ASSURANCES
CERTIFIED SCHOOL PERSONNEL EVALUATION PLAN

The Dayton Independent School District hereby assures the Commissioner of Education that:

This evaluation plan was developed by an evaluation committee composed of an equal number of teachers and administrators.

The evaluation process and criteria for evaluation will be explained to and discussed with all certified personnel annually within one month of reporting for employment. This shall occur prior to the implementation of the plan. The evaluation of each certified staff member will be conducted or supervised by the immediate supervisor of the employee.

All certified employees shall develop an Individual Professional Growth Plan (IGP) that shall be aligned with the school/district improvement plan and comply with the requirements of 704 KAR 3:345. The IGP will be reviewed annually.

All administrators, including the superintendent, and non-tenured teachers will be evaluated annually.

All tenured teachers will be evaluated a minimum of once every three years.

Each evaluator will be trained and approved in the use of appropriate evaluation techniques and the use of local instruments and procedures.

Each person evaluated will have both formative and summative evaluations with the evaluator regarding his/her performance.

Each evaluatee shall be given a copy of his/her summative evaluation and the summative evaluation shall be filed with the official personnel records.

The local evaluation plan provides for the right to a hearing as to every appeal, an opportunity to review all documents presented to the evaluation appeals panel, and a right to presence of evaluatee's chosen representative.

The evaluation plan process will not discriminate on the basis of race, national origin, religion, marital status, sex, or disability.

This evaluation plan will be reviewed as needed and any substantive revisions will be submitted to the Department of Education for approval.

The local board of education approved the evaluation plan as recorded in the minutes of the meeting held on _____.

PROFESSIONAL GROWTH AND EFFECTIVENESS SYSTEM OVERVIEW

Effective teaching and school leadership depend on clear standards and expectations, reliable feedback, and the tools, resources and support for professional growth and continuous improvement. The purpose of the evaluation system shall be to: improve instruction; provide a measure of performance accountability to citizens; foster professional growth, and support individual personnel decisions. It is effective teaching supported by effective leadership that will ensure all Kentucky students are successful and graduate from high school college/career-ready. The evaluation system is designed to measure teacher and leader effectiveness and serve as a catalyst for professional growth and continuous improvement.

The Superintendent shall recommend for approval of the Board and the Kentucky Department of Education an evaluation system, developed by an Evaluation Committee, for all certified employees below the level of District Superintendent, which is in compliance with applicable statute and regulation. The Evaluation Committee shall review the plan annually to ensure appropriate implementation and to make revisions as necessary. Revisions are to be approved by the Dayton Board of Education and the Kentucky Department of Education.

The evaluation criteria and evaluation process to be used shall be explained to and discussed with certified school personnel annually (on opening day). Pursuant to KRS.157.577, only certified administrative and supervisory personnel trained, tested, and approved in accordance with administrative regulations adopted by the Kentucky Board of Education and in the use of the school district evaluation system shall evaluate certified personnel. Video recording shall be done at the mutual consent of both parties. Additional administrative personnel may be used to observe and provide information to the primary evaluator. The Superintendent may designate additional trained administrative personnel to provide evaluations, or to review any evaluation.

Professional Growth and Effectiveness System

The vision for the Professional Growth and Effectiveness System (PGES) is to have every student taught by an effective teacher and every school led by an effective leader. The goal is to create a fair and equitable system to measure teacher and leader effectiveness and act as a catalyst for professional growth.

Roles and Definitions

1. **Artifact:** A product of a certified school personnel's work that demonstrates knowledge and skills.
2. **Assistant Principal:** A certified school personnel who devotes the majority of employed time in the role of assistant principal, for which administrative certification is required by EPSB pursuant to Title 16 KAR. 19
3. **Certified Administrator:** A certified school personnel, other than principal or assistant principal, who devotes the majority of time in a position for which administrative certification is required by EPSB pursuant to Title 16 1 KAR. 2.
4. **Certified School Personnel:** A certified employee, below the level of superintendent, who devotes the majority of employed time in a position in a district for which certification is required by EPSB pursuant to Title 16 KAR and includes certified administrators, assistant principals, principals, other professionals, and teachers.
5. **Conference:** A meeting between the evaluator and the evaluatee for the purposes of providing feedback, analyzing the results of an observation or observations, reviewing other evidence to determine the evaluatee's accomplishments and areas for growth, and leading to the establishment or revision of a professional growth plan.
6. **Evaluatee:** A certified school personnel who is being evaluated.
7. **Evaluator:** The primary evaluator as described in KRS 156.557(5)(c)2.
8. **Formative Evaluation:** Is defined by KRS 156.557(1)(a).
9. **Improvement Plan:** A plan for improvement up to twelve months in duration for:
 - a. Teachers and other professionals who are rated ineffective in professional practice and have a low overall student growth rating.
 - b. Principals who are rated ineffective in professional practice and have high, expected, or low overall student growth rating.
10. **Individual Corrective Action Plan:** A plan whereby a person being evaluated/supervised establishes specific goals under the direction of the evaluator to improve an identified area of concern in performance. The evaluator takes an active role in the development and appraisal of the activities along with the evaluatee.
11. **Job Category:** A group or class of certified school personnel positions with closely related functions.
12. **Late Hire:** certified professionals who do not report for work sixty (60) or more consecutive school days.
13. **Leave and Absence:** See Board Policy
14. **Local Contribution:** A rating based on the degree to which a teacher, other professional, principal, or assistant principal meets student growth goals and is used for the student growth measure.
15. **Local Formative Growth Measures:** Is defined by KRS 156.557(1)(b).
16. **Observation:** a data collection process conducted by a certified observer, in person or through video, for the purpose of evaluation, including notes, professional judgments, and examination of artifacts made during one (1) or more classroom or worksite visits of any duration.
17. **Observer Certification:** A process of training and ensuring that certified school personnel who serve as observers of evaluatees have demonstrated proficiency in rating teachers and other professionals for the purposes of evaluation and feedback.
18. **Observer calibration:** The process of ensuring that certified school personnel have maintained proficiency and accuracy in observing teachers and other professionals for the purposes of evaluation and providing feedback.

19. **Other Professionals:** Certified school personnel, except for teachers, administrators, assistant principals, or principals.
20. **Overall Student growth Rating:** The rating that is calculated for a teacher or other professional evaluatee pursuant to the requirements of Section 7(9) and (10) of this administrative regulation and that is calculated for an assistant principal or principal evaluatee pursuant to the requirements of Section 10(8) of this administrative regulation.
21. **Peer observation:** Observation and documentation by trained certified school personnel below the level of principal or assistant principal.
22. **Performance Criteria:** The areas, skills, or outcomes on which certified school personnel are evaluated.
23. **Performance Rating:** The summative description of a teacher, other professional, principal, or assistant principal evaluatee's performance, including the ratings listed in Section 7(8) of this administrative regulation.
24. **Principal:** A certified school personnel who devotes the majority of employed time in the role of principal, for which administrative certification is required by the Education Professional Standards Board pursuant to 16 KAR 3:050.
25. **Professional Growth and Effectiveness System:** An evaluation system to support and improve the performance of certified school personnel that meets the requirements of KRS 156.557(1)(c), (2), and (3) and that uses clear and timely feedback to guide professional development.
26. **Professional Growth Plan:** An individualized plan for a certified personnel that is focused on improving professional practice and leadership skills, aligned with performance standards and the specific goals and objectives of the school improvement plan or the district improvement plan, built using a variety of sources and types of data that reflect student needs and strengths, evaluatee data, and school and district data, produced in consultation with the evaluator as described in Section 9(1), (2), (3), and (4) and Section 12(1), (2), (3), and (4) of this administrative regulation, and includes: (a) Goals for enrichment and development that are established by the evaluatee in consultation with the evaluator; (b) Objectives or targets aligned to the goals; (c) An action plan for achieving the objectives or targets and a plan for monitoring progress; (d) A method for evaluating success; and (e) The identification, prioritization, and coordination of presently available school and district resources to accomplish the goals.
27. **Professional Practice:** The demonstration, in the school environment, of the evaluatee's professional knowledge and skill.
28. **Professional Practice Rating:** The rating that is calculated for a teacher or other professional evaluatee pursuant to Section 7(8) of this administrative regulation and that is calculated for a principal or assistant principal evaluatee pursuant to the requirements of Section 10(7) of this administrative regulation.
29. **Self-Reflection:** The process by which certified personnel assesses the effectiveness and adequacy of their knowledge and performance for the purpose of identifying areas for professional learning and growth.
30. **Sources of Evidence:** The multiple measures listed in KRS 156.557(4) and in Sections 7 and 10 of this administrative regulation.
31. **State Contribution:** The student growth percentiles, as defined in 703 KAR 5:200, Section 1(11), for teachers and other professionals, and the next generation learners goal for principals and assistant principals.
32. **Student Growth:** Is defined by KRS 156.557(1)(c).
33. **Student Growth Goal:** A goal focused on learning, that is specific, appropriate, realistic, and time-bound, that is developed collaboratively and agreed upon by the evaluatee and evaluator, and that uses local formative growth measures.
34. **Student Growth Percentile:** each student's rate of change compared to other students with a similar test score history.

