Types of Tax Rates

Compensating:

The rate that when applied to the current year's property assessment, excluding new property, produces an amount of revenue equal to that produced in the preceding year. This rate may be levied without a public hearing and is not subject to the recall provisions of KRS 160.470(8)(a).

Subsection(1):

The Subsection (1) Tax Rate, which refers to subsection (1) of KRS 160.470, is the rate that produces no more revenue than the previous year's maximum rate. This rate is subject to the hearing and recall provisions in KRS 160.470(7)(8).

4%:

This rate produces 4 percent over the amount of revenue generated by the Compensating Tax Rate. This rate typically requires a public hearing prior to levying.

HB 940/Tier I:

2008-09 through 2014-15 Tax Rates by Levied Type as of 12/1/2014									
	2014-15 Rate Levied	2013-14 Rate Levied	2012-13 Rate Levied	2011-12 Rate Levied	2010-11 Rate Levied	2009-10 Rate Levied	2008-09 Rate Levied		
District	Туре								
District	Туре								

Typically referred to as the HB 940 Tax Rate, this tax rate is dependent on the mix of taxes levied by a district (real estate, personal property, motor vehicle, and permissive). This rate results in tax revenue that qualifies districts for maximum Tier I equalization. It is not subject to hearing or recall.

Other:

Some districts adopt rates which do not match the rates calculated by KDE. The rates may be subject to public hearing or recall dependent upon the rate levied and the calculated rates provided by KDE.

Source: Tax Rates Levied Reports 2008-09 to 2014-15.

Tax Rates for 2014-15 are as of December 1, 2014. As of that date, 172 districts have submitted their tax rates for approval by KBE.

"Other" denotes rate adoption by district that does not match the four calculated rates provided to districts by KDE.
