I am fine with the added VI teacher and increase. It would be great if we could do it with the two teachers and one para and that would be our first choice, but if it is determined that we cannot, we would be ok with the added para....

Linda,
I spoke with Dr. Hutton and he would like to speak with the other Superintendents before making a decision.

Subject: VI meeting

I recently sent out the tentative cost for the VI program next year. If we add the second teacher and paraeducator it will double your present cost as indicated in my last email. I had Patti to rework the budget to give you the cost without the second paraeducator. I am not sure at this time whether we need the second paraeducator so that is why I wanted to give you another option.

I would like to take this request to create the position (s) to the Superintendent's meeting on April 8th. I would appreciate your feedback as to whether you want to move forward with the additional teacher and paraeducator or move forward with just the extra teacher. Please let me know by March 31st as to your decision after discussing this with your superintendent. I will need your response in an email so that I may attach it to the request.

Thank you and please let me know if you have any questions or need further clarification.
