INTRODUCTORY SECTION

Letter of Transmittal

November 1, 2014

The Board of Education of Jefferson County, Kentucky Jefferson County Public School District Louisville, Kentucky

e hereby submit the Comprehensive Annual Financial Report (CAFR) for Jefferson County Public School District (the "District"), a K-12 public school system, for the year ended June 30, 2014. The completeness, accuracy, and clarity of these financial statements and data herein are the responsibility of the District's Chief Financial Officer.

This CAFR is presented in three distinct sections: Introductory, Financial, and Statistical. The Introductory Section includes this letter of transmittal, a list of our Board Members and an organizational chart. The reader may use this information to understand the District and our financial condition. Accordingly, we will discuss the Jefferson County economy and tax base, a brief history of the District and education in Kentucky, and our major accomplishments.

The Financial Section contains the general purpose financial statements. Annual audits are required legally by Kentucky Revised Statute 156.265. These statements were audited by Strothman & Company PSC, an independent Certified Public Accounting firm. Their opinion is included on page 1 of the financial section. We would like to direct the reader to Management's Discussion and Analysis on pages 4-14 of the financial section. This provides an introduction to the financial statements and some financial highlights.

The Statistical Section presents numerous unaudited tables designed to present more detail and trends apparent within the District and Jefferson County.

The report has been prepared by the Finance Department following the requirements and guidelines prescribed by the Governmental Accounting Standards Board and recommended by the Government Financial Officers Association. We believe the data presented is accurate in all material respects and that it is presented in a manner designed to fairly reflect the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain the maximum understanding of the District's financial activity have been included.

High-quality teaching is the most powerful tool for helping students reach high standards

Economic Outlook

s discussed further on page 14 of the Management's Discussion and Analysis in the Financial Section, Jefferson County has a diverse and strong economy but is affected by national economic trends.

The District receives its revenue largely from two sources related to the economy: locally-assessed real estate and property taxes, and locally-assessed occupational taxes. Additionally, the District receives state revenues derived from state income taxes, sales taxes and other taxes, but these state revenues are subject to many non-economic factors, such as political considerations and an allocation formula based on local revenue, student attendance, and transportation expenses. Beyond these sources, we also receive grant and general revenues from federal, state, local government, and private sources that are either unqualified gifts or grants based on non-tax determinants.

Real estate and personal property, other than automobile, taxes are assessed by the Property Valuation Administrator (PVA) annually, and the value is set as of January 1. After taxpayers are afforded a period to dispute the assessment, bills are prepared by the Jefferson County Sheriff and sent to the taxpayers on November 1. Real estate taxes, the largest in this total, typically show an increase in both assessments and tax rate. With growth in parts of Jefferson County and typical housing appreciation, local real estate taxes are becoming a greater percent of our revenues each year as their growth outpaces other revenues. Motor vehicle taxes are assessed as of January 1 of each year. The PVA office uses standardized guides, provided by the Department of Revenue, to determine the value of a vehicle or boat. For years, the District has levied the statutory maximum motor vehicle tax rate, and increases are derived from assessment increases alone. See the Statistical Section for more details and trend analyses on these taxes.

Locally assessed occupational taxes are levied upon Jefferson County residents who work within Jefferson County at a rate of .75% of salary. This tax tends to be an accurate barometer of the local workforce, and, in some ways, the strength of the local economy. In reviewing past years' revenues, the reader may notice the correlation between occupational tax revenues and the greater United States economy.

State revenues are based on a variety of state taxes and are allocated to the District based on a variety of factors. First, the Commonwealth of Kentucky is inherently a political entity, and the budget is allocated accordingly. Education continues to be a priority of the current government leaders, though funding levels lag behind many adjacent states. Funds are allocated to the various Kentucky school districts by a statutory formula introduced in the Kentucky Educational Reform Act, which is discussed later in this section.

Jefferson County's economy began as a manufacturing center for durable goods, including appliances, cars and trucks. In recent decades, the economy has diversified and is now the home of three *Fortune* 500 companies, including Yum! Brands, which includes KFC, Taco Bell, and Pizza Hut, Kindred Healthcare, and Humana Inc. Additionally, headquartered in Louisville are Hillerich & Bradsby, the makers of "Louisville Slugger" baseball bats, Papa John's International Inc. pizza restaurants, and Brown-Forman, makers of numerous beverages such as Jack Daniels Tennessee Whiskey. Louisville is also home to the Churchill Downs, United Parcel Service's ("UPS") Worldport Facility, employing over 20,000, two Ford plants, and General Electric's Appliance Park.

Overall, the Jefferson County economy is following the national trend and emerging from the national recession.

Total Population

The District's finances are strong as well. We aspire to achieve great things in public education. To do this, we must set high goals and be strict stewards of the public funds we have. We believe in budgeting conservatively, which allows us to make continual improvements even during sluggish economies.

In order to achieve far-reaching goals, we must maintain far-reaching funding plans. At any time, we forecast instructional needs and financial trends five years into the future. Additionally, we survey the facility needs of our entire district over the next four years. Each project is prioritized by a committee, and only the top priority projects are funded.

The current initiatives discussed on pages xi and xii of this Introductory Section are major undertakings that may require dedication over many years. As a practice, we pair our recurrent revenue budget with our recurrent expense budget to eliminate liquidity concerns. In addition, all planning is done in concert with our research team to ensure that funds are allocated to programs that get results.

We also place great emphasis on internal controls. School districts have inherent weaknesses in financial structure, with funds being collected at numerous locations and where optimal segregation of duties is not always practical. However, because the cost of internal control should not exceed the anticipated benefits, the objective of these controls is to provide reasonable, rather than absolute, assurance that District assets are protected and that our financial statements are free of material misstatement. To offset our inherent risks, the District is committed to strengthening its controls at the central office level, where 99% of revenues are received, and reviewing satellite offices and schools often. Central office uses positive pay for its disbursements and staff review bank information daily. Accordingly, the bank accounts are reconciled by the third day after the end of the month. Schools are audited every year. We implemented an anonymous fraud hotline to safeguard our assets. Currently, we are tightening segregation of duties and internal controls at satellite offices.

Students graduate prepared for college or career

History of Public Education in Jefferson County

n April 24, 1829, the City of Louisville established the first public schools for children under sixteen years of age and constructed the first school the following year. Although Louisville's charter specified that education would be free, a tuition of \$1 for primary grades and \$1.50 for other grades was assessed. By 1838, the City of Louisville had a full-service school system. Also in 1838, the remaining areas of Jefferson County outside of the City of Louisville incorporated the Common Schools of Jefferson County school district.

In 1870, Louisville Public Schools established its first two schools for African American students, bringing its enrollment up to 13,502. By this time, the Common Schools of Jefferson County operated 68 schools, including 10 for African Americans. Both districts continued to grow consistently over the decades.

In 1956, all public schools in Louisville and Jefferson County were desegregated at a time when the Louisville Public Schools were 26% African American and the Jefferson County Schools were 4% African American. By court order on April 1, 1975, the Louisville Public Schools and the Jefferson County Public Schools merged into the present Jefferson County Public Schools district in order to address the racial disparity.

At that time, it was determined that all schools in the new district must maintain racial diversity with the minority population between 15% and 50%. In June 2007, the United States Supreme Court held that some aspects of our student assignment plan did not satisfy the Court's "narrow tailoring" requirement. In May 2008, the District unanimously approved a revised student assignment plan which became effective for the 2009-2010 school year. The new plan uses socio-economic factors including educational attainment, household income, and race averages of a student's geographic region as factors when assigning students to schools other than their home school.

The Kentucky Education Reform Act ("KERA") of 1990 formed the basis for massive change to the state's educational system. One of the most comprehensive, statewide restructuring efforts ever attempted in the United States, KERA changed the formula by which Kentucky school districts receive state funding in an effort to achieve equity and educational adequacy regardless of each district's local economic base. KERA created a Site-Based Decision-Making Council system. Each school would have such a council consisting of parents, teachers, and administrators of the school, who would oversee the financial and instructional decisions of the school and hire the Principal. KERA also established a state-wide accountability system that continues to evolve to meet student needs.

Due to KERA, Kentucky has gained a reputation as a cutting edge educational system focusing on accountability. The District, as well, has many years of assessment data. We continuously review our curriculum and initiatives to ensure Jefferson County children are being educated to the height of their ability.

Instruction that inspires!

Jefferson County Public School District Today

he current District is very different than our beginnings. We continue to strive for excellence in our educational and financial operations.

Financially, we adjust conservatively to confront economic challenges, and still have sufficient fund balances to continue our plans for the future. We have a policy of reviewing vacancies, especially central office vacancies, to continuously strive for efficiency. We are reviewing our purchasing and distribution systems to determine if some overhead can be eliminated. We have also consolidated our banking relationships to maximize interest income and liquidity.

We have 100,996 students:

High	27,894
Middle	21,436
Elementary	37,305
Kindergarten	7,844
Preschool	4,175
Special Schools	2,342

We have 156 schools and learning centers:

High	18
Middle	23
Elementary	89
Special Needs	10
Other	16

We project that our enrollment is stable, with our 2014-15 forecast of approximately 101,700 students.

Our schools were founded based on the neighborhood schools concept. The majority of our schools are off the major thoroughfares back in neighborhoods, where traffic disruptions are minimized, and as many children can walk to school as possible. As Jefferson County has grown to its current size and complexity, the District has found the need to increase its educational and environmental offerings. While students have the opportunity to attend a school within their regional cluster and a regular school program, they have many additional choices of schools and programs to best fit their needs and wants.