35. **Student Voice Survey:** The student perception survey provided by the department that is administered annually to a minimum of one (1) district-designated group of students per teacher evaluatee or a district designated selection of students and provides data on specific aspects of the instructional environment and professional practice of the teacher or other professional evaluatee.
36. **Summative Evaluation:** Is defined by KRS 156.557(1)(d).
37. **Teacher:** A certified school personnel who has been assigned the lead responsibility for student learning in a classroom, grade level, subject, or course and holds a teaching certificate under 16 KAR 2:010 or 16 KAR 2:020.
38. **TELL Kentucky:** A working conditions survey of all school staff conducted every two years to provide feedback on specific aspects of the school's work environment.
39. **Val-Ed 360°:** An assessment that provides feedback of a principal's learning-centered behaviors by using input from the principal, his/her supervisor, and teachers. The survey looks at core components (the what) that are listed on the slide, as well as key processes (the how).
40. **Working Condition's Survey Goal:** a school improvement goal set by a principal or assistant principal every two (2) years with the use of data from the department-approved working conditions survey.

The Kentucky Framework for Teaching with Specialist Frameworks for Other Professionals

The Kentucky Framework for Teaching is designed to support student achievement and professional practice through the domains of:

Framework for Teaching

Planning and Preparation
Classroom Environment
Instruction
Professional Responsibilities

Specialist Frameworks for Other Professionals

Planning and Preparation
Environment
Instruction/Delivery of Service
Professional Responsibilities

The Frameworks also include themes such as equity, cultural competence, high expectations, developmental appropriateness, accommodating individual needs, effective technology integration, and student assumption of responsibility. They provide structure for feedback for continuous improvement through individual goals that target student and professional growth, thus supporting overall school improvement. Evidence documenting professional practice is situated within one or more of the four domains of the framework. Performance is rated for each component according to four performance levels: Ineffective, Developing, Accomplished, and Exemplary. The summative rating is a holistic representation of performance, combining data from multiple sources of evidence across each domain.

The use of professional judgment based on multiple sources of evidence promotes a holistic and comprehensive analysis of practice, rather than over-reliance on one individual data point or rote calculation of practice based on predetermined formulas. Evaluators also take into account how educators respond to or apply additional supports and resources designed to promote student learning, as well as their own professional growth and development. Finally, professional judgment gives evaluators the flexibility to account for a wide variety of factors related to individual educator performance, such as: school-specific priorities that may drive practice in one domain, an educator's number of goals, experience level and/or leadership opportunities, and contextual variables that may impact the learning environment, such as unanticipated outside events or traumas.

Evaluators must use the following categories of evidence in determining overall ratings:

Required Sources of Evidence

- Professional Growth Planning and Self-Reflection
- Observation
- Student Voice
- Student Growth Goals and/or Median Student Growth Percentiles (4-8 - Math & ELA)
 - ✓ Other Measures of Student Learning
 - ✓ Products of Practice
 - ✓ Other Sources such as the interim assessments that are used to progress monitor students in each grade level.

All components and sources of evidence related supporting an educator's professional practice and student growth ratings will be completed and documented in the district approved technology platform to inform the Overall Performance Category. All Summative Ratings will be recorded in the department-approved technology platform.

***Evaluators may complete 1 observation during year 1 and year 2 of a tenured teacher's non-summative year, thus leaving only the peer observation and the final, full observation in the summative year. Each observation may be completed during the first or second observation window.**

- There will be Four (4) observations in the summative cycle; a minimum of 3 observations conducted by the supervisor and 1 observation conducted by the peer. For late hires or any other certified personnel that do not report to work for 60 consecutive days, the number of evaluations will be reduced by one. For any certified personnel hired after March 1st, the teacher or other professional will be required to have a minimum of one full by the evaluator, after one peer observation.
- The required peer observation must occur in the final year of the summative cycle.
- Final observation is conducted by the supervisor and is a full observation.
- All observations must be documented in a department approved technology platform.
- Additional observations for tenured teachers may be required when observation results yield an **ineffective** determination.

Professional Practice

Self-Reflection and Professional Growth Planning (For Teachers and Other Professionals)

Reflective practices and professional growth planning are iterative processes. The teacher (1) reflects on his or her current growth needs based on multiple sources of data and identifies an area or areas for focus; (2) collaborates with his or her administrator to develop a professional growth plan and action steps; (3) implements the plan; (4) regularly reflects on the progress and impact of the plan on his or her professional practice; (5) modifies the plan as appropriate; (6) continues implementation and ongoing reflection; (7) and, finally, conducts a summative reflection on the degree of goal attainment and the implications for next steps.

The Professional Growth Plan addresses realistic, focused, and measurable professional goals. The plan connects data from multiple sources including classroom observation feedback, data on student growth and achievement, and professional growth needs identified through self-assessment and reflection. In collaboration with the administrators, teachers identify explicit goals which drive the focus of professional growth activities, support, and on-going reflection.

- All teachers and other professionals will participate in on going self-reflection and professional growth planning each year. At minimum, teachers and other professionals will complete an initial self-reflection covering all components and domains and a reflection on the components and domains determined by the evaluator and evaluatee following each observation.
- All teachers and other professionals will complete the self-reflection process in the district approved technology platform prior to the end of the first quarter.
- Professional Growth Goals in the district-approved technology platform shall be completed, in collaboration with the teacher's supervisor, on or before the end of the first quarter of the school year.
- All teachers and other professionals, in collaboration with the primary evaluator, will create a professional growth goal and student growth goal in the district approved technology platform prior to the end of the first quarter.

Observation (For Teachers and Other Professionals)

The observation process is one source of evidence to determine educator effectiveness that includes supervisor and peer observation for each certified teacher and other professional. Both peer and supervisor observations use the same instruments. The supervisor observation provides *documentation and feedback* to measure the effectiveness of professional practice. Only the supervisor observation will be used to inform a summative rating. All observations, including ratings, will be documented in the department approved technology platform. Peer observation is used only for formative feedback on professional practice in a collegial atmosphere of trust and

common purpose. NO ratings are given by the peer observer. The rationale for each type of observation is to encourage continued professional learning in teaching and learning through critical reflection. The timeline for the evaluations are below:

First Observation Window: September 1 – End of First Semester

- Non-Tenured Teacher and/or Other Professional: One observation completed by evaluator and one peer observation.
- *Tenured Teacher and/or Other Professional in summative evaluation year. One or two observations completed by evaluator and one peer observation. plus, ongoing self-reflection by teacher

Second Observation Window: Beginning of Second Semester – April 15

- Non-Tenured Teacher and/or Other Professional: One or two observations and one final, full observation completed by evaluator.
- *Tenured Teacher and/or Other Professional in summative year: One or two observations and one final, full observation completed by evaluator, plus ongoing self-reflection by teacher and/or other professional.

***Evaluators may complete 1 observation during year 1 and year 2 of a tenured teacher's non-summative year, thus leaving only the peer observation and the final, full observation in the summative year. Each observation may be completed during the first or second observation window.**

- There will be Four (4) observations in the summative cycle; a minimum of 3 observations conducted by the supervisor and 1 observation conducted by the peer. For late hires or any other certified personnel that do not report to work for 60 consecutive days, the number of evaluations will be reduced by one. For any certified personnel hired after March 1st, the teacher or other professional will be required to have a minimum of one full by the evaluator, after one peer observation.
- The required peer observation must occur in the final year of the cycle.
- Final observation is conducted by the supervisor and is a full observation.
- All observations must be documented in the department approved technology platform.
- Additional observations for tenured teachers and/or other professionals may be required when observation results yield an **ineffective** determination.
- Summative Evaluations must be completed prior to May 15.

