

**Curriculum, Instruction, and Assessment
Board Agenda
Tuesday, June 23, 2015**

PROFESSIONAL DEVELOPMENT

The teacher work days were spent working on curriculum timelines, creating assessments, preparing items for next school year, reviewing Student Growth Goals with teachers, and for the high school working on the quarterly report.

ASSESSMENT

- Schools are currently working on their Assessment Calendars for the 2015-2016 school year.
- The high school will be implementing CERT next school year which assesses students twice a year in the areas of English, Math, Reading and Science. The assessments are similar to the Explore, Plan and ACT assessments.

PROGRAM REVIEW

All Program Reviews have been submitted on the ASSIST website. I will be sharing each schools' scores at the July board meeting.

TEACHER EVALUATION

The Evaluation Plan will be submitted to KDE for approval. Once the plan is submitted, I will have to answer follow up questions and more than likely resubmit. As soon as I hear back from KDE, I will let the board know of its approval and/or needed changes.

CURRICULUM AND INSTRUCTION

Staff members are in the process of updating their curriculum timelines for the 2015-2016 school year. During the teacher work days in June, teachers spent time working on these documents so they can be uploaded to the schools' website.

REPORTS

- The Gifted/Talented Report has been completed and submitted, thanks to the help of Mr. Long.
- The Title III report which is uploaded to KDE's secure site has been completed.
- The Title II report has been submitted thanks to the help of Mrs. Gosney.
- The Title I Ranking report is due August 1. I will be working on this report and submitting at some point in July.
