Multiplier that estimates the number of students that are eligible for free and reduced meals at CE schools comparable to the poverty percentage that would be obtained at a non- CE school. Note: If only the DC % were used the % claimed as Free would be lower due to the absence of income forms. This "multiplier" accounts for this and sets the percentage used for claiming free status meals each year at each school. Schools can be clustered so that lower schools are combined with higher schools, thus allowing several to be claimed at 100% free rate of reimbursment. The multiplier is locked in for us at 1.6 for the next four years . USDA sets the multiplier each year but it can not fall below 1.3 %.