Observation Conferencing (Teachers and Other Professionals)

Observers will adhere to the following observation conferencing requirements:

- Conduct observation conference within five (5) working days of the observation.
- The summative evaluation conference shall be held at the end of the summative evaluation cycle.

Pre-Conferences

- A pre-conference shall take place before the final, full observation. This pre-conference may be face to face, through email, or some other electronic format. For the final, full observation, the teacher will submit a lesson plan and the pre-conference question form prior to the observation.
- Pre-conferences are not required in any format for other observations unless requested by the teacher and/or evaluator.

Post-Conferences

- Post Conferences for observations must occur within 5 working days after the day of the observation. All post conferences will be face to face.

Observer Certification

All administrators serving as a primary evaluator must complete the Initial Certified Evaluation Training prior to conducting observations for the purpose of evaluation.

To ensure consistency of observations, evaluators must be trained, tested, and approved using the Proficiency Observation Training through the current approved state platform. The system allows observers to develop a deep understanding of how the four domains of the Kentucky Framework for Teaching (FFT) are applied in observation. There are 3 sections of the proficiency system:

- Framework for Teaching Observer Training
- Framework for Teaching Scoring Practice
- Framework for Teaching Proficiency Assessment

The cycle for observation certification established is as follows [NOTE: This evaluation certification cycle mirrors the existing 704 KAR 3:370 related to initial and update training for certified evaluators]:

Year 1	Certification
Year 2	Calibration
Year 3	Calibration
Year 4	Recertification

Only supervisors who have passed the proficiency assessment can conduct observations for the purpose of evaluation. In the event that a supervisor has yet to complete the proficiency assessment, or if the supervisor does not pass the assessment, the district will provide the following supports:

- Observation data provided by a substitute observer is considered a valid source of evidence only if the supervisor participated (passively) in the observation.
- In cases where the supervisor is not certified through the proficiency system and is therefore unable to conduct observations during the observation window, the district will use the following process to ensure teachers have access to observations and feedback:

The District Office will pay for the Kentucky Proficiency Observation Training for all administrators in the district, and all administrators will complete the Kentucky Proficiency Observation Training to obtain observation certification. All administrators will go through the proficiency system and collaborate with District Office Personnel who are certified in the Kentucky Proficiency Observation System. District Personnel will work through the training modules in the state approved technology platform alongside administrators obtaining certification.

In the event an administrator does not complete the observation certification after the initial attempt, the administrator will collaborate with District Personnel that have completed the training to review the Kentucky Proficiency Observation Training videos. In the event an administrator is unable to pass the assessment after the second attempt, the administrator will collaborate with other administrators in the district to observe their observation practices. The administrator will also continue watching training videos on the Proficiency System with District Personnel who have completed the Proficiency Assessment.

In the event an administrator does not complete the observation certification, the district will use a modeling approach with that administrator. A District Office Employee certified in the Kentucky Proficiency Observation System will conduct observations with the administrator that has not passed the system. The observation data provided by the District Employee will serve as a valid source of evidence only if the teacher's supervisor participated (passively) in the observation.

In the event an administrator is hired after the first day with students, the district will provide the same supports listed above to ensure the administrator completes the Kentucky Proficiency Observation Training.

Observer Calibration

As certified observers may tend to experience “drift” in rating accuracy, the district completes a calibration process to be completed each year where certification is not required (see chart under *Observer Certification*). This calibration process is completed in years two (2) and three (3) after certification. Calibration ensures ongoing accuracy in scoring teaching practice; an awareness of the potential risk for rater bias; and ensures observers refresh their knowledge of the training and scoring practice. All calibration processes must be conducted through the department approved technology platform.

- Observer calibration during years two and three of the Observer Certification process based on the department approved technology.
- Re-certification after year three.

The Dayton Independent Schools will tie observer calibration to the Kentucky Proficiency Observation System. The Proficiency System training videos with predetermined ratings will be used with the observer calibration with all administrators previously trained in the Kentucky Proficiency Observation System. The administrators will go through this process with District Personnel previously trained in the Kentucky Proficiency Observation System.

At least once per calibration year, all administrators, including those with low ratings (red or yellow), will meet with district personnel. To ensure consistent ratings across the district, administrators will: review appropriate evidence, discuss observation best practice, and discuss observation practices that are effective in each building.

Peer Observation (Teachers and Other Professionals)

A Peer Observer observes, collects, shares evidence, and provides feedback for formative purposes only. Peer Observers will not score a teacher’s practice, nor is peer observation data shared with anyone other than the observee unless permission is granted. A peer observer is trained, certified school personnel.

- All teachers and other professionals will receive a peer observation in their summative year.
- All peer observers participating during the summative year observations will complete the department approved training once every three years.
- All required peer observations must be documented in the district approved technology platform.
- All peer observations documentation will be accessed only by the observer and observee.

All teachers and other professionals in the Dayton Independent School District who have not completed the department approved training will complete the department approved training to become Peer Observers. Teachers or other professionals will complete the training once every three years. Prior to the start of the school year, all teachers will be sent an email with a link to complete the Peer Observation Training. All teachers and other professionals will complete the department approved training prior to the end of the first quarter of school.

Peer Observers will be assigned based upon their availability during the school day so as not to interrupt instruction. Administration will determine Peer Observers based upon teacher and/or other professional’s planning time and/or availability.

Student Voice (Teachers and Other Professionals)

The Student Voice Survey is a confidential, survey collecting student feedback on specific aspects of the classroom experience and teaching practice.

STUDENT VOICE SURVEY			
<ul style="list-style-type: none">• The district student voice survey point of contact will be the Director of Teaching and Learning.• The principals will determine the sections of students that will participate in the survey• Timeline for completion: Survey will be completed during the window that is set by KDE.• Survey data will only be considered when ten or more students are respondents. In cases where 10 students are not available for the selected administration time, an alternate class time will be selected for the teacher or other professional.• In cases where teachers do not have access to 10 or more students, or primary teachers and other professionals (K-2), the student voice survey will not be administered.			
Required: All teachers will participate in the state-approved Student Voice Survey annually with a minimum of one identified group of students. All teachers and appropriate administrative staff, will read, understand, and sign the district's Student voice Ethics Statement.	Administration: The Student Voice Survey will be administered between the hours of 7AM and 5 PM local time. The survey will be administered in the school. To ensure equal access to all students, appropriate accommodations will be made for students with an IEP, 504 plan, or other situations as deemed necessary by administration. The teacher being surveyed may be in the room when the students are completing the survey, however the teacher may not direct the students to an answer.	Results: Results will be used to inform Professional Practice. Formative years' data will be used to inform Professional Practice in the summative year. Survey data will only be considered when 10 or more students are respondents.	Student Selection: Self-contained classroom: All students in the self-contained classroom will take the survey. Content Teachers (Reading, math, writing, social studies, science): One class period (consistent across the school) will take the student voice survey. Special Area Teachers (Art, Music, Library, Computer, etc.): One class or class period (consistent across the school) will take the student voice survey. Special Education Teachers: <ul style="list-style-type: none">• Resource – If 10 or more students in the class, they will complete the student voice survey.• Collaborative – One class will take the student voice survey.

Student Growth (For Teachers and Other Professionals)

The student growth measure is comprised of two possible contributions: a state contribution and a local contribution. The state contribution pertains only to teachers of the following content areas and grade levels participating in state assessments:

- 4th – 8th Grade
- Reading
- Math

The state contribution is reported as Median Student Growth Percentiles (MSGP). The local contribution uses the Student Growth Goal Setting Process and applies to all teachers and other professionals in the district, including those who receive MSGP. The following graphic provides a roadmap for determining which teachers receive which contributions:

State Contribution – Median Student Growth Percentiles (MSGP) – (Math/ELA, Grades 4-8)

The state contribution for student growth is a rating based on each student's rate of change compared to other students with a similar test score history ("academic peers") expressed as a percentile. The rating will be calculated using the MSGP's for the students attributed to the teacher of grades 4-8 math and ELA classes. The scale for determining acceptable growth will be determined by the Kentucky Board of Education and provided to the district by the Kentucky Department of Education.