School Choice: A core philosophy within the District is that parents should be allowed to choose the program and the school their child attends. We feel this allows students and their parents the opportunity to meet certain educational needs based on the individual child. Our schools are also able to differentiate themselves if the Site-Based Decision Making Council and the elected Jefferson County Board of Education approves the change. The district embraces many different schools and programs to meet students' diverse needs, interests, and learning styles.

Regular Program: Most schools offer a regular curriculum in a typical school setting. This program is the choice of the majority of our parents and gives the Site-Based Decision Making Council much educational latitude.

Magnet and Optional Programs: The District believes that not all students have the same interests or learn in the same way. We offer choices that let elementary, middle, and high school students select a specialized learning environment or a program that focuses on a particular subject.

Magnet Schools and Programs include traditional schools, Montessori schools, magnet programs, and magnet career academies. Traditional schools require uniforms, daily homework, and parent involvement. They teach at grade level in a structured classroom environment. The Montessori approach to learning is designed to encourage critical thinking, exploration, and self-directed education. Magnet programs offer specialized foci incorporated into the curriculum, such as performing arts, math & science, technology, early college, or International Baccalaureate. Magnet career academies offer high school students programs that focus on training for a specific career. There are more than a dozen magnet career academies, and most of them offer multiple career programs. Many of our magnet career academies have received national recognition in their program area. Fifteen of our high schools have Professional Career Theme Programs in such disciplines as Aerospace, Medicine, Engineering, Information Technology and the Environment.

Optional Program is a small, specialized program within a school, such as Creative Arts and Global Communications Optional Program.

Advance Program is for academically gifted students. It stimulates talented young people to stretch their abilities and requires schools to be creative in providing a range of educational opportunities that promote excellence for each child.

Adults model integrity, respect, creativity, and accountability

Alternative Schools:

<u>Binet School</u>: A center which provides successful learning experiences for those students with multiple disabilities who need a more structured and supportive environment.

<u>Breckinridge Metro High</u>: A high school whose students have been referred to the school by the office of student services, the department of juvenile justice and/or other state and county agencies because of code violations in the regular schools or are court ordered to attend.

<u>Buechel Metropolitan High</u>: Students with a history of violence are sent to Buechel after a serious violent offense. The school's goal is to improve the behavior of its students in order for them to experience academic success, improve their attendance, earn a return to their regular school, and eventually receive a diploma from that school.

<u>Churchill Park School</u>: This special school serves students with moderate to severe functional mental disabilities from ages five to twenty-one. While following state mandated core content, the program focuses on functional life skills, community-based instruction, and occupational work experience that will allow students to access and be successful in their immediate environment.

<u>Jefferson County High School</u>: An open-entry/open-exit program that provides an opportunity for students to obtain a high school diploma by attending classes on a flexible schedule. Paper-Pencil Curriculum: Students study a curriculum, which is individualized, self-paced and teacher-designed. Independent Study through Correspondence: Students are provided the opportunity to complete a traditional, textbook-based curriculum by correspondence from anywhere in the world. Online Curriculum: JCPSeSchool is an internet-based curriculum offered to students worldwide.

<u>The Phoenix School of Discovery</u>: Established under the federal guidelines of No Child Left Behind, this school relies heavily on technology to prepare students in grades 6-12 to reach state proficiency levels.

<u>Kennedy Metro Middle</u>: A middle school whose students have demonstrated behavioral problems at their home school. The primary goals of the school are to affect the behavior of the students so they may experience academic success, improve attendance and return to their home school.

<u>Liberty High</u>: A nontraditional, safety-net school that serves students who meet any of the following criteria:

- One year of high school with fewer than five credits
- One to four years in high school and have fewer than 14 credits
- Frequently absent from school
- Failed four or more classes
- At least 16 years old
- Prefer hands-on, collaborative learning

- Prefer a flexible daily/yearly schedule
- Desire a work-based educational component
- Have diverse learning preferences and whose talents are not being developed.

State Agency Schools: Thirteen unique residential and day treatment centers that work collaboratively with treatment partners to provide a therapeutic or rehabilitative school environment. Students are placed in the State Agency Children's Program through court commitment, psychiatric hospitalization, or identified need for long term treatment of emotional or behavioral problems.

South Park and Westport Teen Age Parent Programs: Two schools designed to prevent school dropout due to teen pregnancy and parenting for middle and high school students. These award-winning programs include home-school coordinators and regular classroom instruction with a hospital-quality nursery.

<u>Waller-Williams Environmental</u>: A special school for students with severe and profound emotional and/or behavioral disabilities. Serving K-8th grade in a highly structured environment, this school utilizes a behavior management system where students earn tokens for good behavior and may use these tokens to purchase items in the school store.

Youth Performing Arts School (YPAS): One of only 100 schools of its kind in the nation. YPAS offers courses in dance, theater acting, musical theater, vocal music, piano, concert band, concert orchestra, visual arts, design and production. Students take their academic classes at an adjacent JCPS high school.

Talents and resources used wisely to benefit students

Adult Education: Total Adult Education enrollment for 2013-2014 was 8,268. Of these, 6,286 were enrolled in Adult Basic Education/General Education Development (GED) Program and 617 GED Certificates were earned.

- <u>GED</u>, <u>Basic Skills & Family Ed</u>: Free classes to prepare for the GED test and upgrade basic skills.
- <u>English as a Second Language</u>: Free classes for adults to improve communications skills.
- <u>Lifelong Learning</u>: More than 250 leisure-learning and careerenhancing classes. Online courses are available.
- <u>Workforce Services</u>: Training and assessment services for individuals, business, and industry.

Enriched student educational experiences

Current Initiatives

trategic Plan—Vision 2015: The Board of Education shares a vision that all JCPS students will graduate prepared to reach their full potential and contribute to our society throughout life. The Board's Mission is to provide relevant, comprehensive, quality instruction in order to educate, prepare, and inspire our students to learn. The Board has enumerated its goals in four areas:

- Increased Learning: Every student progresses in his or her learning and meets or exceeds proficiency in all subjects.
- Graduation and Beyond: Every student graduates prepared for his or her postsecondary choice for college or career, and life.
- Stakeholder Involvement/Engagement: Parents, community, and partners enrich students' educational experiences and support their success.
- Safe, Resourced, Supported, and Equipped Schools: All schools are staffed, resourced and equipped to support student needs.

To reach these goals, the District has created Assistant Principal positions at elementary schools and moved goal clarity coaches into each school to increase teacher support and professional development. These additions will increase time available for cross-disciplinary teaching collaboration through Professional Learning Communities, where teachers "name and claim" each student and discuss each student's needs and the specific teaching methods most likely to help reach their full potential.

Envision Equity: To progress as a school district, we must harness the strengths and talents of the entire district. The District vision is that ALL students will graduate prepared. To transform complex political, historical, social, and economic factors into opportunities, we must begin by assessing these factors, which we have done in our Equity Scorecard. Then, with literacy, discipline, college & career readiness and school climate and culture as our fundamental drivers, we are performing Cultural Competency training to all staff as we strive to make our vision a reality.

Extended Learning Time: The District believes that learning should not be limited to the traditional school day schedule. To this effort, the District allocated special funding to extend the school day and increase learning time in 27 schools for the 2014-15 school year. These priority schools have extended-learning time that allows students to have targeted interventions and increased instructional time until 5 p.m. These schools also offer breakfast, lunch, and dinner, in addition to transportation home.

Louisville Linked: To reach their potential in the classroom, students must be prepared to learn outside of the classroom. With schools identifying student needs and linking those students to the community services providing the needed assistance, we will foster resiliency and encourage perseverance so students are prepared to be successful in the classroom.

Ford Next Generation Learning: With the combination of hiring needs in highly-skilled, 21st century positions as we prepare for the baby boomers to enter retirement, Ford Motor Company and the District have teamed up to create a framework to improve teaching and learning. There are three strands of this ambitious partnership: transforming teaching and learning;

transforming secondary schools to better serve students and their families; and transforming business and community engagement.

Positive Behavioral Interventions & Supports ("PBIS"): To systemically encourage exemplary behavior that promotes the learning environment, the District is implementing PBIS at all schools. Within this model, schools will work to encourage and recognize three to five behavioral expectations that are positively stated and easy to remember, with consistent, standardized treatment of actions that do not meet these expectations. The goals of this program are to reduce the need for suspensions and ensure consistent treatment of behavioral issues.

Professional Growth and Effectiveness System ("PGES"): To allow our students to achieve at their highest level, the District is implementing PGES, a system-wide teacher and leader evaluation system to provide the necessary feedback so that school staff is performing at their highest level for the students.

55,000 Degrees: To help propel Louisville from its industrial past into the information age, the District is a partner in the 55,000 Degrees initiative. JCPS, along with local colleges and universities, businesses and community organizations, will help the community earn at least 40,000 additional bachelor's degrees and 15,000 additional associate's degrees by the year 2020. The District is doing its part by promoting four specific, highly ambitious goals:

- Increase the high school graduation rate to at least 90 percent;
- Increase the number of graduates who go to college to at least 85 percent;
- Increase the college & career readiness of graduates to at least 66 percent by 2015 and 90 percent by 2020; and
- Decrease the number of students who are retained in the ninth grade to no more than 6 percent.

To this end, the District is offering

• early college, where students earn college credit simultaneously with their high school requirements

- College Access Resource Teachers, whose job is to ensure that students see college as part of their future plans and know how to achieve that goal, and
- 5-Star Schools, an extensive network of schools offering dual college credit or industry and technical certification earned simultaneously with high school credit in career themes.

All schools are resourced and equipped to support student needs

Evidence of Success

The District is seeing the results of its focus on Vision 2015. Through the last round of data-driven accountability results, every student group showed progress and our District increased in every component of accountability.

