

**APPROVAL OF THE SCHEMATIC DESIGN DOCUMENTS  
FOR THE CONSTRUCTION OF THE SOFTBALL FIELD  
HOUSE (PHASE 2) AT BRYAN STATION HIGH SCHOOL**

**BG 15-153**

**BACKGROUND AND RATIONALE:** The construction of a new softball field house of approximately 1,800 SF to include dressing area/lockers, showers/toilets, batting cage, coaches' office and equipment storage is proposed in response to the TITLE IX issues identified by the KHSAA survey of FCPS high school athletic facilities. The building design and construction project has been planned as Phase Two of the softball field press box replacement. The work will be funded through general funds and is subject to the approval of the Kentucky Department of Education. A BG-1 Project Application for the construction, identifying the extent and cost of the work, has been approved by the Board and has been filed with the Kentucky Department of Education. At this time, the Board is required by 702 KAR 4:160 to indicate acceptance of the schematic design represented in the plans prepared by the design consultants Pearson & Peters Architects. Based on the review of these documents by FCPS staff, the Department of Physical Support Services recommends approval of these plans. Upon the Board's approval, these documents will be submitted to the KDE District Facilities Branch for review and approval prior to the preparation of design development documents.
