

October 2, 2014

Dear Mr. Thompson and Ms. Tomblin,

The HCHS Bass Fishing Club would like to take the next step in developing a team under KHSAA rules. This could create great opportunities for our members. Fishing under KHSAA would allow us to compete in regional and state tournaments, which we are not allowed to be a part of at this time. These tournaments are beneficial to members by creating opportunities to work with other teams and sponsors in order to gain knowledge and connections for future opportunities.

Students on Bass Fishing Teams are receiving more and more opportunities to receive scholarships to college to participate at that level of fishing and being a part of the more competitive events will allow sponsors we have to be recognized as well as new sponsors to meet and work with members.

We will continue to work together to create learning opportunities for our members as well as always be looking to add new members to our group. There would be no additional cost to the school system in order for us to become a sanctioned team. We would continue to use our fundraisers to fund our group activities.

Please consider allowing us to become Henderson County Bass Fishing Team.

Thank you for your time,

J.D. Larew, President