Outstanding performance within the District has been validated by several national, independent organizations and governmental agencies and by the performance of our outstanding students.

Our Schools:

- JCPS is accredited as a Quality School District through the Southern Association of Colleges and Schools
- Eleven of our high schools achieved in the *US News & World Report* list of Best High Schools in the United States
- Five of our high schools achieved the *Newsweek* list of America's Best High Schools
- Four of our high schools achieved the Washington Post list of America's Most Challenging High Schools
- National Green Ribbon School
- Three alternative schools selected as Kentucky Best Practices Sites

Our Students:

- The Class of 2014 earned \$145,306,302 scholarships. Class of 2013 earned \$132,899,327.
- 2013 Bill of Rights Constitutional Academy Ford Scholar.
- Second-highest score in the nation on the Principles of Business portion of the High Schools of Business exam
- Perfect ACT score
- Thirty-four finalist in the 2014 National Merit/National Achievement Scholarship Program
- Ten Gold Medals and 14 Silver Medals in the National Scholastic Art and Writing Awards Competition
- Two National PTA Reflections Awards
- \$180,000 Naval Junior Reserve Officers Training Corps (JROTC) Scholarship
- Marine JROTC National High School Drill Team Championship (fourteenth consecutive year)
- First place in the regional Penguin Bowl (an ocean science competition)
- First place in the Governor's Diversity Day Video Project
- First, second, and third place in the middle school division of the state Dr. Martin Luther King Jr. Essay Contest
- First and second place in the Kentucky Regional Deaf and Hard of Hearing Spelling Bee

- Grand Prize in the Kentucky Reel Action Video Contest
- 2013 Kentucky High School State Baseball Champions
- 2014 Kentucky High School Girls State Basketball Champions

Our Teachers and Staff Members:

- 330 have earned National Board certification
- Finalist for the Presidential Award for Excellence in Mathematics and Science Teaching
- National Intellectual Freedom Award
- National Joseph B. Whitehead Educator of Distinction Award
- Kentucky High School Teacher of the Year
- Kentucky High School Music Teacher of the Year
- Kentucky Elementary Physical Education Teacher of the Year
- Kentucky Outstanding New Career and Technical Teacher Award
- Kentucky School Psychologist of the Year
- Vision Award from the Kentucky Association of School Councils
- Public Citizen of the Year Award from the Kentucky chapter of the National Association of Social Workers
- National PTA Outstanding Local Advocacy Award

Acknowledgements

Te would like to thank all of the staff who assisted with closing of the District's financial records and preparing this report. In addition, we want to thank those at all levels of the District who do their part to provide relevant, comprehensive, quality instruction in order to educate, prepare, and inspire our students to learn.

Respectfully submitted,

Donna M. Hargens, Ed. D.

Community-based experiences to support student learning

November 1, 2014

To the Citizens of Jefferson County, Kentucky:

The Jefferson County Board of Education is committed to educational leadership, community accountability, and child advocacy. We take seriously our duty to oversee the development, operation, and improvement of the Jefferson County Public Schools (JCPS). This duty includes the governance and financial oversight of the district. Specifically, our responsibilities include:

- Approving high-quality instructional programs.
- Reviewing student progress.
- Reviewing the educational program.
- Appointing the superintendent.
- Approving the JCPS annual operating budget.
- Approving purchases and contracts.
- Accepting contracts for new construction, renovations, and building additions.
- Ensuring practices and policies are in agreement with the Kentucky Revised Statutes.
- Establishing tax rates.
- Performing all duties prescribed by the Kentucky Revised Statutes.

As a Board, our first priority is to support student achievement and student learning. Our goal is to ensure that each student graduates prepared to succeed in college or career. To attain this goal, we must provide resources to recruit, develop, and retain excellent teachers and staff; deliver the appropriate tools and facilities needed for a challenging education; and offer a comprehensive curriculum with educational opportunities as diverse as our student body.

The Board views its governance responsibility as equally to the students in our schools and the taxpayers providing our support. To fulfill taxpayer expectations, we must be transparent with our resources. To this end, we are implementing a Transparency Dashboard, a web-based site where the public can drill down into our complete financial picture. Additionally, we

provide a financial fraud hotline, an Internal Audit department that performs risk-based audits of the entire district, and significant emphasis on internal controls. We establish sound district policies and ensure that they are followed.

The Board has established four goals for our school district and works to maintain a focus on achieving these goals:

- 1. Every student progresses in his or her learning and meets or exceeds proficiency in all subjects.
- 2. Every student graduates prepared for his or her post-secondary choice for college or career and life.
- 3. Parents, community, and partners enrich students' educational experiences and support their success.
- All schools are staffed, resourced, and equipped to support student needs.

As your Board, we recognize that we are the collective voice of the students, parents, staff, and taxpayers of Jefferson County. On behalf of the Jefferson County Board of Education, I am pleased to present this Comprehensive Annual Financial Report for the fiscal year ended June 30, 2014.

Sincerely,

Diane Porter

Chairwoman, Jefferson County Board of Education

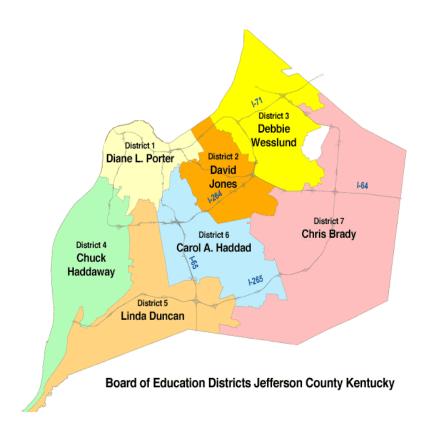

Members of the Board of Education

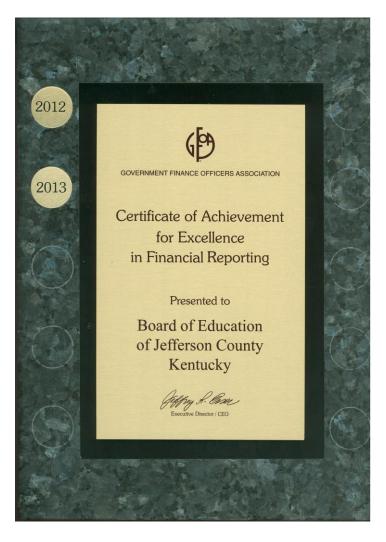

Back row: David Jones, Vice-Chairman from District 2; Carol Ann Haddad, District 6; Diane Porter, Chairwoman from District 1; Chuck Haddaway, District 4

Front row: Chris Brady, District 7; Debbie Wesslund, District 3; Linda

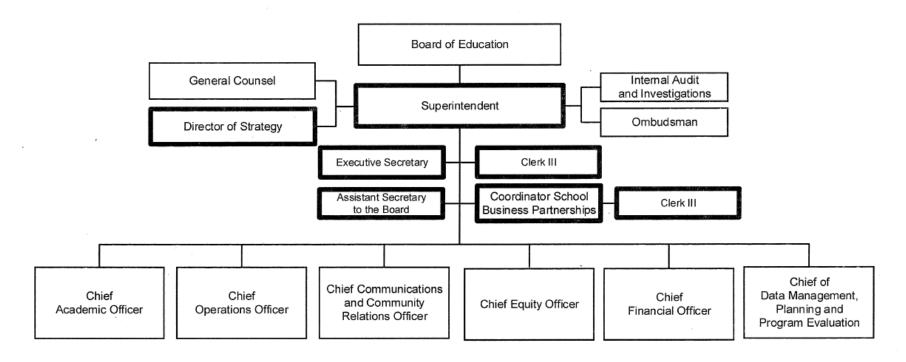

Duncan, District 5

This Certificate of Achievement for Excellence in Financial Reporting, awarded by the Government Finance Officers Association, is the highest form of recognition in the area of governmental accounting and financial reporting, and its attainment represents a significant accomplishment of the District. The District has received this award each year from 2007 through the latest award period for the year ended June 30, 2013.

Independent Auditors' Report

Members of the Board Jefferson County Board of Education Louisville, Kentucky

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Jefferson County Board of Education (the "Board") as of and for the year ended June 30, 2014, and the related notes to financial statements, which collectively comprise the Board's basic financial statements as listed in the accompanying table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Kentucky Public School Districts' Audit Contract and Requirements* prescribed by the Kentucky State Committee for School District Audits. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Board's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board as of June 30, 2014, and the respective changes in financial position and cash flows of its proprietary funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (Unaudited) on pages 4 through 14 and the budgetary comparison information on pages 48 through 50 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Board's basic financial statements. The other supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The other supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material aspects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated November 1, 2014 on our consideration of the Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Board's internal control over financial reporting and compliance.

Louisville, Kentucky November 1, 2014

Introduction

Our discussion and analysis of the Board of Education of Jefferson County, Kentucky (the "District") financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2014. The intent of this Management's Discussion and Analysis ("MD&A") is to look at the District's financial performance as a whole. It should be read in conjunction with the District's financial statements.

Financial Highlights

Serving over 100,000 students, the District is the largest in Kentucky and the 28th largest in the United States. We maintain 156 schools and education centers: 89 elementary, 23 middle, 18 high, 10 special education, and 16 others. The financial position of the District remains strong and stable with an operating budget of \$1.4 billion.

The District maintains its focus on student achievement. Our students and teachers continue to win awards and reach new goals in numerous academic areas. The student-teacher ratio in elementary schools was 16.2 to 1, middle schools 16.8 to 1, and high schools 16.7 to 1.

