

It was requested that if we had comments to also put in suggestions as to how we would change them.

After reviewing the proposed swim regional revisions, I would like to recommend you reconsider revising Region 9. The new proposal has more than a 3 hour drive for some schools to get to competition. If a regional meet was held in Barbourville; Ashland, Boyd County would have a three hour drive. The facility is at Barbourville is too nice to not be utilized. There is not a comparable facility located anywhere else in the region. If schools North of 64 were to go to Lexington or Versailles and schools south of 64 (Madison County & Rockcastle County) were to go to Barbourville it would make more logistical sense. The maximum drive time would be 1 ½ hours.

We have reviewed the proposal and have put it on an excel spread sheet. As it is now some regions have about 200 swimmers where other regions have over 400. The cost of hosting a meet is not decreasing – it is actually increasing under the plan since more officials will be needed. More pools will be rented and facility fees paid. Region 9 with the proposed 224 swimmers (based on last year) would in effect be the size of some invitational meets hosted. It will lose the atmosphere of a major competition. We would not even have enough swimmers to have a prelim/final meet since most events will not have enough swimmers and everyone will qualify. It would essentially become a timed final event which does not prepare any of these swimmers for the state meet. It puts our swimmers in an unfair advantage.

Please review what we have prepared and see if some of these recommendations can not be considered.

Sincerely

Athletic Director, South Laurel High School