Local Contribution – Student Growth Goals (SGG)

The local contribution for the student growth measure is a rating based on the degree to which a teacher or other professional meets the growth goal for a set of students over an identified interval of instruction (i.e. trimester, semester, year-long) as indicated in the teacher's Student Growth Goal (SGG). All teachers and other professionals will develop an SGG for inclusion in the student growth measure. All Student Growth Goals will be determined by the teacher or other professional in collaboration with the principal and will be grounded in the fundamentals of assessment quality (Clear Purpose, Clear Targets, Sound Design, Effective Communication, and Student Involvement). SGG's should address:

Rigor – congruency to the Kentucky Core Academic Standards

Comparability – Data collected for the Student Growth Goal must use comparable criteria across similar classrooms (classrooms that address the same standards) to determine progress toward mastery of standards/enduring skills. Examples of similar classrooms might be 6th grade science classrooms, 3rd grade classrooms, English 1 classrooms, band or art classes. For similar classrooms, teachers would be expected to use common measures or rubrics to determine competency in performance at the level intended by the standards being assessed. Although specific assessments may vary, the close alignment to the intent of the standard is comparable.

To fulfill the criteria of measuring student growth at the local level, a protocol must be established to ensure rigorous and comparable growth measures used for all teachers.

Student Growth Goal Criteria

- The SGG is congruent with Kentucky Core Academic Standards (or international, national state, local or industry recognized standards) appropriate for the grade level and content area for which it was developed.
- The SGG represents or encompasses an enduring skill, process, understanding, or concept that students are expected to master by taking a particular course (or courses) in school.
- The SGG shall be written as a SMART goal and will include both a growth and proficiency component.
- The SGG will allow high- and low-achieving students to adequately demonstrate their knowledge.
- The SGG provides access and opportunity for all students, including students with disabilities, ELLs, and gifted/talented students.

Data Measure to inform student growth

Teachers and other professionals will utilize a holistic evaluation of student growth by combining aspects of a pre-post-test model with the regularity of running records/repeated measures approach. Teachers and other professionals will use a rubric that is designed to compare two or more examples of student work. Teachers and other professionals will use the following process to create local student growth goals:

1. Teachers and other professionals will meet in grade level teams or content area PLC's to analyze assessment data and write the student growth goals.
2. The grade level teams or content area PLC's will approve of the student growth goal and the individual teacher or other professional will develop a rationale explaining their reasoning why the growth goal and proficiency goal were created.
3. Once this process has been completed, individual teachers and/or other professionals will meet with the administration team or an administrator to review the student growth goal, proficiency goal and rationale explaining their reasoning.
4. The teacher and/or other professional and administrator will revise if necessary and/or agree with the goals prior to entering them into the department approved technology platform.

Comparability

Administration Protocol:

Teachers and other professional will administer multiple formative assessments over the course of the school year (or as long as the teacher has the students in class) in order to know if/when students have achieved measurable growth and/or proficiency of the SGG.

- The assessments may be performance-based, verbal, and/or in written format.
- Assessments may be administered to individual students and/or small groups of students (Formative Assessment Lessons, for example), and may include pre- and post-assessments for short-term assessment of sub-standards for the SGG (MDC and LDC, for example).

- To further ensure comparability, teachers and other professionals will meet in PLCs to 'vet' assessment procedures/items/tasks/lessons in their congruency to the grade level standards being assessed.
- Once the vetting process has taken place, teachers and other professionals will administer the assessments at the appropriate time in the instructional year, ensuring that the standards assessed in the SGG is ongoing throughout the duration of the course/year.

Scoring Process:

- Assessments will be analyzed by PLCs and submitted to the principal to determine their congruency to the standards assessed by the SGG.
- Teachers and other professionals, in collaboration with peers, will analyze student work to determine what it 'looks like' for students to meet or not meet standards (calibration process for meeting the rigor of the standards) over time.
- Teachers and other professionals will consider all assessment data, holistically, to determine each student's growth and proficiency level.
- Based on the individual student data, teachers will determine the percentage of students meeting the growth goal of the SGG; teachers will also determine the percentage of students meeting the proficiency goal of the SGG.

The rubric below has been established to ensure rigorous and comparable growth measures are used for all teachers:

Determining the Overall Performance Category (Teachers and Other Professionals)

Supervisors are responsible for determining an Overall Performance Category for each teacher at the conclusion of their summative evaluation year. The Overall Performance Category is informed by the educator's ratings on professional practice and student growth. The evaluator determines the Overall Performance Category based on professional judgment informed by evidence that demonstrates the educator's performance against the Domains, district-developed rubrics (see local contribution for student growth), and decision rules that establish a common understanding of performance thresholds to which all educators are held. An educator has the opportunity to provide a written response to his/her evaluation and this written response will be kept in the personnel file of the educator.

Rating Professional Practice

The Kentucky Framework for Teaching stands as the critical rubric for providing educators and evaluators with concrete descriptions of practice associated with specific domains. Each element describes a discrete behavior or related set of behaviors that educators and evaluators can prioritize for evidence-gathering, feedback, and eventually, evaluation. Supervisors organize and analyze evidence for each individual educator based on these concrete descriptions of practice.

Supervisors and educators will be engaged in ongoing dialogue throughout the evaluation cycle. The process concludes with the evaluator's analysis of evidence and the final assessment of practice in relation to performance

described under each Domain at the culmination of an educator's cycle.

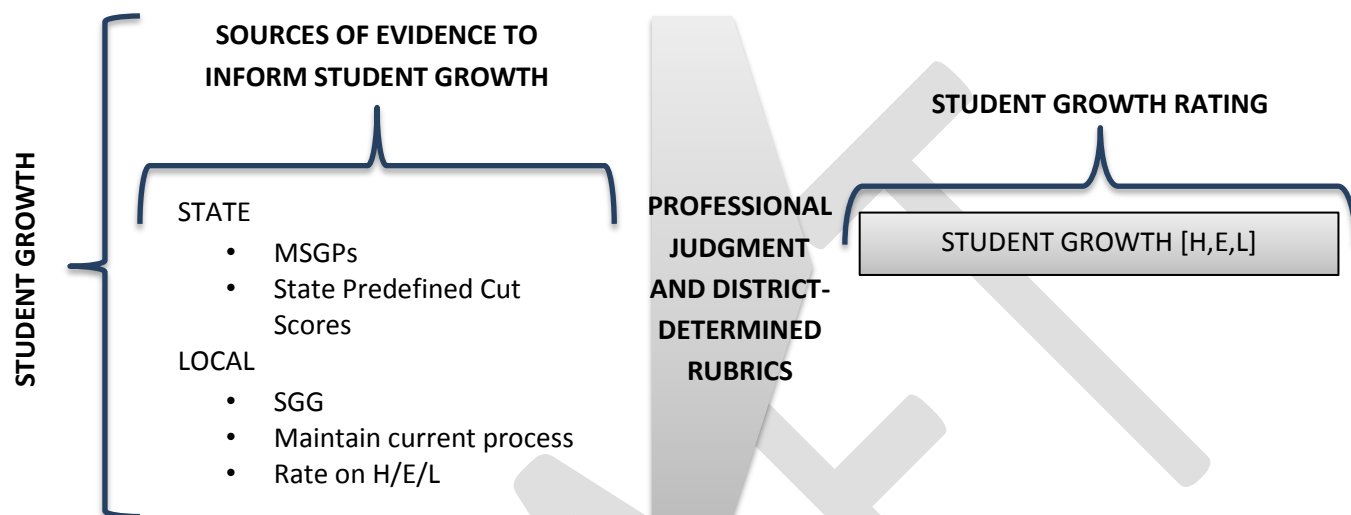

- Evaluators will provide a summative rating for each domain based on evidence and professional judgment.
- All ratings must be recorded in district approved technology platform.
- Evaluators will apply state decision rules for determining an educator's professional practice. (See Chart Below)
- Teachers may provide additional evidences to support assessment of their own professional practice. These evidences should yield information related to the teacher's practice within the domains. Examples include
 - ☐ Program Review evidence
 - ☐ team-developed curriculum units
 - ☐ lesson plans
 - ☐ communication logs
 - ☐ timely, targeted feedback from mini or informal observations

- ☐ student data records
- ☐ student work
- ☐ student formative and/or summative course evaluations/feedback
- ☐ minutes from PLCs
- ☐ teacher reflections and/or self-reflections
- ☐ teacher interviews
- ☐ teacher committee or team contributions
- ☐ parent engagement surveys
- ☐ records of student and/or teacher attendance
- ☐ video lessons
- ☐ engagement in professional organizations
- ☐ action research

Rating Overall Student Growth

The overall Student Growth Rating is a result of a combination of professional judgment and the district-developed instrument for summative student growth ratings. The designed instrument aids the supervisor in applying professional judgment to multiple evidences of student growth over time. The Student Growth Rating must include data from SGG and MSGP (where available), and will be considered in a three year cycle.