	2013-14	2012-13	Change		2013-14	2012-13	Change
College scholarships earned	\$145 million	\$132 million	9.8%	Number of teachers	6,630	6,716	-1.3%
Students taking AP tests	5,635	5,160	9.2%	Teachers with Master's Degree or higher	84%	84%	0.0%
Number of tests taken	8,875	8,043	10.3%	National Board Certified Teachers	330	235	40.4%
AP scores earning college credit	49.0%	47.8%	2.5%	Student daily attendance rate	94.3%	93.9%	0.4%

On the District-wide financial statements, the assets of the District exceeded liabilities by \$407.7 million. The District's total net position increased by \$8.1 million for the fiscal year ended June 30, 2014. The District's governmental funds financial statements reported combined ending fund balance of \$244.2 million. Of this total, \$66.5 million is unassigned in the general fund. However, due to economic uncertainty, along with the needs of specific instructional priorities, it is necessary to maintain adequate fund balance to support these initiatives.

Overview of the Financial Statements

The annual report contains:

- Management's Discussion and Analysis ("MD&A")
- District-wide financial statements and fund financial statements
- Notes to Financial Statements
- Other required supplementary information, including statements for nonmajor governmental and fiduciary funds

This annual report consists of a series of financial statements. The District-wide statements, the Statement of Net Position and the Statement of Activities, provide an overview of the District's finances. The fund financial statements and governmental activities statements tell how these services were financed in the short term, as well as, what remains for future spending. The fund financial statements also report the District's operations in more detail than the District-wide financial statements by providing information about the District smost significant funds. The remaining statements provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside of the District.

Reporting the District as a Whole

The Statement of Net Position and the Statement of Activities

Our analysis of the District as a whole begins with the District-wide financial statements. One of the most important questions raised about the District's finances is whether the District as a whole is better off or worse off as a result of the year's activities. The Statement of Net Position and the Statement of Activities report information about the District as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector organizations. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's net position and changes in them. The District's net position, the difference between assets and liabilities, are one way to measure its financial health. Increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating.

To evaluate the District's overall health, review other non-financial factors, such as changes in the District's property tax base and the condition of the District's school buildings and other physical assets.

The District-wide financial statements are divided into two categories:

- Governmental activities: Most of the District's basic services are reported here, including instruction, student support services, instructional staff support services, administrative support services, school administrative support services, business support services, transportation, and plant operations and maintenance. Property taxes, occupational taxes, the Commonwealth's Support Education Excellence in Kentucky ("SEEK"), other Commonwealth support, and state and federal grants finance most of these activities.
- Business-type activities: School Food Services, Adult Education Lifelong Learning Courses, Tuition-based Pre-School, fee-based Day Care, and the Challenger Center Flight Simulator Enterprise Program are considered as business-type activities of the District. A fee is charged for these activities to assist the District in covering the cost of these services; therefore, they are classified as business-type activities.

Reporting the District's Most Significant Funds

Fund Financial Statements

Our analysis of the District's major funds provides detailed information about the most significant funds—not the District as a whole. Some funds are required to be established by State law and bond covenants. However, other funds are established as needed to help control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (for example, grants received from the federal and state governments). The District's two kinds of funds, governmental and proprietary, use different accounting approaches. The District also uses fiduciary funds, which are separate funds from the governmental and proprietary funds described above. These funds are not included in the District-wide financial statements, but are described below.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the District-wide and fund financial statements.

Governmental funds: Most of the District's basic activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using accounting methods called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. We describe the relationship (or differences) between the governmental activities (reported in the District-wide Statement of Net Position and Statement of Activities) and governmental funds in a reconciliation following the fund financial statements.

Proprietary funds: When the District charges students or parents for the services it provides, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the District-wide Statement of Net Position and Statement of Activities. In fact, the District's proprietary funds are the same as the business-type activities we reported in the District-wide financial statements but provide more detail and additional information, such as cash flows, for proprietary funds.

Fiduciary funds: Fiduciary funds are used to account for resources held for the benefit of parties outside the District. These funds are not reflected in the District-wide financial statements because the resources of these funds are not available to support the District's own activities or programs. The basis of accounting for fiduciary funds is similar to that of proprietary funds.

Management's Discussion and Analysis Year Ended June 30, 2014

The District as a Whole

The following is a summary of the District's net position:

	Go vernmental Activities		Business-ty	ype Activities	Total		
	2014	2013	2014	2013	2014	2013	
Current and other assets Capital assets, net of depreciation,	\$ 354,481,869	\$ 329,856,404	\$ 11,251,728	\$ 13,679,039	\$ 365,733,597	\$ 343,535,443

Governmental Activities

The revenues in the governmental funds decreased by \$17.9 million. An increase in real estate property tax rates resulted in an increase in total tax collections for the fiscal year ending June 30, 2014 of \$8.5 million, while collection of appealed franchise taxes during the 2012-2013 fiscal year account for most of the decrease in other taxes of \$8.1 million. Grants revenues decreased \$26.5 million as federal stimulus grants were fully expended.

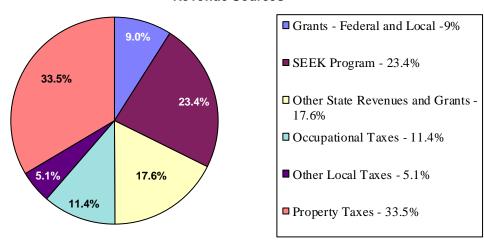

Expenses in governmental activities decreased by \$12.9 million. The majority of this decrease was caused by reduced Federal Grant expenditures due to sequestration and completion of the final stimulus grants.

The following schedule provides a comparison of the District-wide revenues for governmental activities for the current and previous years:

Revenues		2014		2013		Change	% Change
Local Sources:							
Property Taxes	\$	388,628,855	\$	380,134,468	\$	8,494,387	2.2%
Occupational Taxes		132,569,312		128,882,355		3,686,957	2.9%
Other Taxes		46,500,119		54,640,894		(8,140,775)	-14.9%
State Sources:							
SEEK Program		270,658,773		272,230,951		(1,572,178)	-0.6%

Revenue Sources

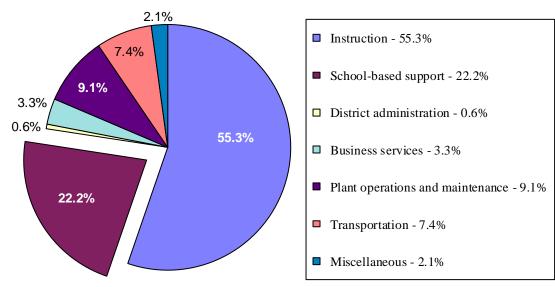

The following summary is a comparison of total District-wide expenses for governmental activities:

	2014	2013	Change	% Change
Expenses				
Instruction	\$ 633,177,394	\$ 625,366,756	\$ 7,810,638	1.2%
Student support services	50,729,048	51,229,772	(500,724)	-1.0%
Instructional staff support services	118,955,171	126,848,770	(7,893,599)	-6.2%
District administrative support services	6,972,822	6,527,172	445,650	6.8%
School administrative support services	84,150,967	86,610,539	(2,459,572)	-2.8%
Business support services	38,844,491	43,593,985	(4,749,494)	-10.9%
Plant operations and maintenance	103,975,188	105,742,034	(1,766,846)	-1.7%
Transportation	84,374,237	85,671,454	(1,297,217)	-1.5%
Community services	9,134,416	11,083,387	(1,948,971)	-17.6%
Other instructional support services	10,000	54,928	(44,928)	-81.8%
Miscellaneous	553,066	805,323	(252,257)	-31.3%
Interest	14,825,786	15,146,527	(320,741)	-2.1%
Total Expenditures	\$1,145,702,586	\$1,158,680,647	\$ (12,978,061)	-1.1%

Expense Categories

Business-type Activities

Operating revenue of the District's business-type activities decreased \$2.0 million. School Food Service revenue decreased \$1.4 million, as sales decreases were offset by a 6% increase in meal subsidies. Adult Education revenue remained stable, Tuition Preschool revenue decreased \$.1 million, Daycare Operations revenues decreased \$.5 million, and Enterprise Programs remained stable.

General Fund Budgetary Highlights and Future Budgetary Implications

The District's Draft Budget is presented to the members of the Board of Education by January 31 each year, followed by a Tentative (Original) Budget by May 30, and, once the members of the Board of Education approve tax rates in September, the Working (Final) Budget is submitted to the Kentucky Department of Education by September 30.

General Fund revenues were \$10.2 million under budget, while expenditures were \$29.7 million under budget. Instruction expenses and plant operations and maintenance expenses fell short of budget as a result of budgeted positions that became vacant for part of the year, school funds that are permitted to carry forward to the subsequent school year, and some operational expenses where the District over-budgeted due to refunds or lower-than-expected cost of operations. As a whole, our General Fund decreased fund balance by \$10.1 million, as the District used some fund balance to support academic priorities. As discussed further in the Local Economic Outlook section on page 14, the local economy is in a period of slow growth.

Our Construction Fund experienced a \$63.2 million increase during the year. Much of this was due to the sale of two bonds to finance construction projects, one of which was sold late in the fiscal year and most of the proceeds were still unspent at fiscal year-end. Building Fund decreased \$26.9 million during the year as funds were used for planned construction projects. On whole, our Construction Fund and Building Fund are well structured for future capital needs. We anticipate our revenue stream remaining stable for the foreseeable future as we are on sound financial footing.

