

Professional Learning for Educator Effectiveness (PLEE) Coaches

Professional Learning for Educator Effectiveness (PLEE) and Novice Reduction Coaches by Region

The PLEE coaches will support district leadership teams in effective implementation of the Professional Growth and Effectiveness System such that it serves as a vehicle for a system of continuous improvement. Professional learning around leadership (including observation, conferencing and time management), assessment literacy (especially in conjunction with effective methods for measuring student growth), and how to build capacity in these areas will be a primary focus.

The goal is that every child is taught by an effective teacher, and every school is led by an effective leader. The coaches will facilitate professional learning experiences in new and existing regional networks, as well as on site in your district to provide support to your district leadership team(s).

If you have questions regarding this support system, please contact Jenny Ray or your regional PLEE coach.
