*To Mr. Benningfeild*

*This is my proposal to remove all dead trees of value and also cut down all damaged trees at South Todd Elementary.*

*For all of this I will cut and make a road through the woods for a nature trail, starting on east side by highway 181 and go to the west side property of school by highway 1753. This nature trail will be approximately 10 feet wide and will be able to drive a vehicle from one end to the other end. All of this will be done free of charge. This will be our donation to the school from Byler Logging.*

*Thanks*

*Melvin Byler/Byler Logging*