Capital Assets and Debt Administration

Capital Assets

At the end of June 30, 2014, the District's investment in capital assets for its governmental and business-type activities was \$685.1 million, representing an increase of \$27.8 million (net of depreciation), as shown in the following tables:

	June 30, 2014	June 30, 2013	Percent Change
Governmental activities:			
Land	\$ 29,023,021	\$ 29,023,021	
Land improvements	36,998,200	36,087,405	2.5%
Buildings and improvements	1,105,393,391	1,021,785,145	8.2%
Technology	87,507,927	83,762,714	4.5%
Buses and vehicles	94,766,249	87,470,548	8.3%
Furniture, fixtures and other	50,013,957	46,584,972	7.4%
Construction in progress	8,871,511	41,778,581	-78.8%
Total	1,412,574,256	1,346,492,386	4.9%
Less: accumulated depreciation	749,489,024	711,607,923	5.3%
Governmental assets net of depreciation	\$ 663,085,232	\$ 634,884,463	4.4%

Construction in progress decreased significantly as major renovations including Eastern High School, Valley High School, and the new George Unseld Early Childhood Center were completed and put into use, and transferred from construction in progress to the building and improvement category.

	June 30, 2014		June 30, 2013		Percent Change	
Business-type activities:						
Land	\$	1,000,000	\$	1,000,000		
Land improvements		4,745				
Buildings and improvements		17,067,854		17,067,854		
Technology		830,439		1,109,224	-25.1%	
Buses and vehicles		1,891,985		1,553,568	21.8%	
Furniture, fixtures and other		26,656,997		25,732,880	3.6%	
Total		47,452,020		46,463,526	2.1%	
Less: accumulated depreciation		25,451,082		24,026,088	5.9%	
Business-type assets net of depreciation	\$	22,000,938	\$	22,437,438	-1.9%	
Total Capital Assets Governmental						
and Business-type activities	\$	685,086,170	\$	657,321,901	4.2%	

Business-type activities Technology equipment had increased during the year ended June 30, 2013 as School Food Services had completed a major upgrade of its technology equipment due to a new point of sale system. After completion of this project, the assets that had been replaced were auctioned off. Additionally, School Food Services purchased new refrigerated delivery trucks.

District facility personnel develop a long-range facility plan through evaluation of every building, identification of appropriate renovations, and analysis of demographic census to determine future growth needs. All findings are shared with each school for review by staff, SBDM councils and PTA. Adjustments are made to the plan after the reviews. The long-range facility plan details the unmet needs for the District for the next four years. The plan is submitted to the Kentucky Department of Education for approval. At June 30, 2014, the unmet needs for the District totaled an estimated cost of \$858.8 million.

Funding for these needs is typically provided from the General Fund, Construction Fund or through Bond issues. Bond issues are paid with Building Funds (local 5-cent property tax), State Capital Outlay funds at \$100 per student or the Kentucky State Facility Construction Commission ("KSFCC") funds. To ensure continued academic success for our students, we must provide a learning environment that is safe, functional, inviting and well-maintained.

Additional information on the District's capital assets can be found in Note E of this report. Information concerning bonds and long-term liabilities is in Note F of this report.

Debt Service Fund

At year-end, the District had approximately \$463.2 million in outstanding debt, compared to \$420.9 million last year. The District continues to maintain favorable debt ratings from Moody's and Standard & Poor's.

Local Economic Outlook

The Jefferson County economy has recovered from the national economic downturn, and has begun a phase of slow growth in our economy-driven revenues, such as a 2.8% increase in occupational license taxes which are based on net profits and salaries paid within our jurisdiction. Louisville maintains some resiliency by being a regional hub of many companies or industries. Inherent strength can be found in the balance among the educational, health and social services, manufacturing, professional services, retail trade, tourism, insurance, and transportation sectors. Recently, Ford has completed a \$600 million investment at one of their Louisville plants adding 1,800 jobs where they build the Escape. Additionally, Amazon.com is opening a distribution center, an extensive theme park has opened, and two additional Ohio River bridges are being constructed, which will bring investment and additional jobs to the area. This future growth is critical as Jefferson County's unemployment rate remains high at 6.8% as of June 2014, slightly below the state rate of 7.4% and above the national unemployment rate of 6.1% as of June 2014 according to the Labor Market Statistics provided by the Local Area Unemployment Statistics Program. Jefferson County property valuation assessments have shown 1.3% growth for the 2013-2014 school year, continuing to grow for the third consecutive year since the downturn.

Jefferson County's central location, extensive transportation network and quality of life are factors in attracting and maintaining a healthy business community. Recently, Louisville was named one of the ten coolest small cities in America by GQ magazine, the second-best housing market in the United States by Forbes.com, ranked in the top Best Bank for Buck Cities by Forbes, named one of North America's "Small Cities of the Future" by Foreign Direct Investment Magazine, and named a "City to Watch" in the Smarter Cities environmental survey. Additionally, our quality of life is demonstrated by being named among one of "America's safest cities for families with small children" by Underwriters Laboratories Inc., "Best Foodie Getaways around the World" by Zagat, the fourth most "Photo-Friendly" city in America by Popular Photography Magazine, the United States' 40th most literate city by Central Connecticut State University, one of the top 25 "Bicycle-Friendly Cities" by Bicycling Magazine, and one of the "Most Livable U.S. Cities for Workers" by WomenCo.com.

Metro Louisville has many initiatives designed to increase the quality of life and stimulate the business environment. Having declared Louisville "the City of Parks," Metro Louisville has embarked on an initiative to encircle the city with a continuous loop of hiking trails, and maintain its three Olmstead parks, 85-acre Waterfront Park and Jefferson Memorial Forest, the largest urban forest in the United States. Metro Louisville is also working to hire more police officers, and increase communication systems for its police, fire and emergency medical systems. Metro Louisville is assisting its fastest growing companies through Project High Impact, which assists these companies with various needs such as hiring, real estate, and incentives, and is working on numerous economic development, housing, library expansion, and drainage and maintenance projects.

Overall, with many local and national businesses expanding their footprint in Jefferson County and excellent quality of life, Jefferson County's economy has the stability necessary to minimize the impact of economic downturns.

Contacting the Jefferson County Board of Education Management

This financial report is designed to provide a general overview of the finances of the Jefferson County Board of Education and to show management's accountability for these funds. If you have questions about this report or need additional information, contact the Chief Financial Officer/Treasurer of the Jefferson County Board of Education, P. O. Box 34020, Louisville, Kentucky 40232-4020.

See Notes to Financial Statements

Note A—Reporting Entity

The Board of Education of Jefferson County, Kentucky (the "District") is established under and governed by the Kentucky School Laws and maintains a system of schools primarily for kindergarten through twelfth grade, but also including pre-school, vocational and adult education. The District is a school district of the Commonwealth of Kentucky having boundaries coterminous with the boundaries of Jefferson County, excluding the City of Anchorage.

The accompanying financial statements include all funds and activities of the District, including the Jefferson County School Board Finance Corporation (the "Corporation"), a non-stock, not-for-profit Corporation. The Corporation was created to act as an agency in the acquisition and financing of any capital project which may be undertaken by the District. Accounts of the Corporation are included in the financial statements as a capital projects fund.

The District is not includable as a component unit within another reporting entity. Board members are elected by the public and have decision-making authority, the power to designate management, the responsibility to develop policies which may influence operations and primary accountability for fiscal matters.

Note B—Summary of Significant Accounting Policies

The financial statements of the District have been prepared in conformity with generally accepted accounting principles ("GAAP") as applied to government units. The Governmental Accounting Standards District ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The District adopted GASB statement 62 Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, which codified all applicable GASB, Financial Accounting Standards Board ("FASB"), and Accounting Principles Board opinions dated according to the title of the statement.

District-wide and Fund Financial Statements--The District-wide financial statements (the Statement of Net Position and the Statement of Activities) display information about the reporting government as a whole. These statements report information on all the activities of the District, except for the fiduciary funds. The doubling-up effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax revenues, are reported separately from business-type activities, which rely significantly on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to students or parents who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or program; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or program. Taxes and other items not properly included among program revenues are reported instead as general revenues. The District allocates certain indirect costs to be included in the program expense reported for individual functions and activities in the District-wide Statement of Activities.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though fiduciary funds are excluded from the District-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus and Basis of Accounting--The District-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. The fiduciary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Each fund is a separate accounting entity with a self-balancing set of accounts. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible during the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and workers' compensation claims, are recorded only when payment is due.

Revenues susceptible to accrual are property taxes, interest revenue and charges for services. Occupational tax revenues are not susceptible to accrual because generally they are not measurable until received in cash.

Funds are classified into three categories: governmental, proprietary and fiduciary. The District reports the following major governmental funds:

The General Fund is the District's primary operating fund, which accounts for all of the activities of the general government not required to be accounted for in another fund. Local taxes account for of the General Fund revenues, while the Support Education Excellence in Kentucky ("SEEK") program accounts for of General Fund revenues. SEEK is a program that began in 1990 as the result of the Kentucky Education Reform Act ("KERA"), and is basically the method by which state funding is obtained.

The Grants and Awards Fund is a special revenue fund which accounts for the activities of specific education related programs in accordance with restrictions established by the various grantors (primarily the United States Government and state and local governments). This includes certain KERA grants which carry grantor restrictions related to expenditures.

The Construction Fund accounts for funds from three sources. First, funds generated by sales of bond issues are used for various construction projects at educational facilities. Second, proceeds from the sale of properties and equipment owned by the District are to be used at the discretion of the District for future construction projects. Last, any funds remaining in the Capital Outlay and Building Funds at the end of the year are escrowed to pay for categorical priorities listed in the Long-Range Facility Plan, discussed on page 12 of the MD&A.

Proprietary Funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services or producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. The District reports as a major proprietary fund the School and Community Nutrition Services ("Food Service") Program which provides certain food preparation at the Nutrition Center and serves breakfast and lunch at schools throughout Jefferson County.

