Gallatin County School Board Members

Attention: Mr. Huber, Superintendent

1. Recently, the Gallatin County Fiscal Court has been pursuing the goal to locate a YMCA in Gallatin County.
2. We've researched several options on viable locations within the county; and it seems the most favorable location is approx 1.4 acres on the corner of U.S. 42 next to First Farmers Bank.
3. We would like to create a dialogue with the school board to explore the possibilities of an even "land exchange". The corner we are referring to is probably the most valuable; however, it may not meet the criteria of a "marketable lot" due to the state required acreage. In the past, the Fiscal Court has had great relationships with the school leadership, including the "old fairgrounds" donation. We believe a YMCA is a betterment for our community, which is everyone's objective.

We would truly like your input into this idea and invite a representative to our March 12th Fiscal Court meeting or a caucus meeting at your convenience to discuss options. There are many areas for discussion, and we look forward to the opportunity to move this project forward.

Sincerely,

Ken McFarland
G.C.J.E.
