Date: September 26, 2014

The next set of questions refer to District-wide energy consumption and costs. Appropriate responses will include all District buildings and properties.

19	List all providers that supply billable energy to District-owned buildings/campuses/facilities	Henderson Municipal Power & Light, Kentucky Utilities, Kenergy, Atmos, Henderson Bottle Gas
20	District-wide total annual consumption of electricity in kWh (including unmetered loads-e.g., parking lot lights)	15,769,716
21	District-wide total annual cost for electricity	\$ 1,115,668.12
22	District-wide total annual consumption of natural gas	319,229
23	Identify appropriate unit of measurement	Hundreds of Cubic Feet, ccf
24	District-wide total annual cost for natural gas	\$ 242,477.49
25	District-wide total annual consumption of propane	14,967.3
26	Identify appropriate unit of measurement	gallons
27	District-wide total annual cost for propane	\$ 40,076.09
28	District-wide total annual consumption of coal	Zero
29	Identify appropriate unit of measurement	Not Applicable
30	District-wide total annual cost for coal	Zero Dollars
31	District-wide total annual consumption of heating fuel oil in gallons	Zero
32	District-wide total annual cost of fuel oil used for heating	Zero Dollars
33	District's aggregate annual cost for building energy (should equal sum of all annual individual energy costs)	\$ 1,398,221.70
34	Identify 2014 savings from utility company rebates for energy conservation measures	\$ 13,500.00
35	Identify 2014 savings from utility rate changes or tax corrections	\$ 5,000.00
36	Please describe the type(s) of renewable energy (solar, wind, etc.) and provide the total quantity generated or consumed in the fiscal year. Identify the quantity as either an estimate or a measurement.	Not Applicable
37	Please describe the types of FREE ENERGY (example used motor oil) used within your district and provide the total quantity consumed in the fiscal year.	Used Motor Oil for Heating Bus Garage; Estimated Consumption = 1400 gallons.
