Welcome to FastBridge Learning, providers of the FAST (Formative Assessment System for Teachers) assessment system. At FastBridge, we believe teachers are the most valuable resources in any school. To help teachers, we created research-based assessment tools that give teachers instructionally relevant data in less time. FAST helps automate and refine the assessment and data analysis process so that teachers spend less time assessing and more time teaching. Our mission is to provide quality, research-based tools to help teachers facilitate strong academic outcomes for students.

FAST is a versatile and robust assessment system with user-friendly and easy-to-read reports. It is supported with on-line training modules and a world class school support team. With no hardware or software to install, implementing FAST is simple—and with FAST's flat rate pricing, there are no hidden fees or surprises for your budget.

FAST tools are designed for:

- Universal screening in reading, math, behavior and developmental milestones
- Progress monitoring
- Program evaluation
- RTI and Multi-Tiered Systems of Support (MTSS)
- Informing instruction
- Training and professional development

Better assessments that take **less time**.

CBM and CAT are both excellent evidence-based, stand-alone tools to screen, diagnose, monitor and inform instruction. When used together, with the FAST reports, instructional recommendations and more, they combine to provide a powerful, multi-modal, comprehensive solution.

Research to Results™

Why is FAST a great choice? It offers the best of both worlds.

FAST is the only major assessment and learning system offering both Computer Adaptive Tests (CAT) and Curriculum Based Measurement (CBM) to universally screen and monitor students in the areas of reading and math, plus quality tools to assess students' social and emotional needs.

Computer Adaptive Tests (CAT)	Curriculum-Based Measurement (CBM)	Behavior Tools
<i>aReading</i>	<i>CBMReading</i>	<i>Behavior</i>
<i>aMath</i>	<i>CBMMath</i>	<i>Developmental Milestones</i>
	<i>earlyReading</i>	<i>SBMath</i>
	<i>earlyMath</i>	

FAST: A complete data management and reporting system.

We understand that great research-based assessments are not enough. That is why we listen to teachers and continually provide tools educators need in an intuitive, on-line format.

- On-line assessment system
- Designed for RTI & Multi-Tiered Systems of Support
- Universal screening & progress monitoring
- Assessments aligned to Common Core Standards
- Predicts student success on high stakes tests
- Instant longitudinal & diagnostic reports
- Benchmark comparisons
- Class, school, district, national & growth norm comparisons
- Easily exportable data
- Implementation & user support
- On-demand training with compliance statistics

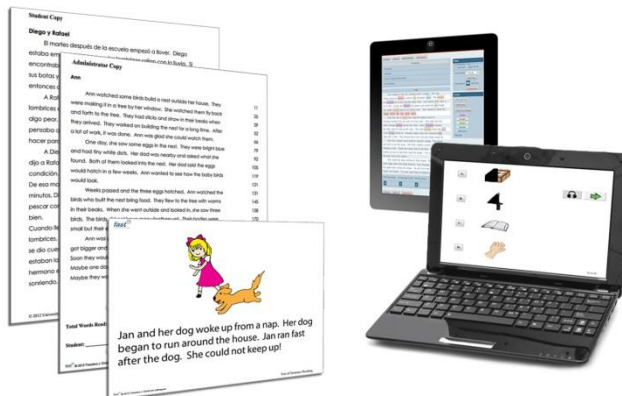

Research to Results.

FAST was developed by Dr. Theodore J. Christ and a team of expert researchers in assessment at the University of Minnesota. Funded by nearly \$8 million in research grants over the past decade, FAST has become a trusted tool nationally for universal screening, progress monitoring, skills analysis, and informing instruction.

For teachers to continue making positive differences in the lives of students, we must make meaningful differences in the lives of teachers. FAST is continually conducting cutting-edge research to develop shorter tests that provide better data, sensible reports, and actionable results in an easy-to-use system.

Easy implementation.

Like with everything in FastBridge, we have worked hard to make sure implementing FAST is easy too. To get started we just need a roster of your students, usually downloaded from your Student Information System. Once received, we will complete your account set-up quickly—typically overnight. Plus, FAST is a web-based system so there is no hardware to install or special software to download.

CBM and Adaptive Assessments.
The best of both worlds.

Subscribing to FAST

Our philosophy at FastBridge is to provide you with the best tools available in an easy to understand way. A standard FAST license is simply \$6 per student, per school year. There are no hidden costs, set-up or implementation fees.

2015-2016 School Year

Your cost: USD \$6 per student

Your FAST annual license includes:

- All FAST Reading and Math assessments for universal screening, progress monitoring and diagnostic purposes
- Behavior and Developmental Milestones assessment tools
- Access to the FAST data management and reporting system
- Built-in on-line training for staff. (Additional training and professional development options are available for purchase.)
- Implementation and user support

FAST Quote: The following is a quote for the services requested. If you wish to add or remove licenses or services, please contact FAST and a new quote will be issued.

Product	Line Item Description	Sales Price	Quantity	Total Price
FAST Subscription	School Year 2015-16	\$6.00	31,208.00	\$187,248.00
On-site Training - 2 Day	July 20-21 Universal Screening (two sessions)	\$4,500.00	1.00	\$4,500.00
On-site Training - 2 Day	July 20-21 Progress Monitoring (two sessions)	\$4,500.00	1.00	\$4,500.00
			Total	\$196,248.00

This proposal represents a one year subscription agreement. The FAST subscription rate is \$6.00 per student, per year to be invoiced annually. Subscription invoicing will occur each July, starting July 2015. Subscription terms and services as noted below. Training service fees are separate and noted above if applicable.

Terms and Conditions

Service Start Date: 8/01/2015
Service End Date: 7/31/2016
Billing Frequency: Annual
Payment Method: Purchase Order/Check
Payment Terms: Net 30
Billing Method: Email

Services

Service: FAST Subscription for 12 months
Order Start Date: 8/01/2015
Order End Date: 7/31/2016
Order Term (Annually): 1
Annual Unit Price: \$6.00
Quantity: 31,208.00