Fiduciary Funds are used to account for assets held on behalf of outside parties or on behalf of other funds within the District. This fund consists of agency funds for various scholarship programs administered by the District on behalf of the third-party donors, and agency funds held on behalf of student organizations and segregated among elementary schools, middle schools and high schools. Since fiduciary funds are held on behalf of others, these funds are excluded from the District-wide financial statements on pages 15-16.

Cash and Cash Equivalents--The District considers demand deposits, money market funds, and other investments with an original maturity of 90 days or less, to be cash equivalents.

Inventories--Inventories are valued at the lower of cost, using the first in, first out method, or market. Generally, the only inventory items marked to market are diesel, gasoline, and items determined to be obsolete with no current market value. The Food Service Fund's inventories consist of food and supplies valued at cost and U. S. Government commodities whose value is determined by the U. S. Department of Agriculture.

In the governmental funds balance sheet, reported inventories in the general fund are equally offset by a fund balance reserve which indicates that they do not constitute "available spendable resources" even though they are a component of total assets.

Capital Assets--Capital assets include land, buildings, vehicles, office equipment, school equipment, and food service equipment, and are reported in the applicable governmental or business-type activities column in the District-wide Statement of Net Position. The District maintains a record of its capital assets, and those with a cost of \$1,000 or more are capitalized. All computers, regardless of cost, are capitalized. Additions to capital assets are recorded at cost and depreciated using the straight-line method. The District has elected not to capitalize interest on debt used to finance buildings. Capital assets are depreciated over estimated useful lives as determined by the Kentucky Department of Education, as follows:

	Estimated life (years)
Land improvements	20
Buildings	50
Building improvements	25
Carpet/tile	7
Technology equipment	5
School buses	10
Other vehicles	5
Rolling stock	15
Food service equipment	12
Furniture and fixtures	20
Audio-visual equipment	15
Other general equipment	10
Musical Instrument	10

Estimates--The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fund Balance—Under GASB statement 54, fund balance is separated into five categories, as follows:

Category	Definition	District purpose
Nonspendable	Permanently nonspendable by decree of the donor, such as an endowment, or items which may not be used for another purpose, such as amounts used to prepay future expenses or already-purchased inventory on hand	Prepaid expenses, predominantly insurances, and inventory on hand
Restricted	Legally restricted under federal or state law, bond authority, or grantor contract	Grant funds, bond proceeds, and funds governed by specific state laws
Committed	Orders approved by Board vote during open Board meetings	Cash flows protection
Assigned	Funds assigned to management priority including issued encumbrances	Encumbered purchase orders
Unassigned	Funds available for future operations	Funds available for future operations

It is the District's practice to liquidate funds when conditions have been met releasing these funds from legal, contractual, District, or managerial obligations, using restricted funds first, followed by committed funds, assigned funds, then unassigned funds.

Encumbrances are not liabilities and, therefore, are not recorded as expenditures until receipt of material or service. Encumbrances remaining open at the end of the fiscal year are automatically re-budgeted in the following fiscal year. Encumbrances are considered a managerial assignment of fund balance in the governmental funds balance sheet. Board policy 04.31 grants this authority to the Superintendent or the Superintendent's designee. The Superintendent has granted fund balance assignment authority to the Director of Purchasing.

Statutorily, the Kentucky Department of Education may assume financial control over any school district whose fund balance drops below 2% of the total expenditures of certain funds. To maintain balances above this level, they recommend reserving at least 5%. The elected Jefferson County Board of Education committed funds to ensure fund balance remains above these levels. While these funds have been properly committed and not budgeted for future years' expenditures, there is no mandate on how these funds would be used if the District fell below this floor.

Property Tax Revenues--Property taxes are levied each November on the assessed value listed as of the prior January 1 for all real and personal property in Jefferson County. The billings are considered due upon receipt by the taxpayer; however, the actual due date is based on a period ending 30 days after the tax bill mailing.

On-Behalf Payments--The Commonwealth of Kentucky pays certain expenses on behalf of the District. In the financial statements, these payments are recorded as an expense and other state revenue. These expenses include the following:

	2013-14			2012-13
Health insurance	\$ 99,685,357	9	5	96,105,004
KTRS employer match	69,421,126			67,943,112
HRA, dental, vision, and life insurance	5,124,366			5,377,733
State administration fee	1,098,119			1,107,922
Reimbursement from federal programs	(10,283,450)			(10,613,510)
State facility construction support	7,638,789			7,908,035
Technology systems	489,487	_		750,379
	_			
	\$ 173,173,794	\$	\$	168,578,675

Budgetary Principles--The Superintendent must submit the proposed budget for all funds other than school-based activity funds (agency funds) to members of the Board each year. The Board Members will then discuss and, where so desired, amend the proposed budget and will adopt a final budget by September 30 of each fiscal year. Any adjustments to the adopted budget must be approved by the Board.

Budget information is presented for the General Fund and other funds with a legally-adopted budget. This budgetary data is prepared on the modified accrual basis of accounting, in accordance with generally accepted accounting principles. Budgetary revenues represent original estimates modified for any adjustments authorized by the Board during the fiscal year. Budgetary expenditures represent original appropriations adjusted for budget transfers and additional appropriations approved during the fiscal year. Although budgets are prepared on a line-item basis by cost center for each department, expenditures may legally exceed budget in these areas but may not exceed the budget in total.

Interfund Receivables and Payables--Each fund is a separate fiscal and accounting entity, and thus interfund transactions are recorded in each fund affected by a transaction. Interfund receivables and payables for the District arise generally from two types of transactions: 1) all funds are initially received into the General Fund, thus a payable and receivable are established in the appropriate funds; and 2) payments are from the General Fund checking account, which may not have the legal liability for the expenditure, thus a payable from the fund having the legal liability is established at such time. Typically, interfund receivables and liabilities are resolved monthly, and all of these balances should be resolved within a year. All interfund receivables and payables have been eliminated on the District-wide Statement of Net Position.

	Fun	e from other ds Reported General Fund	Due to other Funds Reported in General Fund			
Special Revenue Fund	\$	13,464,232	\$	10,404,424		
Construction Fund	Ψ	7,269,107	Ψ	65,912,504		
Nonmajor Governmental Funds		, ,		6,284,171		
Food Service Fund		5,954,010				
Nonmajor Enterprise Funds		51,385		170,481		
	\$	26,738,734	\$	82,771,580		

Transfers to Other Funds--Although each fund is its own distinct reporting entity, periodically, funds have cause to transfer their revenues to other funds. The most common reasons necessitating interfund transfers are for debt service payments and grant matching funds. Debt service payments may be paid from revenues in the Capital Outlay Fund, Building Fund, Construction Fund, Food Service Fund, or one grant within the Grants & Awards Fund, but the expenditures are recorded in the Debt Service Fund with transfers recorded to keep the funds in balance. At times, the District receives grants which require an amount of matching funds. Usually, General Fund supplies this match offset by transfers to the Grants & Awards Fund. The following is a schedule of the District's transfers during the year:

	 Transfers from other funds	 Transfers to other funds	
General Fund		\$ 8,728,807	Food Service facilities rent forgiven, grant matching, and construction funding
Special Revenue Fund	\$ 1,637,526	526	Grant matching funds and accounting changes
Construction Fund	36,290,028	4,310,765	Debt service payments and escrowed funds used for current construction
Nonmajor Governmental Funds	39,632,695	67,539,455	Debt service payments and escrowed funds used for current construction
Food Service Fund	2,954,142		Facilities rent forgiven by General Fund
Nonmajor Enterprise Funds	70,162	5,000	Loss from operations made up by other funds and grant match
	 _	 _	
	\$ 80,584,553	\$ 80,584,553	

Note C—Cash, Cash Equivalents and Investments

The District's deposits are maintained in six designated financial institutions. Deposits at all these financial institutions are entirely insured by federal depository insurance or by collateral held by the financial institutions in the District's name, as is required by the District's investment policy though custodial credit risk is not specifically mentioned in this policy. During the year, the District invests excess cash into short-term United States Government obligations or bank certificates of deposit collateralized by U.S. Government securities. These investments are either insured or securities are held by the pledging financial institution's trust department in the District's name.

In compliance with Kentucky Statutes, the District's investment policy 04.6 specifies that the District's investment objectives, in order of priority are the following:

- a. Safety of principal
- b. Liquidity to enable the District to meet all operating requirements
- c. Return on Investment

The complete investment policy 04.6 is available at http://www.jefferson.k12.ky.us/Departments/GeneralCounsel/Districtpolicy0702.pdf. Investments consist of certificates of deposit and U.S. Government agency securities. The certificates of deposit are held by various schools' activity funds in the Fiduciary Funds at several financial institutes located in Jefferson County, Kentucky, and have various rates of interest and maturity dates greater than ninety days. Such investments are stated at fair value as of June 30. These investments are covered by depositor insurance or by collateral held by the financial institutions in the District's name. The U.S. Government Securities also have maturities greater than ninety days and their value has been adjusted to the fair value. As of June 30, 2014, the District had the following investments:

Fund Type	Investment Type	1	Fair Value	Moody's Rating	Weighted Average Maturity in Years
Governmental Agency	Federal Agencies Certificates of Deposit	\$	54,873,020 1,045,306	Aaa	4.18 1.53
		\$	55,918,326		

GASB No 40, Deposits and Investment Risk Disclosures, requires the District to address the following risks related to its investments:

Credit Risk--Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. In an effort to minimize the likelihood that an issuer will default, the District has limited the number of permissible investments under its investment policy to certain highly rated investments. In accordance with this policy, the District is authorized to invest in the following:

- a. Obligations of the United States and of its agencies, national corporations, and instrumentalities, including repurchase agreements
- b. Certificates of deposit issued by banks or savings and loan institutions
- c. Bonds or certificates of indebtedness of the Commonwealth of Kentucky and of its agencies and municipalities

Note C—Cash, Cash Equivalents and Investments--Continued

- d. Securities issued by a state or local government, or any instrumentality of agency thereof, in the United States, but only if fully defeased by direct obligations of or guaranteed by the United States of America
- e. Interest bearing deposits in national and state banks chartered in Kentucky and insured by an agency of the United States up to the amount so insured, and in larger amounts providing such bank shall pledge as security obligations having a current quoted market value at least equal to any uninsured deposits.