Determining Growth for a Single Student Growth Goal (SGG)

The process for determining the result of student growth (high, expected, low) requires districts to explain how they will use rigorous and comparable (see above) goals and assessments for that rating. Districts have several options to consider – none of which are mutually exclusive – for determining student growth.

Dayton Independent Schools Decision Rules for Growth Component of Student Growth Goals		
Low	Expected	High
Achievement data from at least two points in time shows little to no evidence of growth for students. Less than 75% of students met the level of expectancy on the teacher created rubric. All students are expected to grow.	Achievement data from at least two points in time shows clear evidence of growth for most students. All students must grow on the teacher created rubric, and 75%-90% must meet the level of expected growth.	Achievement data from at least two points in time shows evidence of high growth for all or nearly all students. All students must grow on the teacher created rubric, and 91% or more of students reached desired growth

Determining Overall Growth and Multiple Years' Worth of Student Growth

The following decision rules will be used when determining overall student growth and will be used when multiple years of student growth are available:

- When determining a teacher or other professionals overall student growth, principals will analyze and compare the trends of the MSGP, SGG, and other local growth measures such as MAP, Star, etc. and use professional judgement to determine overall student growth.
 - Growth trends consisting of the three (3) most recent years of student growth percentile data, if available, for teachers; and
 - Growth trends consisting of the three (3) most recent years of student growth goal data, if available, for all teachers and other professionals.

Determining the Overall Performance Category

Supervisors are responsible for determining an Overall Performance Category for each teacher at the conclusion of their three year summative cycle. Once a supervisor has determined the overall professional practice rating and the overall student growth rating, the following decision rules shall be applied for determining educator's Overall Performance Category.

Corrective Action Plan

The individual corrective action plan shall be written upon the determination of an “Ineffective” domain rating in the evaluation plan cycle or when an immediate change is required in teacher behavior or practice. The evaluator shall direct the individual corrective action plan with input from the evaluatee. The plan shall address the ineffective practices of the teacher with a domain rating of “Ineffective” through objectives, procedures and activities (including support personnel), appraisal methods, and target dates for completion.

COMPLETING THE INDIVIDUAL CORRECTIVE ACTION PLAN

This plan is to be completed by the evaluator (with discussion and assistance from the evaluatee) as it relates to an “ineffective” rating on any one **Domain** or when an immediate change in behavior or practice is needed. The evaluator and evaluatee must identify corrective action goals and objectives; procedures and activities designed to achieve the goals; and targeted dates for appraising the evaluatee’s improvement of the domain(s) or behavior or practice. It is the evaluator’s responsibility to document all actions taken to assist the evaluatee in improving his/her performance.

1. **Domain Number/Immediate Change in Behavior or Practice**
Identify the specific component(s) that has an “ineffective” rating assigned, or indicate the immediate change required in behavior or practice.
2. **Objectives**
Objectives must address the specific domain(s) rated as “ineffective” or the immediate change in behavior or practice. The evaluatee and evaluator work closely to correct the identified weaknesses.
3. **Strategies**
Identify and design specific strategies for the improvement of performance. Include support personnel, when appropriate.
4. **Assessment Method and Target Dates**
List the specific target dates and appraisal methods used to determine improvement of performance. Exact documentation and record keeping of all actions must be provided to the evaluatee.
5. **Documentation of all reviews, corrective actions, and evaluator’s assistance must be provided periodically (as they occur) to the evaluatee.**

Dayton Independent Schools Procedural Guidelines for an Evaluation Appeals Panel Hearing

District Evaluation Committee

- A. The District Evaluation (50/50) Committee shall consist of an equal number of teachers and administrators.
- B. Evaluation Committee membership shall include teachers, school principals, and one administrator appointed by the Superintendent to serve as committee chairman and the designated contact person for the Kentucky Department of Education monitoring purposes.
- C. The District Evaluation Committee shall develop evaluation procedures and forms for certified positions below the level of the district Superintendent.
- D. The district's evaluation plan and process will be reviewed by the District Evaluation Committee and approved by the Dayton Board of Education annually.
- E. Current Committee Members:

<input type="checkbox"/> Rick Wolf	Director of Teaching and Learning
<input type="checkbox"/> Jeremy Dodd	Principal, Dayton High School
<input type="checkbox"/> Greg Duty	Principal, Lincoln Elementary School
<input type="checkbox"/> Scott Meyers	Assistant Principal, Dayton High School
<input type="checkbox"/> Heather Dragan	Assist. Principal Lincoln Elementary School
<input type="checkbox"/> Angela Kohrs	Teacher, Middle & High School
<input type="checkbox"/> Beth Fields-Hunt	Teacher, Middle School & High School
<input type="checkbox"/> Amanda Berringer	Teacher, Elementary School
<input type="checkbox"/> Troy Clifton	Teacher, Elementary School

The purpose of this hearing is to determine if the evaluation plan process and guidelines have been followed. The burden of proof is with the evaluatee.

- 1. Certified personnel who wish to appeal their summative evaluation must appeal in writing within five (5) working days of the summative evaluation conference. The written appeal must be presented to the primary evaluator. The district form shall be used for all certified evaluation appeals.
- 2. The primary evaluator will notify the district evaluation coordinator of the appeal and forward the written appeal to the coordinator within two (2) working days.
- 3. The coordinator will notify the appeal committee members who will hold a preliminary meeting within ten (10) working days of the written appeal.
- 4. Both the evaluatee and evaluator shall submit three (3) copies of any appropriate documentation to be reviewed by members of the appeals panel in the presence of the three panel members.
- 5. The panel shall hear both procedural and professional judgmental conclusions of evaluations in accordance with the district evaluation plan.
- 6. The panel will meet, review all documents, discuss, and prepare questions to be asked of each party by the chair and set the time and place of the hearing. During the hearing, additional questions may be posed by panel members. The panel, upon review of documentation, may determine number of witnesses or other procedures as necessary.

7. The hearing will be held at a time and place set by the panel. The evaluatee and evaluator will be notified of said time and invited to appear before the panel, respond to the appeal and to answer questions from the panel.
8. The evaluator and evaluatee may have representation during the hearing.
9. For official records, the hearing will be audio taped and a copy provided to both parties if requested in writing.
10. Only panel members, the evaluatee and evaluator, witnesses determined by the panel, and legal counsel or chosen representatives will be present at the hearing.
11. Witnesses may be presented, but will be called in one at a time and will not be allowed to observe the Proceedings.
12. The following procedures will be followed during the hearings:

Chairperson will convene the hearing; cover procedures; and clarify the responsibility of the panel. Each party will be allowed to make a statement of claim. The evaluatee will begin, followed by the evaluator. No interruptions of the presentation will be allowed. The length of the presentation should not exceed thirty (30) minutes. However, the chairperson may grant additional time if needed. Cross-examination may occur at the end of the evaluatee's and evaluator's presentation. Presentations and cross-examinations shall be limited to items contained in the formative and summative evaluation along with the appeal information for the current evaluation cycle. The panel may question the evaluatee and evaluator. Each party will be permitted five (5) minutes for closing statements after all parties have completed their presentations and cross-examinations. The evaluator will go first followed by the evaluatee. The chairperson of the panel will make the closing remarks.

13. The panel will deliberate and issue written findings within fifteen (15) working days of the hearing.
14. The written findings and decisions will be presented to each the evaluatee, evaluator, and the superintendent.
15. Appeal to Kentucky Board of Education (Section 9 KAR):

(1) A certified employee who feels that the local district is not properly implementing the evaluation plan according to the way it was approved by the Kentucky Department of Education shall have the opportunity to appeal to the Kentucky Board of Education.

(2) The appeal procedures shall be as follows:

(a) The Kentucky Board of Education shall appoint a committee of three (3) state board members to serve on the State Evaluation Appeals Panel. Its jurisdiction shall be limited to procedural matters already addressed by the local appeals panel required by KRS 156.557(5). The panel shall not have jurisdiction relative to a complaint involving the professional judgmental conclusion of an evaluation, and the panel's review shall be limited to the record of proceedings at the local district level.

