Re: Geothermal Test Well for
James T Alton Middle School
Vine Grove, KY

Dear Mr. Milby:

Please find attached the quotes for one (1) test well at the site of James T Alton Middle School. The quotes received were from Eastern Well & Pump, Inc., and T&B Drilling.

Upon review of the quotes, we recommend that T&B drilling be selected to do the test well work. Their base quote for this work is \$5,300 and \$4,800.00 for a second test well. This is the lowest quote out of the two quotes received.

If you agree with our recommendation and wish to have us authorize T&B drilling to do the test well work at the James T Alton site, please have a school representative sign this letter where indicated below and return to our office. We will assist the contractor in finding the proposed well field site and locate the test well. The test well will be located where it can be used in the final well field layout.

If you would like to further discuss this issue, please feel free to call us at your convenience.

Sincerely,

Brandon Cecil