Custodial Credit Risk--Custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All investments held by the District are insured or collateralized with securities held in the District's name. The securities held as collateral are maintained either by the Federal Reserve or in the trust area of major national banks.

Interest Rate Risk--Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. The District manages its exposure to declines in fair value by purchasing a combination of cash holdings, shorter-term, and longer-term investments. The District's investments in federal agency securities are callable instruments and particularly carry this form of risk. The District has no formal policies relating to interest rate risk.

Concentration of Credit Risk--The District's investment policy places no limit on the amount the District may invest with any one issuer; however, all holdings must be collateralized with securities held in the District's name. As of June 30, 2014, the District had \$2,000,000 of deposits insured by the Federal Depositors Insurance Corporation and \$221,468,435 of deposits that were uninsured but collateralized by securities held in the District's name.

Note D—Receivables

The District recognizes revenues as receivable when they are measurable and receipt is certain. Concentration of credit risk with respect to the receivables from federal and state governments is limited due to the historical stability of those institutions. While the District receives revenues from many different outside sources throughout the year, the accounts and grants receivable from outside sources may be grouped into the following categories:

	Governme	ental 1	Proprietary		
Accounts and grants receivable	Funds		Funds		Total
from outside sources					
Accounts receivable	\$ 2,610),552 \$	1,433,914	\$	4,044,466
Taxes receivable	16,610),532			16,610,532
Grants receivable	13,620	5,732	22,872		13,649,604
	\$ 32,84	7,816 \$	1,456,786	\$	34,304,602

Federal and state grants to be used or expended as specified by the grantor are recognized as revenue and recorded as receivables as qualifying expenditures are made.

Note D—Receivables--Continued

The following is the District's property tax calendar:

<u>Date</u>	Event
January 1, year of levy	Assessment date
October 1, year of levy	Taxes levied
November 30, year of levy	2% discount allowed
December 31, year of levy	1% discount allowed
January 31, following year	Gross amount due
February 1, following year	Delinquent date, 1½ % interest added per month
April 1, following year	10% penalty added

Unpaid property taxes attach as an enforceable lien on real property as of the delinquent date. The Jefferson County Clerk's Office collects personal property tax on vehicles when registered. The Jefferson County Sheriff's Office bills and collects all property taxes on real estate and other personal property on behalf of the District. District property tax revenues are recognized when levied to the extent that they result in current receivables.

Although the District has taxes receivable from a variety of constituents, a substantial portion of the debtors' ability to honor this debt is dependent upon the widely diverse economic environment of the Commonwealth of Kentucky and the local area.

Note E—Capital Assets

Activity in capital assets during the year ended June 30, 2014 consisted of the following:

	Balance		5	Balance
	June 30, 2013	Additions	Dispositions	June 30, 2014
Governmental Activities				
Land	\$ 29,023,021			\$ 29,023,021
Construction in progress	41,778,581	\$ 50,843,770	\$ 83,750,840	8,871,511
	70,801,602	50,843,770	83,750,840	37,894,532

2007 Series A	June 2017	2011 Series A	June 2021	2014 Series A	May 2024

In connection with most of the above listed bond issues, the District has entered into participation agreements with the Kentucky School Facilities Construction Commission (the "Commission") which provides that the Commission will remit a stated amount of bond principal and interest payments annually, subject to biennial approval by the Kentucky General Assembly. Should approval not be received in future periods, the District remains obligated for the full amount of the bond principal and interest payments.

Assuming no issues are called prior to scheduled maturity and continued Commission participation, the minimum obligations of the District at June 30, 2014 for debt service is as follows:

				Less:	
Year Ending			Total	Commission	Net
June 30	Principal	Interest	Repayments	Participation	Repayments
					_
2015	\$ 28,070,000	\$ 13,874,549	\$ 41,944,549	\$ 8,171,638	\$ 33,772,911

	\$ 463,215,000	\$ 117,104,853	\$ 580,319,853	\$ 89,959,522	\$ 490,360,331

Note F—Long-Term Liabilities—Continued

All bonds issued by the District were revenue bonds or refunding bonds of revenue bonds, and the proceeds were used to construct or renovate schools and other facilities. The bonds payable are collateralized by the educational facilities constructed by the District with bond proceeds. Bonds are repaid principally from state revenues in the Capital Outlay Fund and local revenues in the Building Fund. General Fund revenues are available to pay for debt service but have not been needed for this purpose.

Although defeased, the funded debt will not be actually retired until the call dates have come due or until maturity if they are not callable issues. As of June 30, 2014, the outstanding principal amount of indebtedness that is considered to be extinguished under "in substance defeasance" and therefore excluded from the District-wide financial statements was \$70,592,000.

Qualified School Construction Bonds--The District has issued two taxable Qualified School Construction Bonds with direct payment to issuer. As part of this program, the District pays interest to the purchaser at taxable interest rates and receives a refund from the US Department of Treasury for our interest payments. The accompanying official bond statements specify that the District will make payments, which will be held in trust for the sole purpose of redeeming the bonds held by the bondholders at maturity. Accordingly, as principal payments are made, both the cash held in trust and the payments made into the trust will be excluded from the District's assets and liabilities, respectively.

On December 23, 2008, the District issued \$5,200,000 in Special Obligations School Financing Bond Series 2008B as a QZAB to finance capital projects at Cane Run and Shacklette Elementary Schools. On December 23, 2009, the District began making annual payments of \$371,429 to an escrow account at a local bank. Such payments are being held in trust and invested at an interest rate of 6.0% in accordance with the funding agreement. The final annual payment is due December 23, 2022, at which time the QZAB will mature and the principal will be paid in full from the escrow account.

Estimated Liability for Workers' Compensation Benefits--The estimated liability for workers' compensation benefits consists of claim settlements for reported and outstanding claims and estimated claim settlements for incurred but not reported claims (based upon historical experience and an actuarial study). Estimated claim settlements for incurred but not reported claims are discounted at 6% over the anticipated payment periods to reflect the time value of money. This liability, along with certain related assets and liabilities, is accounted for within the Workers' Compensation Trust Fund, which is a self-insurance fund administered by the District for the purpose of providing workers' compensation insurance to employees of the District.

The District maintained reinsurance covering that portion of risks in excess of \$1,000,000 for any one occurrence with a \$500,000 deductible for the year ended June 30, 2014. The limit is subject to audit by the District's insurer. The District remains liable to the extent that claims are less than the amount of reinsurance coverage or if the reinsuring company is unable to pay its portion of claims. Workers' Compensation liability is charged against the same fund from which each employee's salary is paid when liquidated. The majority of these liquidations are made from General Fund, Grants and Awards Fund, and School Food Services Fund.

Note F—Long-Term Liabilities—Continued

Accrued Vacation Pay and Sick Leave--In accordance with generally accepted governmental accounting principles, the District has recorded accrued vacation pay and accrued sick leave as long-term liabilities in the District-wide Statement of Net Position. Accrued vacation pay, which may be accumulated for a period of up to two years, is payable upon termination of employment. Accrued sick leave, which has no maximum accumulation, is payable upon retirement at 30% of the value of accumulated sick leave. Both accrued sick leave and accrued vacation pay liabilities are charged against the same fund from which each employee's salary is paid when liquidated. The majority of these liquidations are made from General Fund, Grants and Awards Fund, and School Food Services Fund.

Net Investment in Capital Assets--On the district-wide Statement of Net Position, capital assets from Note E and Long-term Debt represent material portions of the District's net position. This calculation is as follows:

	G	overnmental	Bu	siness-type
Capital assets, net of related depreciation	\$	663,085,232	\$	22,000,938
School building revenue bonds Less: deferred savings from refunding bonds Less: bond proceeds not yet spent on capital projects	457,831,519 (220,462) (50,939,653)			5,383,481
	\$	256,413,828	\$	16,617,457

Note F—Long-Term Liabilities—Continued

A summary of the changes in long-term liabilities during the fiscal year is as follows:

	Ju	Balance me 30, 2013	Additions	Γ	Deductions	Jı	Balance ine 30, 2014
Governmental Activities:							
School building revenue bonds Estimated liability	\$	414,534,651	\$ 75,895,000	\$	32,598,132	\$	457,831,519

Business-type Activities: School building revenue bonds	\$	6,360,349		\$	976,868	\$	5,383,481

Note G—Retirement Plans

Classified Employees--Classified employees (substantially all full-time District employees other than certified employees) are covered by the County Employees Retirement Systems ("CERS"), a cost-sharing multiple-employer defined benefit pension plan administered by the Kentucky Retirement System, an agency of the Commonwealth of Kentucky. CERS provides retirement, death and disability benefits to Plan members and beneficiaries. Cost of living adjustments are provided at the discretion of the State Legislature.

Under the provisions of the Kentucky Revised Statute Section 61.645, the Board of Trustees of the Kentucky Retirement System administers CERS and has the authority to establish and amend benefit provisions.

Note G—Retirement Plans—Continued

Most plan members are required to contribute 5% of their annual covered compensation. Employees hired after August 31, 2008 are required to contribute 6% of their annual covered compensation. The District is required to contribute at an actuarially determined rate. The contribution requirements of Plan members and the District are established and may be amended by the Kentucky Retirement System's Board of Trustees. The District's contributions are in the chart below and were equal to the required contribution for each year.

The Kentucky Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for CERS. That report may be obtained by writing to Kentucky Retirement Systems, Perimeter Park West, 1260 Louisville Road, Frankfort, KY 40601.

Certified Employees -- Certified employees are covered by the Kentucky Teachers' Retirement System ("KTRS"), a cost-sharing multiple-employer defined benefit pension plan. KTRS provides retirement, death and disability benefits to Plan members. Cost of living increases are 1.5% annually. Any benefit amendments must be authorized by the State Legislature.

Plan members are required to contribute 11.355% of their annual covered compensation. The Commonwealth of Kentucky provides matching contributions as required by Kentucky Revised Statutes 165.540 and 161.550. The payments made by the Commonwealth of Kentucky on behalf of the District's certified employees, are detailed in Note B On-Behalf Payments. The Commonwealth of Kentucky requires payments for federally funded employees to be made by such federal funds; for the fiscal year ended June 30, 2014, this funding amounted to \$5,602,270. The District's contributions to KTRS are in the chart below and were equal to the required contribution for each year.

KTRS issues a publicly available financial report that includes financial statements and required supplementary information on the Plan. That report may be obtained by writing to Kentucky Teachers' Retirement System, 479 Versailles Road, Frankfort, Kentucky 40601.

CERS					KTRS		
	Rate paid	Aı	nount paid		Rate paid	Ar	nount paid
	by Board	b	y District		by Board	b	y District
2013-14	18.89%	\$	35,361,548	2013-14	1.50%	\$	7,832,146
2012-13	19.55%	\$	36,980,583	2012-13	1.00%	\$	5,113,452
2011-12	18.96%	\$	36,094,715	2011-12	0.50%	\$	2,459,633
2010-11	16.93%	\$	30,969,265	2010-11	0.25%	\$	1,190,465

Retirement Plan--The District makes available various 401(k) and 403(b) defined contribution pension plans for all employees. These Plans are administered by independent third party administrators. Employees are allowed to contribute any amount to the Plans up to the Internal Revenue Code maximum allowable amount. The District does not contribute to the Plans, but the District retains authority to amend or terminate these plans. During the fiscal year ended June 30, 2014, employees of the District contributed \$2,443,986 to 401(k) plans and \$9,253,487 to 403(b) plans.

Note H—Deferred Compensation

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The Plan, available to all employees, permits them to defer a portion of their salary until future years. This deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. GASB Statement No. 32, *Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*, allows entities with little or no administrative involvement and who do not perform the investing function for these plans to omit plan assets and related liabilities from their financial statements. The District therefore does not show these assets and liabilities on its financial statements. The District does not contribute to these plans, and employees of the District contributed \$2,120,419 to these plans during the fiscal year ended June 30, 2014.

Note I—Post-Employment Health Care Benefits

Retired District employees receive some health care benefits depending on their length of service. In accordance with Kentucky Revised Statutes, these benefits are provided and advanced-funded on an actuarially determined basis through the CERS and the KTRS plans.

Note J—Commitments

On June 30, 2014, the District had outstanding commitments for construction of \$47,298,290.

Note K—Contingencies

The District is subject to legal actions in various stages of litigation. Based on the advice of counsel, management of the District does not anticipate that there will be any material effect on the financial position of the District as a result of the litigation presently in progress beyond the settlements recorded as liabilities as of June 30, 2014.

In the normal course of operations, the District receives funding from federal, state, and local government agencies and private contributions. These funds are to be used for designated purposes only. For government agency grants, if the grantor's review indicates that the funds have not been used for the intended purpose, the grantor may request a refund of monies advanced or refuse to reimburse the District for its expenditures. The amount of such future refunds and unreimbursed expenditures, if any, is not expected to be significant. Continuation of the District's grant programs is predicated upon the grantor's satisfaction that the funds provided are being spent as intended and the grantors' intent to continue their programs.

In addition, the District operates in a heavily regulated environment. The operations of the District are subject to the administrative directives, rules and regulations of federal and state regulatory agencies, including, but not limited to, the U.S. Department of Education and the Kentucky Department of Education. Such administrative directives, rules and regulations are subject to change by an act of Congress or the Kentucky Legislature or an administrative change mandated by the Kentucky Department of Education. Such changes may occur with little or inadequate funding to pay for the related cost, including the additional administrative burden to comply with a change. Currently, the District has budgeted for such unfunded and underfunded mandates as Early Childhood (\$13.3 million), student transportation (\$58.2 million), English as a Second Language (\$8.4 million), the State Agency Children's Program (\$7.0 million) and Special Education (\$65.1 million), among others.

Note L—Insurance and Risk Financing Related Activities

The District is exposed to various forms of loss of assets associated with the risks of fire, personal liability, theft, vehicle accidents, errors and omissions, fiduciary responsibility, etc. Each of these risk areas is covered through the purchase of commercial insurance. To further reduce financial risk to the District, additional policies are purchased to address the risk that claims could exceed the insurance coverage limits. Over the past three years, the District has not had claims that exceeded its insurance policies and excess policies. Since claims are entirely managed through commercial insurance, the District has no claims liability as of June 30, 2014.

Note M—Encumbrances

The District classifies encumbrances as Assigned Fund Balance in the General Fund and as Restricted Fund Balance in other funds on its Balance Sheet – Governmental Funds in accordance with a directive from the Kentucky Department of Education. Issuing and controlling purchase orders is traditionally a management function, and encumbering and releasing the encumbrance of fund balance is a function of the District's management with approval of members of our Board of Education. As of June 30, 2014, encumbrances were included in our Fund Balances as follows:

General Fund Assigned Fund Balance	\$8,737,485
Special Revenue Fund Restricted Fund Balance	1,252,980
Construction Fund Restricted Fund Balance	40,736,234
Total Encumbrances	\$50,726,699
1 Otal Encumbrances	\$30,720,099

Note N—Effects of future accounting pronouncements

Governmental Accounting Standards Board statement 68 will require that unfunded portions of future pension benefit obligations shall be recorded as a liability of governments. This pronouncement will be mandatory for fiscal periods beginning after June 15, 2015. Although the data is not available from the Kentucky Teachers Retirement System or the County Employees Retirement System at this time, we believe that this implementation will have a material effect on future financial statements.

Note O—Subsequent event

In preparing these financial statements, the District has evaluated events and transactions for potential recognition or disclosure through November 1, 2014, the date the financial statements were available to be issued.

On September 2, 2014, the District issued \$21,630,000 of School Building Revenue Refunding Bonds maturing October 1, 2020. These bonds pay interest semiannually on April 1 and October 1 at rates ranging 2.0% to 5%. These bonds were issued to achieve interest savings and are payable over the same term as the original bonds.

Schedule of Revenues and Expenditures - Budget and Actual
Board of Education of Jefferson County, Kentucky
Year Ended June 30, 2014

Explanation of significant budget variances:

General Fund

Instruction expenses were \$11.3 million under budget largely as a function of permitted school carryover. Under this system, the District permits schools to carry unused budget forward to the subsequent fiscal year. This permits schools to spread the burden of larger purchases, such as instructional programs or copiers, over multiple years and prevents wasteful spending at the end of the budget period. Plant operations and maintenance expenses were \$11.3 million under budget. This resulted from conservative budgeting in many utilities categories, construction projects that were encumbered at year-end but that are scheduled to be completed and expensed during the summer of 2014, and a recalculation of how employee benefits are allocated to the District's functions.

Grants and Awards Fund

Grants revenues were \$19.1 million under budget due to reductions during Sequestration and the end of the last federal stimulus grant. Instruction expenses were \$15.9 million under budget as a result of these cuts to federal grants revenues. Additionally, business support services and grant revenues include \$3.0 million of unbudgeted in-kind services used for required grant matches. These services are recorded as offsetting expense and grant revenue as performed during the year.

Basis of budgeting -- The Board accounts for and budgets according to Generally Accepted Accounting Principles **See below for explanation of significant budget variances**

Explanation of significant budget variances:

Construction Fund

The Board budgets all construction and renovation projects in this fund. These multi-year projects are partially paid from bond proceeds and partially paid from funds escrowed from transfers from the Building Fund. During the year, market conditions were appropriate to sell two bonds, which reduced the burden on the Building Fund. We neither forecast nor budget low-interest-rate conditions. Finally, multi-year construction projects are budgeted with all funds required for completion were only partially completed during the fiscal year.

School Food Services

Federal grant revenues were \$14.9 million under budget as programmatic staff are accustomed to grouping budgets for a few revenue sources into this category, including state revenues, which include state payments for employee benefits such as health insurance, and USDA donated commodities. Both revenues and food service operation expenses are conservatively budgeted.

Building Fund

Building Fund transferred funds to Debt Service Fund for required debt service and to Construction Fund to fund new construction projects. Transfers for construction projects are not budgeted, since project change orders may be necessary at any phase of the construction project and since they are generally not recurring fund uses. Once our architect signs that the project is finished, we transfer the remaining funds back to Building Fund.

Tax collections consist of property taxes and franchise taxes. These revenues are split between General Fund and Building Fund in the Financial Section, where franchise taxes are included with Other Taxes.

Omitted and delinquent taxes are remitted to the District when collected by our tax collection agencies.

¹ Hispanic is not a race category. A person may be Caucasia, African-American, etc. and be of Hispanic origin.

² The groupings in this chart allow for some individulas to be counted twice, such as the Hispanic Origin described in note 1. For this reason, totals are slightly different from the chart on the left.