(b) No later than thirty (30) days after the final action or decision at the local district level, the certified employee may submit a written request to the chief state school officer for a review before the State Evaluation Appeals Panel. An appeal not filed in a timely manner

shall not be considered. A specific description of the complaint and grounds for appeal shall be submitted with this request.

(c) A brief, written statement, and other document which a party wants considered by the State Evaluation Appeals Panel shall be filed with the panel and served on the opposing party at least twenty (20) days prior to the scheduled review.

(d) A decision of the appeals panel shall be rendered within fifteen (15) working days after the review.

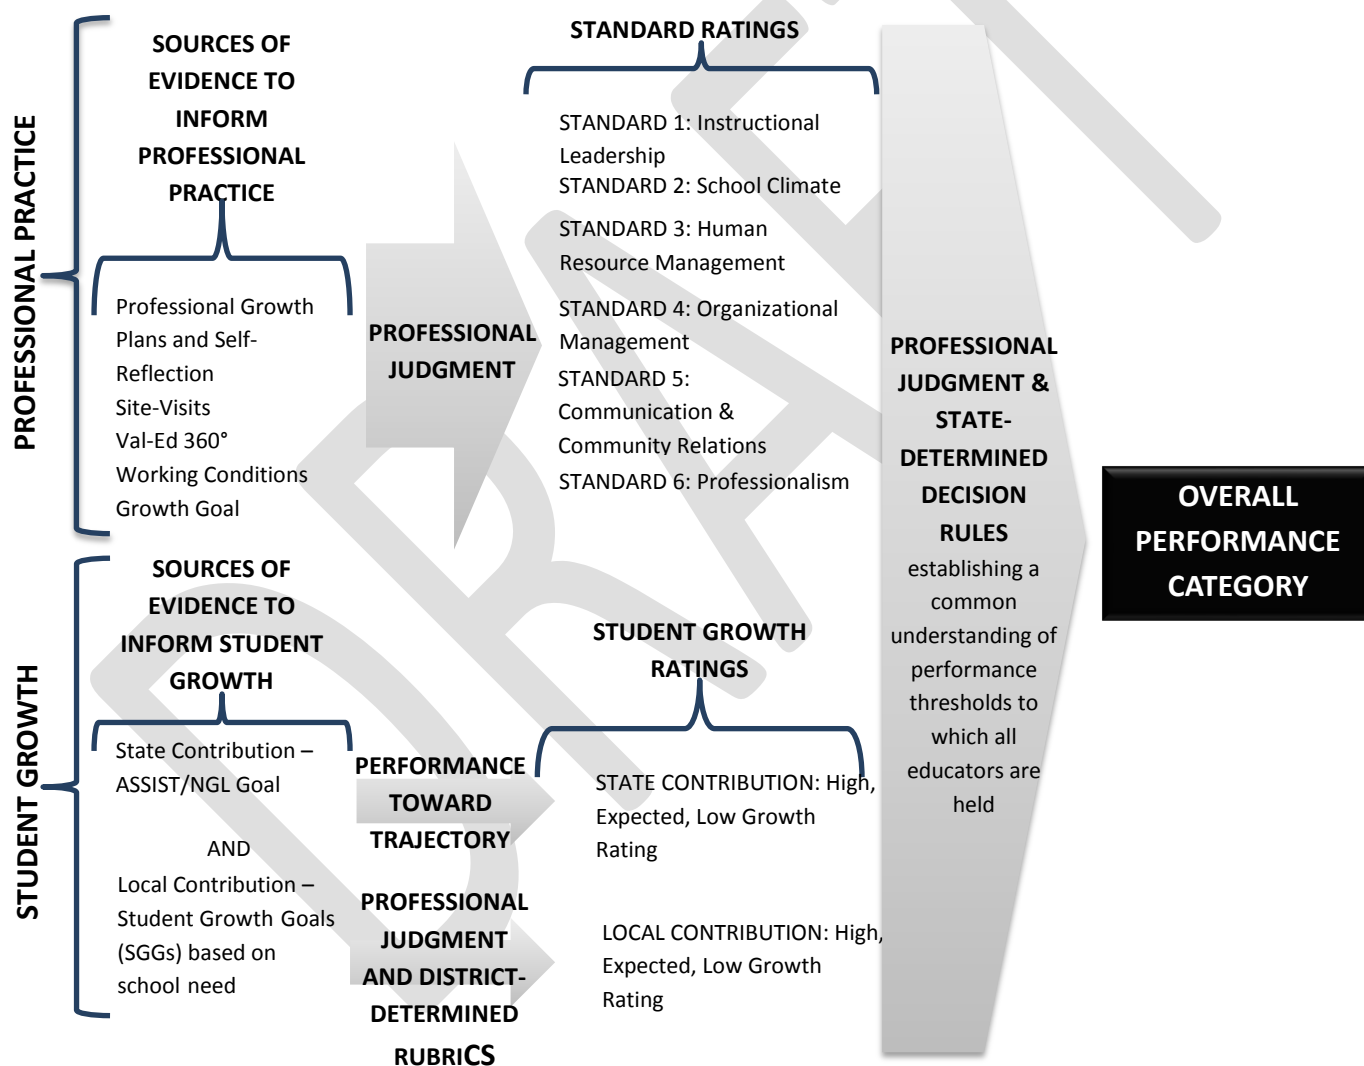

(e) A determination of noncompliance shall render the evaluation void, and the employee shall have the right to be reevaluated. Professional Growth and Effectiveness System – Principal and Assistant Principal

The vision for the Professional Growth and Effectiveness System (PGES) is to have every school led by an effective principal. The goal is to create a fair and equitable system to measure principal effectiveness and act as a catalyst for professional growth.

Principal Professional Growth and Effectiveness System Components – Overview and Summative Model

The following graphic outlines the summative model for the Principal Professional Growth and Effectiveness System.

Evaluators will look for trends and patterns in practice across multiple types of evidence and apply their professional judgment based on this evidence when evaluating a principal. The role of evidence and professional judgment in the determination of ratings on standards and an overall rating is paramount in this process. However, professional judgment is grounded in a common framework: the Principal Performance Standards.

Principal Performance Standards

The Principal Performance Standards are designed to support student achievement and professional best-practice through the standards of:

1. Instructional Leadership
The principal fosters the success of all students by facilitating the development, communication, implementation, and evaluation of a shared vision of teaching and learning that leads to student academic growth and school improvement.
2. School Climate
The principal fosters the success of all students by developing, advocating, and sustaining an academically rigorous, positive, and safe school climate for all stakeholders.
3. Human Resources Management
The principal fosters effective human resources management by assisting with selection and induction, and by supporting, evaluating, and retaining quality instructional and support personnel.
4. Organizational Management
The principal fosters the success of all students by supporting, managing, and overseeing the school's organization, operation, and use of resources.
5. Communication and Community Relations
The principal fosters the success of all students by communicating and collaborating effectively with stakeholders.
6. Professionalism
The principal fosters the success of all students by demonstrating professional standards and ethics, engaging in continuous professional learning, and contributing to the profession.

Included in the Performance Standards are Performance Indicators that provide examples of observable, tangible behaviors that provide evidence of each standard. The Performance Standards provide the structure for feedback for continuous improvement through individual goals that target professional growth, thus supporting overall student achievement and school improvement. Evidence supporting a principal's professional practice will be situated within one or more of the 6 standards. Performance will be rated for each standard according to the four performance levels: Ineffective, Developing, Accomplished, and Exemplary. It is important to note that the expected performance level is "Accomplished," but a good rule of thumb is that it is expected that a principal will "live in Accomplished but occasionally visit Exemplary." The summative rating will be a holistic representation of performance, combining data from multiple sources of evidence across each standard.

The use of professional judgment based on multiple sources of evidence promotes a more holistic and comprehensive analysis of practice, rather than over-reliance on one individual data point or rote calculation of practice based on predetermined formulas. Evaluators will also take into account how principals respond to or apply additional supports and resources designed to promote student learning, as well as their own professional growth and development. Finally, professional judgment gives evaluators the flexibility to account for a wide variety of factors related to individual principal performance. These factors may include school-specific priorities that may drive practice in one standard, an educator's number of goals, experience level and/or leadership opportunities, and contextual variables that may impact the learning environment, such as unanticipated outside events or traumas.

