district improvement plan is to increase the science proficiency for students by 2015 by implementing strategies and providing professional growth opportunities for teachers to gain knowledge and implement new national standards. This aligns with objective (2) of the proposed program "to increase teacher effectiveness of the classroom interventions three research-based criteria for evaluating teaching and learning."

The Breathitt County School District Mission Statement includes "to produce college and career ready graduates by providing quality educational programs and services to all students in a nurturing, learning environment." This aligns with objective (3) "to create mentoring environment rich and authentic experiences for engineering practices to improve college and career readiness."

The organization further assures that this proposal was developed with input from the following local school district faculty and staff:
