Connections to the Strategic Plan

One of the district's Core Values states, "High quality teaching is the most powerful tool for helping students reach high standards." Under the Focus Area of Increased Learning, the district's goal is **"Every student progresses in his or her learning and meets or exceeds proficiency in all subjects."** Under Focus Area of Stakeholder Involvement/Engagement, the district's goal is that **"Parents, community, and partners enrich students' educational experiences and support their success."**

1.8 Use program evaluations to measure, monitor, and manage program adoption, improvement, implementation, expansion, or termination.

1.10 Provide for continuous improvement of systems designed to support student achievement and to eliminate the achievement gap.

3.3 Increase the number of community-based opportunities/experiences to support student learning, including service learning, the arts, and enrichment experiences. Increase the use of Parent Portal.

3.4 Think big! Plan with parents, teachers, administrators, and community stakeholders, and seek support and funding for major initiatives that will have an impact on student learning. Design community engagement—"a movement" around increased learning time—that includes tracking family activities that support learning. (Audit action 9.9)

Outcomes

- To equip teachers with the tools necessary to educate students in the area of music.
- To provide students an opportunity to experience music through a live performance and workshop experience.

Processes and Procedures

For 4th grade students, focus will be on creating the Name Symphony starting with using their own name as the rhythmic basis for their composition. The activities for the Name Symphony can also be applied to any reading materials throughout the year (literature and poetry) as well as creating fraction math sentences from the original rhythms. Improvisation will also be part of this activity with students creating different rhythmic patterns depending on syllabic stresses, rests, using middle names, etc.

For 5th grade students, focus will be on creating their own original instrument from found objects and becoming the "Landfill Orchestra". Using the rhythms from the Name Symphony and/or adapting reading materials into a musical rhythm, students can add melody with their new instruments. Students will create more complicated math sentences using different time signatures and will explore performing as smaller (chamber) and larger (entire class) ensembles. They will also improvise as the ensemble can be interchangeable.

Sustainability

Since 1940, the Louisville Orchestra and Jefferson County Public Schools have partnered on Making MUSIC and brought tens of thousands of children the gift of orchestral music. This tradition continues with an emphasis on literacy and math as part of the Making MUSIC curriculum including Common Core, Program of Study and National Arts Standards (NAS).

Student activities are included and additional activities/resources are available on the Louisville Orchestra website. <http://www.louisvilleorchestra.org/education-community/family/>