Evaluators must use the following categories of evidence in determining overall ratings:

- Professional Growth Planning and Self-Reflection
- Site-Visits
- Val-Ed 360°
- Working Conditions Goal (Based on TELL KY)
- State and Local Student Growth Goal data

Professional Practice

The following sections provide a detailed overview of the various sources of evidence used to inform Professional Practice Ratings.

Professional Growth Planning and Self-Reflection – completed by principals & assistant principals

The Professional Growth Plan will address realistic, focused, and measurable professional goals. The plan will connect data from multiple sources including site-visit conferences, data on student growth and achievement, and professional growth needs identified through self-assessment and reflection. In collaboration with district administrators, principals will identify explicit goals which will drive the focus of professional growth activities, support, and on-going reflection.

Reflective practices and professional growth planning are iterative processes. The principal (1) reflects on his or her current growth needs based on multiple sources of data and identifies an area or areas for focus; (2) collaborates with his or her supervisor to develop a professional growth plan and action steps; (3) implements the plan; (4) regularly reflects on the progress and impact of the plan on his or her professional practice; (5) modifies the plan as appropriate; (6) continues implementation and ongoing reflection; (7) and, finally, conducts a summative reflection on the degree of goal attainment and the implications for next steps.

Self-reflection improves principal practice through ongoing, careful consideration of the impact of leadership practice on student growth and achievement. The Professional Growth Plan is the vehicle through which the outcomes of self-reflection are organized, articulated as specific goals, contextualized in a support framework, and monitored through pre-determined methods. Together, the multiple measures of self-reflection and professional growth planning provide critical information in determining a rating for each standard.

- All principals and assistant principals will participate in self-reflection and professional growth planning each year.
- Assistant Principals will inherit the principal's student growth goals and TELL Working Conditions goal, but will collaborate with their building principal to complete the professional growth plan.

Site-Visits

Site visits are one source of evidence that is included when determining an administrator's Overall Professional Practice Rating. School site visits applied in a variety of settings, provide information on a wide range of contributions made by principals. School site visits may range from watching how a principal interacts with others to observing programs and shadowing the administrator.

Site visits are a method by which the superintendent/designee may gain insight into the principal's practice in relation to the standards. During a site visit, the superintendent/designee will discuss various aspects of the job with the principal, and will use the principal's responses to determine issues to further explore with the faculty and staff. Additionally, the principal may explain the successes and trials the school community has experienced in relation to school improvement.

- Site – Visits will be conducted at least twice a year by the superintendent or his/her designee
 - The First Site Visit will occur sometime throughout the first semester of school after the completion of the PGP and Student Growth Goals.
 - The superintendent/designee and principal will meet to review progress on both the Student Growth Goal and the Professional Growth Goal to provide systematic feedback.
 - The Second Site Visit will occur during the second semester of school
 - The principal will complete the documentation form to submit to the superintendent/designee prior to the End of Year Review. Documentation on SGG and PGP progress will be discussed.

- All principals will be evaluated every year.

Observations – Completed by Evaluator of Assistant Principal

Observations are one source of evidence that is included when determining an administrator's Overall Professional Practice Rating. Observations applied in a variety of settings, provide information on a wide range of contributions made by assistant principals. Observations may range from watching how an assistant principal interacts with others to observing programs and shadowing the administrator.

Observations are a method by which the principal/designee may gain insight into the assistant principal's practice in relation to the standards. During an observation, the principal will discuss various aspects of the job with the assistant principal.

- Observations are to be conducted at least once each year by the principal/designee, but additional observations may be conducted if needed
- All assistant principals will be evaluated and receive summative evaluations annually
- A Summative Conference is required

Val-Ed 360°

The VAL-ED 360° is an assessment that provides feedback on a principal's learning-centered behaviors by using input from the principal, his/her supervisor, and teachers. All teachers will participate in the Val-Ed 360°. The results of the survey will be included as a source of data to inform each principal's professional practice rating.

- The Val-Ed survey will be conducted at least once every two years (in the school year the TELL Kentucky Survey is not administered).
- The superintendent and/or his/her designee will be the district contact for overseeing and administering the Val-Ed 360°
- Val-Ed° will be administered in January or February of the year in which the TELL Survey is not administered and in the following September or October of the school year when TELL is administered.
- The Principal and Superintendent and/or his designee will have access to the Val-Ed results.
- The principal and superintendent will use the results as evidence of the principal performance standards indicators and will inform the principal's growth planning process.

Working Conditions Goal (Goal Inherited by the Assistant Principal)

Principals are responsible for setting a 2-year Working Conditions Growth Goal based on the most recent TELL Kentucky Survey. The principal's effort to accomplish the Working Conditions Growth Goal is a powerful way to enhance professional performance and, in turn, positively impact school culture and student success.

- The working conditions goal is developed following the completion of the TELL Kentucky Survey.
- Each principal is required to create (1) 2-year goal.
- In the year in which the TELL survey is not given, a district developed on line survey will be created and sent to all teachers. The district developed on line survey will use the same language as the TELL survey and will address the areas in which the district scored lowest on the most recent TELL survey.
- The principal, in collaboration with the superintendent, will establish a working conditions goal rubric to measure the outcome of the working conditions growth goal. Below is an example that can be used.

Working Conditions Goal Rubric			
Ineffective	Developing	Accomplished	Exemplary
% and below	%-%	%-%	% and above

Student Growth

The following sections provide a detailed overview of the various sources of evidence used to inform Student Growth Ratings. At least one (1) of the Student Growth Goals set by the Principal must address gap populations. Assistant Principals will inherit the SGG (both state and local contributions) of the Principal.

State Contribution –Next Generation Learners (NGL) Goal Based on Delivery Targets (Goal inherited by Assistant Principal)

Principals are responsible for setting at least one student growth goal that is tied directly to the Comprehensive School Improvement Plan located in ASSIST. The superintendent and the principal will meet to discuss the trajectory for the goal and to establish the year's goal that can be seen in the school report card and that will help reach the long-term trajectory target. New goals are identified each year based on the ASSIST goals. The goal should be customized for the school year with the intent of helping improve student achievement and reaching the long term goals through on-going improvement.

Required:

- The state contribution goal will be based on the reading, math, or combined reading and mathematics gap group based on ASSIST/NGL delivery targets.

Dayton Independent Schools Decision Rules for Determining Growth State Growth Goal		
Low	Expected	High
The reading, math, or combined reading and math delivery target for the gap group was not met AND more than halfway from the intended target.	The reading, math, or combined reading and math delivery target for the gap group was met OR was no less than halfway from the intended target.	The reading, math, or combined reading and math delivery target for the gap group was exceeded.

Local Contribution – Based on School Need (Goal inherited by Assistant Principal)

The local goal for Student Growth should be based on school need. It may be developed to parallel the State Contribution or it may be developed with a different focus.

- Each principal will set one (1) local growth goal based on an identified need outlined in the Comprehensive School Improvement Plan.
- The local student growth goal will be determined by the principal in collaboration with the superintendent/designee by looking at baseline data and discussing the proposed goal.
- The goal is to be customized for the school year with the intent of helping improve student achievement and reaching the long term goals through on-going improvement.
- The goal is to be written as a SMART goal and include both a growth component.
- **Principals will use MAP data, CERT data, CCR data, EOC data or some other form of local data to write a growth goal based on the percent of students being proficient. For example, the goal might state, to grow from 50% proficient to 60% proficient. The rubric below will be used:**

