The Henderson County Schools, in collaboration with Henderson Community College, seeks approval for submission of the "Advancing Informal STEM learning" grant application to the National Science Foundation. The grant seeks funding for a College and Career Coach for the High School and equipment for the Manufacturing, Engineering and Informational Technology programs at the CTE Unit; a Technical Education faculty member and equipment for a Welding program at HCC; and a Program Manager to facilitate the TRACK Apprenticeship agreements with local business and industries to strengthen training opportunities for youth and adults within Henderson County. The five year grant funding is for \$2,900,000.

Call with any questions.