Determining the Overall Performance Category

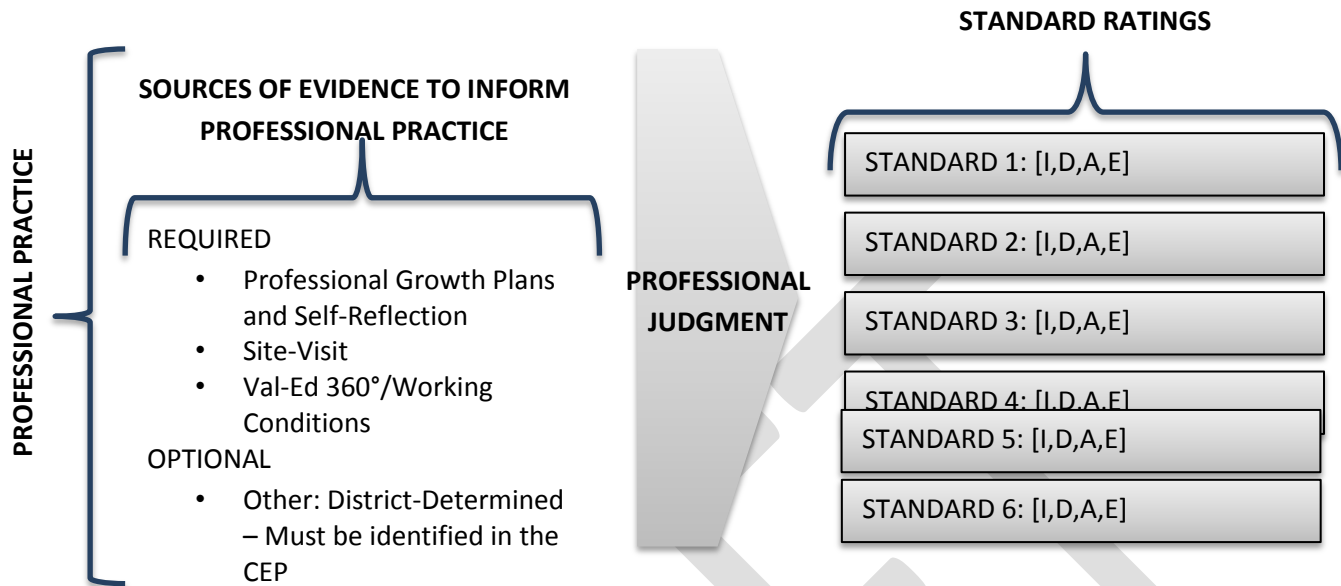

Superintendents are responsible for determining an Overall Performance Category for each principal at the conclusion of their summative evaluation year. The Overall Performance Category is informed by the principal's ratings on professional practice and student growth.

Rating Professional Practice

The Kentucky Principal Performance Standards stand as the critical rubric for providing principals and evaluators with concrete descriptions of practice associated with specific standards. Each standard describes a behavior or related set of behaviors that principals and evaluators can prioritize for evidence-gathering, feedback, and eventually, evaluation. Evaluators will organize and analyze evidence for each individual principal based on these concrete descriptions of practice.

Evaluators and principals will be engaged in ongoing dialogue throughout the evaluation cycle. The process concludes with the evaluator's analysis of evidence and the final assessment of practice in relation to performance described under each Standard at the culmination of an educator's cycle. All ratings will be recorded in CIITS. The chart below will be used in determining a Principal's Professional Practice Rating:

CRITERIA FOR DETERMINING A PRINCIPAL'S OR ASSISTANT PRINCIPAL'S PROFESSIONAL PRACTICE RATING	
IF...	THEN...
At least four (4) standards are rated as EXEMPLARY and no standard is rated below ACCOMPLISHED	Professional Practice Rating shall be EXEMPLARY
At least four (4) standards are rated as ACCOMPLISHED and no standard is rated below DEVELOPING	Professional Practice Rating shall be ACCOMPLISHED
At least five (5) standards are rated as DEVELOPING	Professional Practice Rating shall be DEVELOPING
Two (2) or more standards are rated as INEFFECTIVE	Professional Practice Rating shall be INEFFECTIVE

Evaluators will place all final ratings in CIITS

- Principals may provide additional evidence provided in support of principal practice may include items from the following list (not a comprehensive list):
 - ☐ SBDM Minutes
 - ☐ Faculty Meeting Agendas and Minutes
 - ☐ Department/Grade Level Agendas and Minutes
 - ☐ PLC Agendas and Minutes
 - ☐ Leadership Team Agendas and Minutes
 - ☐ Instructional Round/Walk-through documentation
 - ☐ Budgets
 - ☐ EILA/Professional Learning experience documentation
 - ☐ Surveys
 - ☐ Professional Organization memberships
 - ☐ Parent/Community engagement surveys
 - ☐ Parent/Community engagement events documentation
 - ☐ School schedules
- Evaluators will apply state decision rules for determining an educator's professional practice.

Overall Student Growth Rating

Overall Student Growth Rating results from a combination of professional judgment and the district-developed instrument. The instrument is designed to aid the evaluator in applying professional judgment to multiple evidences of student growth over time. Student growth ratings must include data from both the local and state contributions.

The following decision rules will be used to rate overall student growth as low, expected, or high for principals:

- When determining a principals overall student growth, the superintendent will analyze and compare the trends of the state growth goal, local growth goal, and other local growth measures such as MAP, Star, etc. and use professional judgement to determine overall student growth.

Determining the Overall Performance Category

A principal's Overall Performance Category is determined by the evaluator based on the principal's ratings on each standard, as well as student growth. Evaluators will use the following decision rules for determining the Overall Performance Category:

Exemplary	Shall have a minimum of a Professional Growth Plan developed by the evaluator	"Shall" have a minimum of a self-directed growth plan	"Shall" have a minimum of a self-directed growth plan
Accomplished		"Shall" have a minimum of a self-directed growth plan	
Developing	"Shall" have a minimum of a directed growth plan		"Shall" have a minimum of a self-directed growth plan
Ineffective	"Shall" have a minimum of a Corrective Action Plan (Evaluator Directed)		
	Low Growth	Expected Growth	High Growth

Part A: Reflection on the Standards in the Kentucky Principal Professional Growth and Effectiveness System

Reflect on the effectiveness and adequacy of your practice in each of the performance standards. Provide a rating (I = Ineffective; D = Developing; A = Accomplished; E=Exemplary) on each performance standard and list your strengths and areas for growth. A complete listing of performance standards and indicators can be found at the end of this form.

Standard	Self-Assessment				Strengths and areas for growth
1. Instructional Leadership <i>The principal fosters the success of all students by facilitating the development, communication, implementation, and evaluation of a shared vision of teaching and learning that leads to student academic growth and school improvement.</i>	I	D	A	E	
2. School Climate <i>The principal fosters the success of all students by developing, advocating, and sustaining an academically rigorous, positive, and safe school climate for all stakeholders.</i>	I	D	A	E	
3. Human Resource Management <i>The principal fosters effective human resources management by assisting with selection and induction, and by supporting, evaluating, and retaining quality instructional and support personnel.</i>	I	D	A	E	
4. Organizational Management <i>The principal fosters the success of all students by supporting, managing, and overseeing the school's organization, operation, and use of resources.</i>	I	D	A	E

Part C: Principal's TELL Kentucky Working Conditions Goal

Target Question(s) from TELL Kentucky Results:

Following a review of TELL Kentucky results, the principal, in collaboration with the superintendent, will identify questions that signify areas of growth that the principal can address that will impact school culture and ultimately student success.

Target Performance Standard:

The principal will connect the Target Questions to the appropriate Performance Standard, which becomes the Target Performance Standard for the WC Growth Goal.

Working Conditions Growth Goal Statement:

The WC Growth Goal statement should be specific to the principal and should identify the specific growth that the principal plans to accomplish in the 2-year cycle of TELL Kentucky.

Working Conditions Goal Rubric			
Ineffective	Developing	Accomplished	Exemplary
The principal is more than -10% of the goal.	The principal is no more than -10% of the goal.	The principal achieves the expected outcome from the goal.	The principal exceeds the expected outcome from the goal.

Working Conditions Growth Goal Rubric:

The rubric is established when setting the WC Growth Goal in collaboration with the Superintendent. An "Accomplished" result is the expected outcome from the goal. To achieve "Exemplary" the goal must be exceeded.

Sample Documentation Template – Site Visit

Recommended Practice:

1. When conducting a site visit or preparing to provide feedback to a principal during any phase of the Principal Professional Growth and Effectiveness System, refer to the performance indicators for each principal standard to find examples of behaviors that, when documented, support a degree of effectiveness for that standard. Performance indicators are possible “look fors” only and do not constitute an exhaustive list.
2. Use open ended questions to guide conversation specific to the performance standards. Use follow-up questions as needed to solicit responses that are evidence-based.
3. Request evidence beyond what has already been seen to support each performance standard as needed. Allow principals to submit additional evidence of their effectiveness on performance standards as desired.
4. Provide feedback that is evidence-based, specific to the performance standards, and that will assist the principal in professional growth and overall effectiveness.
